Race in France Herrick Chapman,Laura Levine Frader,2004 Scholars across disciplines on both sides of the Atlantic have recently begun to open up as never before the scholarly study of race and racism in France These original essays bring together in one volume new work in history sociology anthropology political science and legal studies Each of the eleven articles presents fresh research on the tension between a republican tradition in France that has long denied the legitimacy of acknowledging racial difference and a lived reality in which racial prejudice shaped popular views about foreigners Jews immigrants and colonial people Several authors also examine efforts to combat racism since the 1970s

Race Politics in Britain and France Erik Bleich,2003-05-26 Britain and France have developed substantially different policies to manage racial tensions since the 1960s in spite of having similar numbers of post war ethnic minority immigrants This book provides the first detailed historical exploration of race policy development in these two countries In this path breaking work Bleich argues against common wisdom that attributes policy outcomes to the role of powerful interest groups or to the constraints of existing institutions instead emphasizing the importance of frames as widely held ideas that propelled policymaking in different directions British policymakers framing of race and racism principally in North American terms of color discrimination encouraged them to import many policies from across the Atlantic For decades after WWII by contrast French policy leaders framed racism in terms influenced largely by their Vichy past which encouraged policies designed primarily to counter hate speech while avoiding the recognition of race found across the English Channel [A History of Fascism in France](#) Chris Millington,2019-12-12 CHOICE Outstanding Academic Title 2021 A History of Fascism in France explores the origins development and action of fascism and extreme right and fascist organisations in France since the First World War Synthesizing decades of scholarship it is the first book in any language to trace the full story of French fascism from the First World War to the modern National Front via the interwar years the Vichy regime and the collapse of the French Empire Chris Millington unpicks why this extremist political phenomenon has at times found such fervent and

widespread support among the French people The book chronologically surveys fascism in France whilst contextualizing this within the broader European and colonial frameworks that are so significant to the subject Concluding with a useful historiographical chapter that brings together all the previously explored aspects of fascism in France A History of Fascism in France is a crucial volume for all students of European fascism and France in the 20th century *Republic of Islamophobia* Jim Wolfreys, 2017 Drawing on interviews on the ground the author considers the legacy of colonialism the notion of citizenship in the Republic the ongoing debates over burkinis hijabs etc

Immigration, Islam, and the Politics of Belonging in France Elaine R. Thomas, 2011-11-29 Over the past three decades neither France's treatment of Muslims nor changes in French British and German immigration laws have confirmed multiculturalist hopes or postnationalist expectations Yet analyses positing unified national models also fall short in explaining contemporary issues of national and cultural identity *Immigration Islam and the Politics of Belonging in France A Comparative Framework* presents a more productive multifaceted view of citizenship and nationality Political scientist Elaine R Thomas casts new light on recent conflicts over citizenship and national identity in France as well as such contentious policies as laws restricting Muslim headscarves Drawing on key methods and insights of ordinary language philosophers from Austin to Wittgenstein Thomas looks at parliamentary debates print journalism radio and television transcripts official government reports legislation and other primary sources related to the rights and status of immigrants and their descendants Her analysis of French discourse shows how political strategies and varied ideas of membership have intertwined in France since the late 1970s Thomas tracks the crystallization of a restrictive but apparently consensual interpretation of French republicanism arguing that its ideals are increasingly strained even as they remain politically powerful Thomas also examines issues of Islam immigration and culture in other settings including Britain and Germany *Immigration Islam and the Politics of Belonging in France* gives scholarly researchers political observers and human rights advocates tools for better characterizing and comparing the theoretical stakes of immigration and integration and advances our understanding of an increasingly significant aspect of ethnic and religious politics in France Europe and

beyond **Political Belief in France, 1927-1945** Caroline Campbell, 2015-12-09 In the inter war era the rise of the largest political movement in modern French history the powerful Croix de Feu 1927 1936 and its successor the Parti Social Fran ais or PSF 1936 1945 led to a sharp rightward turn in France s political culture Political Belief in France 1927 1945 traces the central role of women in this shift arguing that they transformed the Croix de Feu PSF from a paramilitary league for veterans into a social reform movement that sought to remake the politics society and culture of the French Republic Following the creation of a Women s Section in 1934 the women of the Croix de Feu PSF developed a wide array of social programs including welfare services youth development and health care initiatives At a time of economic depression and high unemployment these popular programs tempered the organization s fearsome reputation as a violent paramilitary group While the efforts of the Women s Section had the veneer of moderation they accentuated the long standing conservative image of France as a deeply Christian society and sought to assimilate people of different ethnoreligious backgrounds into the dominant national community Croix de Feu PSF women promoted their social agenda as a religious and patriotic duty a reflection of the individual s responsibility to make personal sacrifices on behalf of their vision for France s Christian civilization The Croix de Feu PSF s ethnoreligious nationalism circulated throughout the French imperial nation state making the movement the premier defender of an empire at the height of its power But women in North African branches faced substantial marginalization and the movement remained dangerously sectarian in the Maghreb driving indigenous activists from reformism to anticolonialism The Croix de Feu PSF thus set the stage for both the authoritarian anti Semitic Vichy regime and the decolonization that followed the war The first book on women of the French far right in the age of fascism Political Belief in France 1927 1945 contributes to the fields of French history gender studies the history of fascism and the history of empire *France in World Politics* Robert Aldrich, John Connell, 2024-09-02 Originally published in 1989 this book analyses France s distinctive role in international affairs and examines the characteristics of French foreign policy in the Fifth Republic The introduction provides an overview of France s role in international relations then specific chapters look at topics such as French military strategy and relations with the superpowers of the late 20th Century France and the European Community immigrant workers and their impact on France s international presence and France Africa among others The final chapter discusses the evolution and formulation of French foreign policy in historical perspective The contributors were historians geographers and specialists in French civilization all with experience in France Each chapter includes notes and references to work in both English and French making the book an important source especially for students of politics international relations modern history and French studies **Discourses of Antiracism in France** Catherine Lloyd, 2018-10-26 First published in 1998 this book is an examination of antiracist discourses and practices in France It sets out to trace the development of post war French antiracism through the life of antiracist organizations setting this within a broader historical political and social context It breaks new ground in that it analyses antiracism as a body of ideas in its own

right rather than as a mirror image of racism The author uses previously unpublished archival material from French organizations combined with observations from current events She argues that antiracist discourses and practices are structured around four main themes discrimination representation solidarity and hegemony While perceptions of discrimination have evolved into complex understandings of social exclusion the representational functions of antiracist groups were challenged by immigrant workers movements themselves Solidarity remained central to antiracist practices in different political contexts Underpinning these features lies a hegemonic social project through which antiracists have sought to promote a common sense through political and educational campaigns The author concludes that French antiracism although constantly changing and refocusing is now a pluralist transversal hegemonic movement and an important component of civil society

Why Fascism Is on the Rise in France Ugo Palheta,2025-08-26 Recent polls have indicated for the first time that a far right candidate could win the French presidential election in 2027 Reactionary and racist ideologues increasingly sully the French media Assaults by fascist groups are on the rise as they grow in size and confidence How did this happen in a country once so proud of its revolutionary past Writer and academic Ugo Palheta shows that the fascist threat is rooted in the triple radicalization neoliberal authoritarian and racist of the French ruling class Unable to win majority support for the self interested policies represented by Emmanuel Macron this class has sought support by adopting more radical right wing positions Palheta argues for a renaissance of anti fascism to inspire resistance to the far right and the triple threat encouraging its rise Why Fascism Is on the Rise in France has repositioned the question of fascism to place it at the centre of intellectual debate in France
