To Hell with Culture Herbert Read, 2002 A classic work that offers the reader an ideal overview of the ideas that marked out Read as a seminal and hugely influential figure in the cultural life of the twentieth century *The Unpolitical* Massimo Cacciari, 2009 Massimo Cacciari is one of the leading public intellectuals in today's Italy This collection of essays on political topics provides the best introduction in English to his thought to date This carefully curated collection includes chapters on Hofmannsthal Lukács Benjamin Nietzsche Weber Derrida Schmitt Canetti and Aeschylus Written between 1978 and 2006 these essays engagingly address the most hidden tradition in European political thought the unpolitical Far from being a refusal of politics *The Unpolitical* represents a merciless critique of political reason and a way out of the now impracticable consolations of utopia and harmonious community A lucid and engaging Introduction by Alessandro Carrera sets these essays in the context of Cacciari's work generally and in the broadest context of its historical and geographical backdrop *Press and Politics in the Weimar Republic* Bernhard Fulda, 2009-01-08 *Press and Politics* offers a new interpretation of the fate of Germany's first democracy and the advent of Hitler's Third Reich It is the first study to explore the role of the press in the politics of the Weimar Republic and to ask how influential it really was in undermining democratic values Anyone who seeks to understand the relationship between the press and politics in Germany at this time has to confront a central problem Newspapers certainly told their readers how to vote especially at election time It was widely accepted that the press wielded immense political power And yet power ultimately fell to Adolf Hitler a radical politician whose party press had been strikingly unsuccessful *Press and Politics* unravels this apparent paradox by focusing on Berlin the political centre of the Weimar Republic and the capital of the German press The book examines the complex relationship between media presentation popular reception and political attitudes in this period What was the relationship between

newspaper circulation and electoral behaviour Which papers did well and why What was the nature of political coverage in the press Who was most influenced by it Bernhard Fulda addresses all these questions and more looking at the nature and impact of newspaper reporting on German politics politicians and voters He shows how the press personalized politics how politicians were turned into celebrities or hate figures and how through deliberate distortions individual newspapers succeeded in building up a plausible partisan counter reality

Between Two Worlds Richard Hoggart,2002 Between Occultism and Nazism Peter Staudenmaier,2014-04-03 The relationship between Nazism and occultism has been an object of fascination and speculation for decades Peter Staudenmaier's Between Occultism and Nazism provides a detailed historical examination centered on the anthroposophist movement founded by Rudolf Steiner Its surprising findings reveal a remarkable level of Nazi support for Waldorf schools biodynamic farming and other anthroposophist initiatives even as Nazi officials attempted to suppress occult tendencies The book also includes an analysis of anthroposophist involvement in the racial policies of Fascist Italy Based on extensive archival research this study offers rich material on controversial questions about the nature of esoteric spirituality and alternative cultural ideals and their political resonance

The Politics of Cultural Despair Fritz R. Stern,2023-09-01 This is a study in the pathology of cultural criticism By analyzing the thought and influence of three leading critics of modern Germany this study will demonstrate the dangers and dilemmas of a particular type of cultural despair Lagarde Langbehn and Moeller van den Bruck their active lives spanning the years from the middle of the past century to the threshold of Hitler's Third Reich attacked often incisively and justly the deficiencies of German culture and the German spirit But they were more than the critics of Germany's cultural crisis they were its symptoms and victims as well Unable to endure the ills which they diagnosed and which they had experienced in their own lives they sought to become prophets who would point the way to a national rebirth Hence they propounded all manner of reforms ruthless and idealistic nationalistic and utopian It was this leap from despair to utopia across all existing reality that gave their thought its fantastic quality This is a study in the pathology of cultural criticism By analyzing the thought and influence of three leading critics of modern Germany this study will demonstrate the dangers and dilemmas of a particular type of cultural despair Lagarde Langbehn and
