Politics Of Liberation In South Sudan An Insiders Wiew:

Politics of Liberation in South Sudan Peter Adwok Nyaba, 2000 **The Politics of Fear in South Sudan** Daniel Akech Thiong, 2021-04-22 When asked in 2016 if he would step down as President of South Sudan Salva Kiir replied my exit could spark genocide Kiir's words exemplify how fear and the threat of mass violence have become central to the politics of South Sudan As South Sudanese analyst Daniel Akech Thiong shows it is this politics that lies at the heart of the country's seemingly intractable civil war In this book Akech Thiong explores the origins of South Sudan's politics of fear Weaving together social economic and cultural factors into a comprehensive framework he reveals how the country's elites have exploited ethnic divisions as a means of mobilising support and securing their grip on power in the process triggering violent conflict He also considers the ways in which this politics of fear takes root among the wider populace exploring the role of corruption social media and state coercion in spreading hatred and fostering mass violence As regimes across Africa and around the world become increasingly reliant on their own politics of fear Akech Thiong's book offers novel insight into a growing phenomenon with implications far beyond South Sudan *The Real Politics of the Horn of Africa* Alex de Waal, 2015-10-19 *The Real Politics of the Horn of Africa* delves into the business of politics in the turbulent war-torn countries of north east Africa It is a contemporary history of how politicians generals and insurgents bargain over money and power and use of war to achieve their goals Drawing on a thirty year career in Sudan Ethiopia Eritrea and Somalia including experience as a participant in high level peace talks Alex de Waal provides a unique and compelling account of how these countries' leaders run their governments conduct their business fight their wars and occasionally make peace De Waal shows how leaders operate on a business model securing funds for their political budgets which they use to rent the provisional allegiances of army officers militia commanders tribal chiefs and party officials at the going rate This political marketplace is eroding the institutions of government and reversing statebuilding and it is fuelled in large part by oil exports aid funds and western military assistance for counter terrorism and peacekeeping *The Real Politics of the Horn of Africa* is a sharp and disturbing book with profound implications for international relations development and peacemaking in the Horn of Africa and beyond *The Challenge of Governance in South Sudan* Steven C Roach, Derrick K Hudson, 2018-09-13 South Sudan is one of the world's most divided and unstable countries Since achieving statehood in 2011 the country has plunged into civil war 2013-15 and become the scene of some of the worst human rights abuses on the African continent Despite ongoing political turmoil states and international institutions have pledged enormous resources to stabilize the country and shore up the current peace process but have had limited influence in dealing with the effects of rampant corruption and factionalism *The Challenge of Governance in South Sudan* examines the factors that continue to haunt peace building efforts including the domination of the SPLM A factionalization corruption human rights atrocities an ineffective constitution and the role of international actors It brings together a diverse set of leading scholars to reflect on these factors and propose ways of

promoting peace and stability in South Sudan In particular the book asks whether the disparity between domestic priorities policies and foreign intervention strategies has prevented the peace process from moving forward The contributors probe this issue by addressing the flaws of past peace agreements poor governance a weakly articulated peacekeeping mission US foreign policy and a lack of moral accountability This book is perfect for students scholars and policy makers with an interest in the challenges faced by the world s newest country

War and Genocide in South Sudan Clémence

Pinaud,2021-02-15 Using more than a decade s worth of fieldwork in South Sudan Clémence Pinaud here explores the relationship between predatory wealth accumulation state formation and a form of racism extreme ethnic group entitlement that has the potential to result in genocide War and Genocide in South Sudan traces the rise of a predatory state during civil war in southern Sudan and its transformation into a violent Dinka ethnocracy after the region s formal independence That new state Pinaud argues waged genocide against non Dinka civilians in 2013 2017 During a civil war that wrecked the region between 1983 and 2005 the predominantly Dinka Sudan People s Liberation Army SPLA practiced ethnically exclusive and predatory wealth accumulation Its actions fostered extreme group entitlement and profoundly shaped the rebel state Ethnic group entitlement eventually grew into an ideology of ethnic supremacy After that war ended the semi autonomous state turned into a violent and predatory ethnocracy a process accelerated by independence in 2011 The rise of exclusionary nationalism a new security landscape and inter ethnic political competition contributed to the start of a new round of civil war in 2013 in which the recently founded state unleashed violence against nearly all non Dinka ethnic groups Pinaud investigates three campaigns waged by the South Sudan government in 2013 2017 and concludes they were genocidal they sought to destroy non Dinka target groups She demonstrates how the perpetrators sense of group entitlement culminated in land grabs that amounted to a genocidal conquest echoing the imperialist origins of modern genocides Thanks to generous funding from TOME the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornellopen and other repositories

The Fate of Sudan John Young,2012-08-30

In 2005 the Comprehensive Peace Agreement CPA ended one of Africa s most devastating civil wars and set the stage for the partition of Sudan Africa s largest country One of the most important peace agreements in African history it has had decisive consequences for the entire Horn of Africa Yet to date there has been little rigorous analysis as to why the parties signed the CPA what strategies they adopted having signed the agreement and the political consequences of state partition actually are John Young argues forcefully that the birth of the independent state of Southern Sudan and the threat of further dismemberment of a rump northern Sudan are due to the failure of the approaches and ideologies of the main Sudanese parties as well as a deeply flawed US backed peace process that excludes civil society and other rebel groups Written by someone directly involved in the Sudanese election and referendum processes and featuring a wealth of first hand evidence this is a crucial examination of a topic of intense political and media interest

South Sudan: the Case for Independence & Learning from Mistakes LB

Lokosang,2010-09-10 This work started some few years ago motivated by internet discussions involving a group of South Sudanese in the Diaspora A question was floated by the author Why must South Sudan become an independent state a number of forum discussants contributed with answers to this key question The contributions were substantial and provided the mould of this book I therefore want to salute the efforts of my compatriots Dr Charles Bakhiet Saki Mr Rogato Ohide and others who added some bits of answers to that key question Their individual intellectual contributions to the initial manuscript are invaluable If this Book scored some mileage these compatriots are part of the acclaim

States of Disorder, Ecosystems of Governance Adam Day, 2022-03-28 Today's vision of world order is founded upon the concept of strong well functioning states in contrast to the destabilizing potential of failed or fragile states This worldview has dominated international interventions over the past 30 years as enormous resources have been devoted to developing and extending the governance capacity of weak or failing states hoping to transform them into reliable nodes in the global order But with very few exceptions this project has not delivered on its promise countries like Somalia Afghanistan South Sudan and the Democratic Republic of the Congo DRC remain mired in conflict despite decades of international interventions States of Disorder addresses the question Why has UN state building so consistently failed to meet its objectives It proposes an explanation based on the application of complexity theory to UN interventions in South Sudan and DRC where the UN has been tasked to implement massive stabilization and state building missions Far from being ungoverned spaces these settings present complex dynamical systems of governance with emergent properties that allow them to adapt and resist attempts to change them UN interventions based upon assumptions that gradual increases in institutional capacity will lead to improved governance fail to reflect how change occurs in these systems and may in fact contribute to underlying patterns of exclusion and violence Based on more than a decade of the author's work in peacekeeping this book offers a systemic mapping of how governance systems work and indeed work against UN interventions Pursuing a complexity driven approach instead helps to avoid unintentional consequences identifies meaningful points of leverage and opens the possibility of transforming societies from within

Idris, 2013-08-20 The 2011 split of Sudan and the conflicts that have followed make it a case of ongoing significance for understanding state building in Africa Examining both the north south divide and the spread of violence from Darfur this study shows how colonial legacies have shaped state formation and charts out a path to inclusive citizenship and democracy

Negotiating Belongings Melanie Baak, 2016-07-28 Belonging is an issue that affects us all but for those who have been displaced unsettled or made homeless by the increased movements associated with the contemporary globalising era

belonging is under constant challenge Migration throws into question not only the belongings of those who physically migrate but also particularly in a postcolonial context the belongings of those who are indigenous to and settlers in countries of migration subsequent generations born to migrants and those who are left behind in countries of origin Negotiating Belongings utilises narrative ethnographic and autoethnographic approaches to explore the negotiations for belonging for six women from Dinka communities originating in southern Sudan It explores belonging particularly in relation to migration through a consideration of belonging to nation states ethnic groups community family and kin In exploring how the journeys towards desired belongings are haunted by various social processes such as colonisation power race and gender the author argues that negotiating belonging is a continual movement between being and becoming The research utilises and demands different ways of listening to and really hearing the narratives of the women as embedded within non Western epistemologies and ontologies Through this it develops an understanding of the relational ontology *cieng* that governs the ways in which the women exist in the world The women s narratives alongside the author s experience within the Dinka community provide particular ways to interrogate the intersections of being and becoming on the haunted journey to belonging The relational ontology of *cieng* provides an additional way of understanding belonging becoming and being as always relational *The Right to Self-Determination Under International Law and Politics: the Case of the Baloch People* Hassan Hamdam,2020-12-14 The emergence of the right to self determination phenomenon during the twentieth century changed the political map of the world with the liberation of many nations from the yoke of colonialism This book is an attempt to navigate the right of self determination through international legal norms and explore its triumph and failure since the Second World War It elaborates on the role position and the obligations of a modern state in the international law and new emerging relations of people in the world The bookdescribes briefly the history of British rule in the Indian subcontinent and the creation of the new Muslim state of Pakistan in 1947 The book narrates the events leading to the occupation of Balochistan by Pakistan in 1948 It highlights the long struggle of the Baloch people for the right to self determination and to explain the right of the Baloch people according to the international principles and provide political and legal methods for the right to self determination *Secessionism in African Politics* Lotje de Vries,Pierre Englebert,Mareike Schomerus,2018-08-20 Secessionism perseveres as a complex political phenomenon in Africa yet often a more in depth analysis is overshadowed by the aspirational simplicity of pursuing a new state Using historical and contemporary approaches this edited volume offers the most exhaustive collection of empirical studies of African secessionism to date The respected expert contributors put salient and lesser known cases into comparative perspective covering Biafra Katanga Eritrea and South Sudan alongside Barotseland Cabinda and the Comoros among others Suggesting that African secessionism can be understood through the categories of aspiration grievance performance and disenchantment the book s analytical framework promises to be a building block for future studies of the topic **Sudan** Abdel Salam Sidahmed,Alsir Sidahmed,2004-11-10 Stretching
