Justice and the Politics of Difference Iris Marion Young, Danielle S. Allen, 2011-09-11 In this classic work of feminist political thought Iris Marion Young challenges the prevailing reduction of social justice to distributive justice The starting point for her critique is the experience and concerns of the new social movements that were created by marginal and excluded groups including women African Americans and American Indians as well as gays and lesbians Young argues that by assuming a homogeneous public democratic theorists fail to consider institutional arrangements for including people not culturally identified with white European male norms Consequently theorists do not adequately address the problems of an inclusive participatory framework Basing her vision of the good society on the culturally plural networks of contemporary urban life Young makes the case that normative theory and public policy should undermine group based oppression by affirming rather than suppressing social group differences Provided by publisher
