

FUTURE STRATEGIES FOR IMPROVING AIR QUALITY

Tax schemes and congestion charges will discourage the use of diesel vehicles and driving in cities, in general.

Investing in vehicle and fuel technologies will create a positive impact.

Initiatives regarding the optimization of urban spaces will reduce vehicle travel demands.

Improving areas of public transportation such as reliability, affordability, and accessibility will bring public interest back, stimulating citizens to choose more sustainable modes of transport.

Improved infrastructure will encourage people to use other means of moving around such as walking or cycling.

Opportunities to Improve Air Quality Through Transportation Pricing Programs ,1997 **Improving air quality with economic incentive programs** ,2001 *Transportation Air Quality Center Products* ,1999 Opportunities to Improve Air Quality Through Transportation Pricing Programs Barry Leonard,1998-08-01 This report is intended to give state and local air quality and transportation planners elected government officials and other interested parties background information on transportation pricing programs Specifically it explains why pricing can make sense the institutional relationships necessary for pricing measures to work and some pitfalls to avoid in implementing a program With examples of pricing programs adopted throughout the country illustrating these points the report addresses the current price of driving public involvement and acceptance equity and transportation pricing and funding sources Charts and tables **Monthly Catalog of United States Government Publications** ,1998 **Law and Economics in India** Bimal N. Patel,Ranita Nagar,Hiteshkumar Thakkar,2016-07-22 This is one of the first volumes that uses economic tools to analyse and evaluate law and policy in India Applying economic theories such as incentive analysis cost benefit studies and game theory the essays in the volume negotiate contentious issues in law including property contracts torts nuclear liability regime bankruptcy law criminal law and procedure constitutional law administrative law environmental law and family law A radical take on commercial and socio legal issues in India this book will greatly interest scholars and researchers of law political economy and public policy **EPA 190-R.** ,1997 Innovative Urban Wet-Weather Flow Management Systems Richard Field,James P. Heaney,Robert Pitt,2000-06-27 The 20th century s automobile inspired land use changes brought about tremendous transformations in how stormwater moves across the modern urban land scape Streets and parking areas in the average urban family s neighborhood now exceed the amount of land devoted to living space Add parking office and commercial space and it s easy to understand how modern cities have experienced a three fold increase in impervious areas Traditional wet weather collection systems removed stormwater from urban areas as quickly as possible often transferring problems downstream Innovative Urban WetWeather Flow Management Systems does two things It considers the physical chemical and biological characteristics of urban runoff then describes innovative methods for improving wet weather flow WWF management systems The result of extensive research Innovative Urban Wet Weather Flow Manage ment Systems looks most at how to handle runoff in developments of the 21st century the confl icting objectives of providing drainage while decreasing stormwater pollutant discharges the impact of urban WWF on surface and groundwater such as smaller urban stream channels scoured by high peak flows sediment transport and the toxic effects of WWF on aquatic organisms the effectiveness of WWF controls including design guidelines and source and downstream controls are an important issue Innovative Urban Wet Weather Flow Management Systems looks at how source controls like biofi ltration created through simple grading may work in newly developing areas while critical source areas like an auto service facilities may need more extensive treatment

strategies Focusing WWF treatment on intensively used areas such as the 20 percent of streets that handle the bulk of the traffic and under utilized parking areas is also considered Developing a more integrated water supply system collecting treating and disposing of wastewater and handling urban WWF requires innovative methods such as a neighborhood scale system that would recycle treated wastewater and storm water for lawn watering and toilet flushing or use treated roof runoff for potable purposes **EPA/420-R** ,19??
