Sara Williams

Politics Of Focus Women Children And Nineteenth Century Photography:

The Politics of Focus Lindsay Smith, 1998 Explores the meanings of photographic 19th century photographic discourse both visual and verbal as it related to the status and image of women and children Of particular importance to the author is how the work of women photographers addressed issues of early feminism In the course of the book she attempts to use the material to help form the basis of a new critical theory of photography which can take a place next to the more mature theory of film Distributed by St Martin s Press Annotation copyrighted by Book News Inc Portland OR **Ophelia and Victorian**

Visual Culture Kimberly Rhodes, 2017-07-05 Kimberly Rhodes s interdisciplinary book is the first to explore fully the complicated representational history of Shakespeare s Ophelia during the Victorian period In nineteenth century Britain the shape function and representation of women s bodies were typically regulated and interpreted by public and private institutions while emblematic fictional female figures like Ophelia functioned as idealized templates of Victorian womanhood Rhodes examines the widely disseminated representations of Ophelia from works by visual artists and writers to interpretations of her character in contemporary productions of Hamlet revealing her as a nexus of the struggle for the female body s subjugation By considering a broad range of materials including works by Anna Lea Merritt Elizabeth Siddal Dante Gabriel Rossetti and John Everett Millais and paying special attention to images women produced Rhodes illuminates Ophelia as a figure whose importance crossed class and national boundaries Her analysis yields fascinating insights into high and mass culture and enables transnational comparisons that reveal the compelling associations among Ophelia gender roles body image and national identity Discourses of Vision in Nineteenth-Century Britain Jonathan Potter, 2018-09-22 This book offers an innovative reassessment of the way Victorians thought and wrote about visual experience It argues that new visual technologies gave expression to new ways of seeing using these to uncover the visual discourses that facilitated informed and shaped the way people conceptualised and articulated visual experience In doing so the book reconsiders literary and non fiction works by well known authors including George Eliot Charles Dickens G H Lewes Max Nordau Herbert Spencer and Joseph Conrad as well as shedding light on less known works drawn from the periodical press By revealing the discourses that formed around visual technologies the book challenges and builds upon existing scholarship to provide a powerful new model by which to understand how the Victorians experienced conceptualised and wrote about vision

Childhood and Child Labour in Industrial England Katrina Honeyman, 2016-05-23 The purpose of this collection is to bring together representative examples of the most recent work that is taking an understanding of children and childhood in new directions The two key overarching themes are diversity social economic geographical and cultural and agency the need to see children in industrial England as participants even protagonists in the process of historical change not simply as passive recipients or victims Contributors address such crucial subjects as the varied experience of work poverty and apprenticeship institutional care the political voice of children child sexual abuse and children and education This volume

therefore includes some of the best innovative work on the history of children and childhood currently being written by both younger and established scholars *Epistolary Encounters in Neo-Victorian Fiction* K. Brindle, 2014-01-24 Neo Victorian writers invoke conflicting viewpoints in diaries letters etc to creatively retrace the past in fragmentary and contradictory ways This book explores the complex desires involved in epistolary discoveries of hidden Victorians offering new insight into the creative synthesising of critical thought within the neo Victorian novel **The Maternal Gaze in the Gothic** Sara Williams, 2025-01-27 This monograph is an original project which plots the trajectory of the maternal gaze as a convention in the Gothic It offers new directions for Gothic studies by exposing and challenging a critical and cultural myopia towards the capabilities of maternal desire and in doing so engages with a range of texts from the Romantic to contemporary literary and visual cultures to locate a tyrannical maternal gaze in the genre Compelling a seismic shift in the perception of the genre as the embodiment of patriarchy and the sexually violent male gaze this is a new and unexplored area of both the Gothic and criticism of the genre which has historically privileged the Oedipal paternal tyrant female victim dynamic established in the Romantic Gothics of Walpole and Radcliffe The monograph fills significant gaps in the Gothic academic publishing market It is the first overview of the maternal gaze in the Gothic it offers in depth studies of previously neglected authors and their works and it fundamentally changes how we see the Gothic mother figure and child both as a single entity and discrete tropes The Maternal Gaze in the Gothic examines how articulations of maternal visual tyrannies in the Gothic including kidnapping incarcerating gaslighting hurting and killing the child under the guises of protection are ignored by both the Gothic critical heritage and also feminist gaze theory This book is a must read for those interested in the Gothic and Feminism alike **The Late Victorian Gothic** Hilary Grimes, 2016-03-03 Examining the automatic writing of the spiritualist s ances discursive technologies like the telegraph and the photograph various genres and late nineteenth century mental science this book shows the failure of writers attempts to use technology as a way of translating the supernatural at the fin de si cle Hilary Grimes shows that both new technology and explorations into the ghostly aspects of the mind made agency problematic When notions of agency are suspended Grimes argues authorship itself becomes uncanny Grimes s study is distinct in both recognizing and crossing strict boundaries to suggest that Gothic literature itself resists categorization not only between literary periods but also between genres Treating a wide range of authors Henry James Rudyard Kipling Arthur Conan Doyle George Du Maurier Vernon Lee Mary Louisa Molesworth Sarah Grand and George Paston Grimes shows how fin de si cle works negotiate themes associated with the Victorian and Modernist periods such as psychical research mass marketing and new technologies With particular attention to texts that are not placed within the Gothic genre but which nevertheless conceal Gothic themes The Late Victorian Gothic demonstrates that the end of the nineteenth century produced a Gothicism specific to the period *The Oxford Handbook of the Archaeology of Childhood* Sally Crawford, Dawn Hadley, Gillian Shepherd, 2018-05-10 Real understanding of past societies is not possible without including children and yet

they have been strangely invisible in the archaeological record Compelling explanation about past societies cannot be achieved without including and investigating children and childhood However marginal the traces of children s bodies and bricolage may seem compared to adults archaeological evidence of children and childhood can be found in the most astonishing places and spaces The archaeology of childhood is one of the most exciting and challenging areas for new discovery about past societies Children are part of every human society but childhood is a cultural construct Each society develops its own idea about what a childhood should be what children can or should do and how they are trained to take their place in the world Children also play a part in creating the archaeological record itself In this volume experts from around the world ask questions about childhood thresholds of age and growth childhood in the material culture the death of children and the intersection of the childhood and the social economic religious and political worlds of societies in the past

The Afterlife of Christina Rossetti A. Chapman, 2000-06-13 Despite new historical study of her contexts Christina Rossetti continues to haunt the reader as a displaced subjectivity emptied of history Through an analysis of the posthumous in her work the construction of Christina Rossetti by her brothers and the history of reception this study asks how speaking with the dead can avoid critical ventriloquy The figure of the mother is offered as a paradigm for theorising a new reading that refuses to exorcise the ghost of Christina Rossetti

Making, Selling and Wearing Boys' Clothes in Late-Victorian England Clare Rose, 2016-12-05 There has been a great deal of recent interest in masculine clothing examining both its production and consumption and the ways in which it was used to create individual identities and to build businesses from 1850 onwards Drawing upon a wide range of sources this book studies the interaction between producers and consumers at a key period in the development of the ready made clothing industry It also shows that many innovations in advertising clothing usually considered to have been developed in America had earlier British precedents To counter the lack of documentary evidence that has hitherto hampered research into the dress practices of non elite groups this book utilises thousands of unpublished visual documents These include hundreds of manufacturers designs which underline an unexpected degree of investment by manufacturers in boys clothing and which was matched by heavy investment in advertising with thousands of images of boys clothing for shop catalogues in the Stationers Hall copyright archive Another key source is the archives of Dr Barnardo s Homes This extraordinary collection contains over 15 000 documented photographs of boys entering between 1875 and 1900 allowing us to look beyond official polarization of raggedness and respectability used by charities and social reformers of all stripes and to establish the clothing that was actually worn by a large sample of boys A close analysis of 1 800 images reveals that even when families were impoverished they strove to present their boys in ways that reflected their position in the family group and in society By drawing on these visual sources and linking the design and retailing of boys clothing with social cultural and economic issues this book shows that an understanding of the production and consumption of the boys clothing is central to debates on the growth of the consumer society the development of mass market fashion and concepts of

childhood and masculinity
