Patrick Mason

Politics And Religion In The White South:

Politics and Religion in the White South Glenn Feldman, 2005-09-30 *Politics and Religion in the White South* examines the powerful ways in which religious considerations have shaped American political discourse Since the inception of the Republic politics have remained a subject of lively discussion and debate Although based on secular ideals American government and politics have often been peppered with Christian influences Especially in the mostly Protestant South religion and politics have been nearly inextricable This collection of thirteen essays from prominent historians and political scientists including Mark K Bauman Charles S Bullock III Natalie M Davis Andrew M Manis Mark J Rozell and Clyde Wilcox explores the intersection of religion politics race relations and Southern culture from post Civil War America to the present when the religious right has begun to exercise a profound influence on the course of American politics

Politics and Religion in the White South Glenn Feldman, 2005-09-30 *Politics* while always an integral part of the daily life in the South took on a new level of importance after the Civil War Today political strategists view the South as an essential region to cultivate if political hopefuls are to have a chance of winning elections at the national level Although operating within the context of a secular government American politics is decidedly marked by a Christian influence In the mostly Protestant South religion and politics have long been nearly inextricable *Politics and Religion in the White South* skillfully examines the powerful role that religious considerations and influence have played in American political discourse This collection of thirteen essays from prominent historians and political scientists explores the intersection in the South of religion politics race relations and southern culture from post Civil War America to the present when the Religious Right has exercised a profound impact on the course of politics in the region as well as the nation The authors examine issues such as religious attitudes about race on the Jim Crow South Billy Graham s influence on the civil rights movement political activism and the Southern Baptist Convention and Dorothy Tilly a white Methodist woman and her contributions as a civil rights reformer during the 1940s and 1950s The volume also considers the issue of whether southerners felt it was their sacred duty to prevent American society from moving away from its Christian origins toward a new secular identity and how this perceived God given responsibility was reflected in the work of southern political and church leaders By analyzing the vital relationship between religion and politics in the region where their connection is strongest and most evident *Politics and Religion in the White South* offers insight into the conservatism of the South and the role that religion has played in maintaining its social and cultural traditionalism

Politics and Religion in the White South (Religion in the South) Glenn Feldman, **The New Politics of the Old South** Charles S. Bullock III, Mark J. Rozell, 2025-08-26 Now in its eight edition *The New Politics of the Old South* is the best and most comprehensive analysis and history of political behavior and shifting demographics in America s southern states Edited by leading scholars Charles S Bullock III and Mark J Rozell this book has been updated through the 2024 elections to provide the most accurate and useful snapshot of the state of southern politics and the ways in

which they have developed over time The southern electorate is a fascinating dynamic body politic and the study of its evolution is paramount to understanding the broader political developments occurring at a national level While accessible to any interested reader this edition illuminates the South's essential and growing role in the study and the story of American politics This new edition addresses the most recent round of statewide contests from the 2024 election from gubernatorial congressional and state legislative races to the presidential race especially significant in Georgia and North Carolina A major theme in this eighth edition is the increasing population diversification especially in the Growth States Texas is now a plurality Hispanic state Georgia may well be a majority minority state today The growing diversification in Georgia has recently become manifest within the General Assembly In 2023 two new caucuses were created one for Hispanics and the other for Asian Americans and Pacific Islanders The latter with 11 members is the largest of its kind in the nation Even as Asians and Hispanics begin to enter southern legislatures a few of them are Republicans Republicans have also made some gains among Black voters and Black officeholders These themes will also be explored in states as appropriate

Billy Graham and the Rise of the Republican South Steven P. Miller, 2009-04 While spreading the gospel around the world through his signature crusades internationally renowned evangelist Billy Graham maintained a visible and controversial presence in his native South a region that underwent substantial political and economic change in the latter half of the twentieth century In this period Graham was alternately a desegregating crusader in Alabama Sunbelt booster in Atlanta regional apologist in the national press and southern strategist in the Nixon administration Billy Graham and the Rise of the Republican South considers the critical but underappreciated role of the noted evangelist in the creation of the modern American South The region experienced two significant related shifts away from its status as what observers and critics called the Solid South the end of legalized Jim Crow and the end of Democratic Party dominance Author Steven P. Miller treats Graham as a serious actor and a powerful symbol in this transition an evangelist first and foremost but also a profoundly political figure In his roles as the nation's most visible evangelist adviser to political leaders and a regional spokesperson Graham influenced many of the developments that drove celebrants and detractors alike to place the South at the vanguard of political religious and cultural trends He forged a path on which white southern moderates could retreat from Jim Crow while his evangelical critique of white supremacy portended the emergence of color blind rhetoric within mainstream conservatism Through his involvement in the Eisenhower and Nixon administrations as well as his deep social ties in the South the evangelist influenced the decades long process of political realignment Graham's public life sheds new light on recent southern history in all of its ambiguities and his social and political ethics complicate conventional understandings of evangelical Christianity in postwar America Miller's book seeks to reintroduce a familiar figure to the narrative of southern history and in the process examine the political and social transitions constitutive of the modern South

How the South was won and the nation lost Philipp Adorf, 2016-10-10 Die Republikanische Partei dominierte zwischen den späten 1960er und 80er Jahren die Pr

sidentschaftswahlen in den Vereinigten Staaten Vier der letzten sechs Wahlen sind jedoch verloren gegangen Dieses Werk sieht die Gründe hinter dieser Krise im Versuch der Partei während und nach dem Kampf der schwarzen Minderheit für ihre Bürgerrechte in den 1960er Jahren die weißen oft evangelikalen Wähler des Südens auf ihre Seite zu bringen In einem Land in dem der weiße Bevölkerungsanteil stetig sinkt und junge Wähler skularer denn je sind finden sich die weißen Wähler des Südens immer fester auf der Verliererseite der in Washington D C ausgetragenen politischen Schlachten und mit ihnen auch die Republikanische Partei

The American South Charles Reagan Wilson, 2021 This book provides a concise introduction to the history and culture of the American South Charles Reagan Wilson explores Southern history alongside the creative achievements that have come out of the region producing a portrait of a complex American place

The ^AMormon Menace Patrick Mason, 2011-02-16 In the late 1800s Mormonism was vilified throughout the United States A national campaign featuring politicians church leaders social reformers the press women's organizations businessmen and ordinary citizens sought to end the Latter day Saint practice of polygamy and to extinguish the entire religion Patrick Mason demonstrates that anti Mormonism was one of the earliest grounds for reconciliation between North and South after the Civil War and Reconstruction Southerners joined with northern reformers and Republicans to endorse the use of newly expanded federal power to vanquish the perceived threat to Christian marriage and the American republic

Mississippi Praying Carolyn Renée Dupont, 2015-09 Winner of the 2013 Frank S and Elizabeth D Brewer Prize presented by the American Society of Church History Mississippi Praying examines the faith communities at ground zero of the racial revolution that rocked America This religious history of white Mississippians in the civil rights era shows how Mississippians intense religious commitments played critical rather than incidental roles in their response to the movement for black equality During the civil rights movement and since it has perplexed many Americans that unabashedly Christian Mississippi could also unapologetically oppress its black population Yet as Carolyn Renée Dupont richly details white southerners evangelical religion gave them no conceptual tools for understanding segregation as a moral evil and many believed that God had ordained the racial hierarchy Challenging previous scholarship that depicts southern religious support for segregation as weak Dupont shows how people of faith in Mississippi rejected the religious argument for black equality and actively supported the effort to thwart the civil rights movement At the same time faith motivated a small number of white Mississippians to challenge the methods and tactics of do or die segregationists Racial turmoil profoundly destabilized Mississippi's religious communities and turned them into battlegrounds over the issue of black equality Though Mississippi's evangelicals lost the battle to preserve segregation they won important struggles to preserve the theology that had sustained the racial hierarchy Ultimately this history sheds light on the eventual rise of the religious right by elaborating the connections between the pre and post civil rights South

Religion and the American Civil War Randall M. Miller, Harry S. Stout, Charles Reagan Wilson, 1998-11-05 The sixteen essays in this volume all previously unpublished address the little

considered question of the role played by religion in the American Civil War The authors show that religion understood in its broadest context as a culture and community of faith was found wherever the war was found Comprising essays by such scholars as Elizabeth Fox Genovese Drew Gilpin Faust Mark Noll Reid Mitchell Harry Stout and Bertram Wyatt Brown and featuring an afterword by James McPherson this collection marks the first step towards uncovering this crucial yet neglected aspect of American history **The SAGE Handbook of the Sociology of Religion** James A Beckford, Jay

Demerath, 2007-10-29 In their introduction to this Handbook the editors affirm Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life I wholeheartedly agree I also suggest that this wide ranging set of essays should become a starting point for such enquiries Each chapter is clear comprehensive and well structured making the Handbook a real asset for all those engaged in the field Grace Davie University of Exeter Serious social scientists who care about making sense of the world can no longer ignore the fact that religious beliefs and practices are an important part of this world This Handbook is a valuable resource for specialists and amateurs alike The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world Robert Wuthnow Princeton University At a time when religions are increasingly affecting and affected by life beyond the narrowly sacred sphere religion everywhere seems to be caught up in change and conflict In the midst of this contention and confusion the sociology of religion provides a rich source of understanding and explanation This Handbook presents an unprecedentedly comprehensive assessment of the field both where it has been and where it is headed Like its many distinguished contributors its topics and their coverage are truly global in their reach The Handbook's 35 chapters are organized into eight sections basic theories and debates methods of studying religion social forms and experiences of religion issues of power and control in religious organizations religion and politics individual religious behaviour in social context religion self identity and the life course and case studies of China Eastern Europe Israel Japan and Mexico Each chapter establishes benchmarks for the state of sociological thinking about religion in the 21st century and provides a rich bibliography for pursuing its subject further Overall the Handbook stretches the field conceptually methodologically comparatively and historically An indispensable source of guidance and insight for both students and scholars Choice Outstanding Academic Title 2009 **The Southern Way of Life** Charles Reagan

Wilson, 2022-11-30 How does one begin to understand the idea of a distinctive southern way of life a concept as enduring as it is disputed In this examination of the American South in national and global contexts celebrated historian Charles Reagan Wilson assesses how diverse communities of southerners have sought to define the region's identity Surveying three centuries of southern regional consciousness across many genres disciplines and cultural strains Wilson considers and challenges prior presentations of the region advancing a vision of southern culture that has always been plural dynamic and complicated by race and class Structured in three parts The Southern Way of Life takes readers on a journey from the

colonial era to the present from when complex ideas of southern civilization rooted in slaveholding and agrarianism dominated to the twenty first century rise of a modern multicultural southern living As Wilson shows there is no singular or essential South but rather a rich tapestry woven with contestations contingencies and change The Evangelicals Frances FitzGerald, 2017-04-04 Winner of the 2017 National Book Critics Circle Award National Book Award Finalist Time magazine Top 10 Nonfiction Book of the Year New York Times Notable Book Publishers Weekly Best Books of 2017 This epic history The Boston Globe from Pulitzer Prize winning historian Frances FitzGerald is the first to tell the powerful dramatic story of the Evangelical movement in America from the Puritan era to the 2016 election We have long needed a fair minded overview of this vitally important religious sensibility and FitzGerald has now provided it The New York Times Book Review The evangelical movement began in the revivals of the eighteenth and nineteenth centuries known in America as the Great Awakenings A populist rebellion against the established churches it became the dominant religious force in the country During the nineteenth century white evangelicals split apart first North versus South and then modernist versus fundamentalist After World War II Billy Graham attracted enormous crowds and tried to gather all Protestants under his big tent but the civil rights movement and the social revolution of the sixties drove them apart again By the 1980s Jerry Falwell and other southern televangelists such as Pat Robertson had formed the Christian right Protesting abortion and gay rights they led the South into the Republican Party and for thirty five years they were the sole voice of evangelicals to be heard nationally Eventually a younger generation proposed a broader agenda of issues such as climate change gender equality and immigration reform Evangelicals now constitute twenty five percent of the American population but they are no longer monolithic in their politics They range from Tea Party supporters to social reformers Still with the decline of religious faith generally FitzGerald suggests that evangelical churches must embrace ethnic minorities if they are to survive A well written thought provoking and deeply researched history that is impressive for its scope and level of detail The Wall Street Journal Her brilliant book could not have been more timely more well researched more well written or more necessary The American Scholar **Into the Pulpit** Elizabeth H. Flowers, 2012-04-09 The debate over women's roles in the Southern Baptist Convention's conservative ascendancy is often seen as secondary to theological and biblical concerns Elizabeth Flowers argues however that for both moderate and conservative Baptist women all of whom had much at stake disagreements that touched on their familial roles and ecclesial authority have always been primary And in the turbulent postwar era debate over their roles caused fierce internal controversy While the legacy of race and civil rights lingered well into the 1990s views on women's submission to male authority provided the most salient test by which moderates were identified and expelled in a process that led to significant splits in the Church In Flowers's expansive history of Southern Baptist women the woman question is integral to almost every area of Southern Baptist concern hermeneutics ecclesial polity missionary work church state relations and denominational history Flowers's analysis part of the expanding survey of America's religious and cultural

landscape after World War II points to the South's changing identity and connects religious and regional issues to the complicated relationship between race and gender during and after the civil rights movement. She also shows how feminism and shifting women's roles, behaviors, and practices played a significant part in debates that simmer among Baptists and evangelicals throughout the nation today. *Whistling Past Dixie* Thomas F. Schaller, 2008

Two generations after he challenged Republicans to envision a Southern-based national majority, Phillips issues a bold challenge to Democrats to transform American politics by building a winning coalition outside the South. *Fighting to Preserve a Nation's Soul* Robert Bauman, 2019-04-15

Fighting to Preserve a Nation's Soul examines the relationship between religion, race, and the War on Poverty that President Lyndon Johnson initiated in 1964 and that continues into the present. It studies the efforts by churches, synagogues, and ecumenical religious organizations to join and fight the war on poverty as begun in 1964 by the Office of Economic Opportunity. The book also explores the evolving role of religion in relation to the power balance between church and state and how this dynamic resonates in today's political situation. Robert Bauman surveys all aspects of religion's role in this struggle and substantially discusses the Roman Catholic Church, mainline Protestant churches, Jewish groups, and ecumenical organizations such as the National Council of Churches. In addition, he pays particular attention to race, showing how activist priests and other religious leaders connected religion with the antipoverty efforts of the civil rights movement. For example, he shows how the Interreligious Foundation for Community Organization (IFCO) exemplifies the move toward ecumenism among American religious organizations and the significance of black power to the evolving War on Poverty. Indeed, the Black Manifesto issued by civil rights and black power activist James Forman in 1969 challenged American churches and synagogues to donate resources to the IFCO as reparations for those institutions' participation in slavery and racial segregation. Bauman then explores the intricate and fundamental connection between religious organizations, social movements, and community antipoverty agencies and expands the argument for a long War on Poverty. **Unto a Good Land** David Edwin Harrell, Edwin S. Gaustad, John B. Boles, Sally Foreman Griffith, 2005-08-23

Introducing a New U.S. History Text That Takes Religion Seriously *Unto a Good Land* offers a distinctive narrative history of the American people from the first contacts between Europeans and North America's native inhabitants through the creation of a modern nation to the 2004 presidential election. Written by a team of highly regarded historians, this textbook shows how grasping the uniqueness of the American experiment depends on understanding not only social, cultural, political, and economic factors but also the role that religion has played in shaping U.S. history. While most United States history textbooks in recent decades have expanded their coverage of social and cultural history, they still tend to shortchange the role of religious ideas, practices, and movements in the American past. *Unto a Good Land* restores the balance by giving religion its appropriate place in the story. This readable and teachable text also features a full complement of maps, historical illustrations, and *In Their Own Words* sidebars with excerpts from primary source documents. *New Orleans Sports* Thomas Aiello, 2019-08-01

New Orleans has

long been a city fixated on its own history and culture Founded in 1718 by the French transferred to the Spanish in the 1763 Treaty of Paris and sold to the United States in 1803 the city's culture law architecture food music and language share the influence of all three countries This cultural mélange also manifests in the city's approach to sport where each game is steeped in the city's history Tracing that history from the early nineteenth century to the present while also surveying the state of the city's sports historiography New Orleans Sports places sport in the context of race relations politics and civic and business development to expand that historiography currently dominated by a text that stops at 1900 into the twentieth century offering a modern examination of sports in the city **The Western Journal of Black Studies** ,2004 **The Reconstruction of White Southern Womanhood, 1865-1895** Jane Turner Censer,2003-09-30 The important but little known story of elite southern white women's successful quest for a measure of self reliance and independence between antebellum strictures and the restored patriarchy of Jim Crow

As recognized, adventure as with ease as experience about lesson, amusement, as with ease as conformity can be gotten by just checking out a ebook **Politics And Religion In The White South** also it is not directly done, you could acknowledge even more a propos this life, in this area the world.
