## **Opposing Poetries Vol 1:**

**The Mind's Landscape** David Clippinger, 2006 Throughout the latter half of the twentieth century the poet William Bronk 1918-1999 was a significant voice in the American literary landscape. Even though he spent nearly all of his life in Hudson Falls, NY, Bronk was a vital presence in American poetry as evidenced by his connections to Robert Frost, Charles Olson, George Oppen, Robert Creeley, Wallace Stevens, Susan Howe, Rosemarie Waldrop and others. **The Mind's Landscape** attempts to present a fresh perspective of twentieth-century literary history as seen through the lens of Bronk's life as a writer. **The Cambridge Companion to American Poetry Since 1945** Jennifer Ashton, 2013-02-08 Explores the ways in which American poetry has documented and sometimes helped propel the literary and cultural revolutions of the past sixty-five years. **Poetry & Language Writing** David Arnold, 2007-11-01 It has been variously labelled Language Poetry, Language Writing, L A N G U A G E writing, after the magazine that ran from 1978 to 1981, and language-centred writing. It has been placed according to its geographical positions on East or West coasts, its venues in small magazines, independent presses and performance spaces, and its descent from historical precursors be they the Objectivists, the composers by field of the Black Mountain School, the Russian Constructivists or American modernism. Like William Carlos Williams and Gertrude Stein, indeed, one of the few statements that can be made about it with little qualification is that it has both fostered and endured a crisis in representation more or less since it first became visible in the 1970s. In **Poetry Language Writing** David Arnold grasps the nettle of Language poetry, reassessing its relationship with surrealism and providing a scholarly, intelligent way of understanding the movement. Poets discussed include Charles Bernstein, Susan Howe, Michael Palmer and Barrett Watten.

**Poetry's Afterlife** Kevin Stein, 2011-02-16 Poetry lives on in the digital age. **Resistance to Science in Contemporary American Poetry** Bryan Walpert, 2011-09-26 This book examines types of resistance in contemporary poetry to the authority of scientific knowledge, tracing the source of these resistances to both their literary precedents and the scientific zeitgeists that helped to produce them. Walpert argues that contemporary poetry offers a palimpsest of resistance, using as case studies the poets Alison Hawthorne Deming, Pattiann Rogers, Albert Goldbarth and Joan Retallack to trace the recapitulation of romantic arguments inherited from Keats, Shelley and Coleridge, which in turn were produced in part in response to Newtonian physics, modernist arguments inherited from Eliot and Pound, arguments influenced in part by relativity and quantum theory, and postmodernist arguments informed by post-structuralist theory, e.g. Barthes, Derrida, Foucault, with affinities to arguments for the limitations of science in the philosophy, sociology and rhetoric of science. Some of these poems reveal the discursive ideologies of scientific language; in other words, the performativity of scientific language. In doing so, these poems themselves can also be read as performative acts and therefore as forms of intervention rather than representation. Reading Retallack alongside science studies scholar Karen Barad, the book concludes by proposing that viewing knowledge as a form of intervention rather than representation offers a bridge between

contemporary poetry and science      **The Feminist Avant-Garde in American Poetry** Elisabeth A. Frost, 2005-04 The Feminist Avant Garde in American Poetry offers a historical and theoretical account of avant garde women poets in America from the 1910s through the 1990s and asserts an alternative tradition to the predominantly male dominated avant garde movements Elisabeth Frost argues that this alternative lineage distinguishes itself by its feminism and its ambivalence toward existing avant garde projects she also thoroughly explores feminist avant garde poets debts and contributions to their male counterparts      *Procedural Form in Postmodern American Poetry* D. Huntsperger, 2010-03-29 This book explores the political significance of formal experimentation in American poetry written during the 1960s 70s and 80s It focuses on the use of procedural forms which involve the invention of rules or methods designed to structure the production of a poem s content      **Comparative Criticism: Volume 20, Philosophical Dialogues** E. S. Shaffer, 1998-11-19 Comparative Criticism is an annual journal of comparative literature and cultural studies that has gained an international reputation since its inception in 1979 It contains major articles on literary theory and criticism on a wide range of comparative topics and on interdisciplinary debates It includes translations of literary scholarly and critical works substantial reviews of important books in the field and bibliographies on specialist themes for the year on individual writers and on comparative literary studies in Britain and Ireland      **The Cambridge Companion to American Poetry and Politics since 1900** Daniel Morris, 2023-04-27 This book helps readers make sense of the scope and complexity of the relationships between poetry and politics since 1900      American Literature in Transition, 2000-2010 Rachel Greenwald Smith, 2017-12-28 American Literature in Transition 2000 2010 illuminates the dynamic transformations that occurred in American literary culture during the first decade of the twenty first century The volume is the first major critical collection to address the literature of the 2000s a decade that saw dramatic changes in digital technology economics world affairs and environmental awareness Beginning with an introduction that takes stock of the period s major historical cultural and literary movements the volume features accessible essays on a wide range of topics including genre fiction the treatment of social networking in literature climate change fiction the ascendancy of Amazon and online booksellers 9 11 literature finance and literature and the rise of prestige television Mapping the literary culture of a decade of promise and threat American Literature in Transition 2000 2010 provides an invaluable resource on twenty first century American literature for general readers students and scholars alike      American Poetry as Transactional Art Stephen Fredman, 2020-06-02 Explores the ways American poetry engages with visual art music fiction spirituality and performance art Many people think of poetry as a hermetic art as though poets wrote only about themselves or as if the subject of poetry were finally only poetry its forms and traditions Indeed much of what constitutes poetry in the lyric tradition depends on a stringently controlled point of view and aims for a timeless intransitive utterance Stephen Fredman s study proposes a different perspective American Poetry as Transactional Art explores a salient quality of much avant garde American poetry that has so far lacked sustained treatment namely its role as

a transactional art Specifically Fredman describes this role as the ways it consistently engages in conversation talk correspondence going beyond the scope of its own subjects and forms its existential interactions with the outside world Poetry operating in this vein draws together images ideas practices rituals and verbal techniques from around the globe and across time not to equate them but to establish dialogue to invite as many guests as possible to the World Party which Robert Duncan has called the symposium of the whole Fredman invites new readers into contemporary poetry by providing lucid and nuanced analyses of specific poems and specific interchanges between poets and their surroundings He explores such topics as poetry's transactions with spiritual traditions and practices over the course of the twentieth century the impact of World War II on the poetry of Charles Olson and George Oppen exchanges between poetry and other art forms including sculpture performance art and ambient music the battle between poetry and prose in the early work of Paul Auster and in Lyn Hejinian's *My Life* The epilogue looks briefly at another crucial transactional occasion teaching American poetry in the classroom in a way that demonstrates that it is at the center of the arts and at the heart of American culture

### **Poetry's Playground**

Joseph T. Thomas, 2007 The first book length study of contemporary American children's poetry *Poetry's Playground* considers children's poetry in relation to the wider scope of adult poetic discourse *A Field on Mars* Jerome

Rothenberg, 2016-07-12 Rothenberg says Look hear weigh touch feel consider this is where humans have been this is the sign and flesh and signature and shadow of our ancestry and lineage our past present and future this is the trail the human trail this is where there is nothing to hide nothing to fear only sharing infinite sharing

**American Women Poets in the 21st Century** Claudia Rankine, Juliana Spahr, 2002-08-13 A thought provoking mix of poetry creative manifesto and criticism

**Something We Have That They Don't** Steve & Mark Clark & Ford, Steven H. Clark, 2004-04 There is some connexion I like the way the English spell it They're so clever about some things Probably smarter generally than we are Although there is supposed to be something We have that they don't don't ask me What it is John Ashbery Tenth Symphony *Something We Have That They Don't* presents a variety of essays on the relationship between British and American poetry since 1925 The essays collected here all explore some aspect of the rich and complex history of Anglo American poetic relations of the last seventy years Since the dawn of Modernism poets either side of the Atlantic have frequently inspired each other's developments from Frost's galvanizing advice to Edward Thomas to rearrange his prose as verse to Eliot's and Auden's enormous influence on the poetry of their adopted nations whichever Auden is Eliot once replied when asked if he were a British or an American poet I suppose I must be the other from the impact of Charles Olson and other Black Mountain poets on J H Prynne and the Cambridge School to the widespread influence of Frank O'Hara and Robert Lowell on a diverse range of contemporary British poets Clark and Ford's study aims to chart some of the currents of these ever shifting relations Poets discussed in these essays include John Ashbery W H Auden Elizabeth Bishop T S Eliot Mark Ford Robert Graves Thom Gunn Lee Harwood Geoffrey Hill Michael Hofmann Susan Howe Robert Lowell and W B Yeats Poetry and sovereignty Philip Larkin

remarked in an interview of 1982 are very primitive things these essays consider the ways in which even seemingly very unprimitive poetries can be seen as reflecting and engaging with issues of national sovereignty and self interest and in the process they pose a series of fascinating questions about the national narratives that currently dominate definitions of the British and American poetic traditions This innovative and exciting new collection will be of great interest to students and scholars of British and American poetry and comparative literature

**Experimentalism as Reciprocal Communication in Contemporary American Poetry** Elina Siltanen, 2016-10-06 The poems of John Ashbery Lyn Hejinian and Ron Silliman may seem to offer endless small details of expression observation thought and narrative which fail to hang together even from one line to the next But as Elina Siltanen shows here this extraordinary flow of uncoordinated detail can stimulate readers to join the poets in a delightful exploration of ordinary language When readers take a poem in this spirit they actually begin to read as members of a community the community not only of themselves and other readers but also including the poet and other poets plus all the speakers of the language in which the poem is written For all these different parties that language is indeed a shared resource and the way for readers to get started is simply by recalling or imagining some of the numerous kinds of context in which the given poem's words phrases sentences could or could not be successfully used The rewards for such proactive readers are on the one hand a heightened sense of the subtle interweavings of language and life and on the other hand a freshly empowered self confidence The point being that within the community of contemporary experimental poetry poets have no more authority than readers Rejecting older cultural hierarchies they present themselves as teasing out the idiomatic serendipities of their own poems together with their readers

Close Listening Charles Bernstein, 1998-04-30 Close Listening brings together seventeen strikingly original essays especially written for this volume on the poetry reading the sound of poetry and the visual performance of poetry While the performance of poetry is as old as poetry itself critical attention to modern and postmodern poetry performance has been surprisingly slight This volume featuring work by critics and poets such as Marjorie Perloff Susan Stewart Johanna Drucker Dennis Tedlock and Susan Howe is the first comprehensive introduction to the ways in which twentieth century poetry has been practiced as a performance art From the performance styles of individual poets and types of poetry to the relation of sound to meaning from historical and social approaches to poetry readings to new imaginations of prosody the entries gathered here investigate a compelling range of topics for anyone interested in poetry Taken together these essays encourage new forms of close listenings not only to the printed text of poems but also to tapes performances and other expressions of the sounded and visualized word The time is right for such a volume with readings spoken word events and the Web gaining an increasing audience for poetry Close Listening opens a number of new avenues for the critical discussion of the sound and performance of poetry

**The Cambridge Companion to Modern American Poetry** Walter Kalaidjian, 2015-01-19 The Cambridge Companion to Modern American Poetry offers a critical overview of major and emerging American poets of the twentieth century

**Writing Into**

**the Future** Alan Golding, 2022-09-13 The dial The little review and the dialogics of the modernist new The new American poetry revisited again New newer and the newest American poetics Poetry anthologies and the idea of the mainstream Serial form in George Oppen and Robert Creeley Place space and new syntax in Oppen s Seascape needle s eye Macro micro material Rachel Blau DuPlessis s Drafts and the post objectivist serial poem Drafts and fragments Rachel Blau DuPlessis s counter Poudian project Drawings with words Susan Howe s visual feminist poetics Authority marginality England and Ireland in the work of Susan Howe Bruce Andrews writing and poetry What about all this writing Williams and alternative poetics Language writing digital poetics and transitional materialities      **Ugly Feelings** Sianne Ngai, 2009-07-01 Ngai mobilizes the aesthetics of unprestigious negative affects such as irritation envy and disgust to investigate not only ideological and representational dilemmas in literature with a particular focus on those inflected by gender and race but also blind spots in contemporary literary and cultural criticism
