Political Unconscious Narrative As A Socially Symbolic Act:

The Political Unconscious Fredric Jameson, 2013-02-01 In this ground breaking and influential study Fredric Jameson explores the complex place and function of literature within culture At the time Jameson was actually writing the book in the mid to late seventies there was a major reaction against deconstruction and poststructuralism As one of the most significant literary theorists Jameson found himself in the unenviable position of wanting to defend his intellectual past yet keep an eye on the future With this book he carried it off beautifully A landmark publication The Political Unconscious takes its place as one of the most meaningful works of the twentieth century century *The Political Unconscious* Fredric Jameson, 1989 Every now and then a book appears which is literally ahead of its time The Political Unconscious is such a book it sets new standards of what a classic work is Slavoj Žižek In this ground breaking and influential study Fredric Jameson explores the complex place and function of literature within culture A landmark publication The Political Unconscious takes its place as one of the most meaningful works of the twentieth century First published 1983 *Socially Symbolic Acts* Joseph Francese, 2006 This book discusses issues of broad cultural consequence by examining the work of three of Italy's most prominent living novelists Umberto Eco Vincenzo Consolo and Antonio Tabucchi The introductory chapter continues a discussion of some of the topics already broached in the author's *Narrating Postmodern Time and Space* 1997 It uses an approach that is both historicist and psychoanalytic to critically address topics in cultural studies and Italian studies The book deals with fictions of very recent publication many of which have been published after the turn of the millennium filling important gaps in the critical bibliography Close readings relate texts to their historical and cultural contexts critiquing their ideology while preserving their Utopian moments **The Narrative Reader** Martin McQuillan, 2000 The Narrative Reader aims to provide a comprehensive survey of narrative theories ranging from Plato to Post Structuralism The selection of texts is bold and broad demonstrating the extent to which narrative permeates the entire field of literature and culture It shows the ways in which narrative crosses disciplines continents and theoretical perspectives and is a long overdue and welcome addition to the field The Narrative Reader will fascinate students and researchers alike providing a much needed point of entry to the increasingly complex field of narrative theory **The Book of Acts in Its Ancient Literary Setting** Bruce W. Winter, Andrew D. Clarke, 1993-11-18 Volume 5 in a series which strives to place the Book of Acts within its first century setting Irina Levinskaya employs impressive archaeological research to throw light on the relation of Jews to the societies in which they lived during the period of dispersion She surveys commonly held views and challenges current views regarding the true nature of Jewish missionary activity **Encyclopedia of Contemporary Literary Theory** Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid

concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini bibliographies, and cross referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians, and for all scholars and students of contemporary criticism and culture.

From Tradition to Commentary Steven D. Fraade, 2012-02-01. This book examines Torah and its interpretation both as a recurring theme in the early rabbinic commentary and as the very practice of the commentary. It studies the phenomenon of ancient rabbinic scriptural commentary in relation to the perspectives of literary and historical criticisms and their complex intersection. The author discusses extensively the nature of ancient commentary, comparing and contrasting it with the antecedents in the pesharim of the Dead Sea Scrolls and the allegorical commentaries of Philo of Alexandria. He develops a model for a dynamic understanding of the literary structure and sociohistorical function of early rabbinic commentary and then applies this model to the Sifre to the oldest extant running commentary to Deuteronomy and one of the oldest rabbinic collections of exegesis. Fraade examines the commentary's representation of revelation and its reception at Mt Sinai with particular attention to its fractured refiguration and interrelation of Scripture, tradition, and history. He discusses the commentary's discursive empowering of the class of sages in their collective self-understanding as Israel's authorized teachers, leaders, legislators, and judges. The author also probes the tension between Torah and nature as witnesses to Israel's covenant with God.

The Aesthete in the City: The Philosophy and Practice of American Abstract Painting in the 1980s, 1994. *George Gissing and the Woman Question* Christine Huguet, 2016-04-22. Approaching its subject both contextually and comparatively, *George Gissing and the Woman Question* reads Gissing's novels, short stories, and personal writings as a crux in European fiction's formulations of gender and sexuality. The collection places Gissing alongside nineteenth and twentieth-century authors as diverse as Paul Bourget, Ella Hepworth Dixon, May Sinclair, and Theodore Dreiser, theorizing the ways in which late Victorian sexual difference is challenged, explored, and performed in Gissing's work. In addition to analyzing the major novels, essays make a case for Gissing as a significant short story writer and address Gissing's own life and afterlife in ways that avoid biographical mimetics. The contributors also

place Gissing's work in relation to discourses of subjectivity and intersubjectivity identity public space class and labour especially literary production Increasingly viewed as a key chronicler of the late Victorian period's various redefinitions of sexual difference Gissing is here recognized as a sincere uncompromising chronicler of social change **The New**

postmodern thought especially in literary theory is the belief that such ideals as truth reason and objectivity are social constructs that have no universal or trans historical validity In exploring this constructivist view Satya P Mohanty examines its underlying epistemological claims and their social and political implications His book points the way toward a critical alternative to the epistemological and cultural relativisms Mohanty grounds his critique in readings of some of the major figures of postmodernism including Paul de Man Louis Althusser Fredric Jameson and Jacques Derrida and analyzes the views of Mikhail Bakhtin C S Peirce Hilary Putnam and Richard Rorty particularly their notions of language and referentiality Mohanty defends a post positivist realist conception of objectivity as a legitimate ideal of all inquiry He outlines a realist theory of social identity and multicultural politics which sees radical moral universalism and cultural diversity as
