Politics Of Canadian Japanese Economic Relations 1952 1983:

The Politics of Canadian-Japanese Economic Relations, 1952-1983 Frank Langdon, 1983 Japan is Canada's most important overseas trading partner yet the background of this relationship is comparatively unknown to most Canadians. In order to bridge this gap the author surveys Canadian foreign policy aims towards Japan since WWII with emphasis on the development of economic ties. He illustrates the role of major departments, ministries, diplomats, businessmen and other leading participants and the process by which these aims succeeded or failed. This objective analysis will prove a valuable reference source for students, officials, bureaucrats, historians, businessmen and women journalists and all those interested not only in economic relations between Canada and Japan but also in the way foreign policy is formulated in Canada. *Canada-Japan Economic Relations and the Impact of the Canada-United States Free Trade Agreement* Michael R. MacLeod, 1991 The Politics of CANDU Exports Duane Bratt, 2006-01-01 This book provides the most comprehensive history of the export of CANDU reactors to date. A pressurized heavy water natural uranium power reactor designed and marketed by Atomic Energy of Canada Limited, the CANDU reactor has played a significant part in Canada's international trade. In this history Duane Bratt examines every CANDU sale as well as some important unsuccessful sales attempts from 1956 to the present. He also outlines the impact that changes in the international political climate such as the creation and strengthening of the international nuclear non-proliferation regime and the increasing importance of human rights and environmental protection have had on CANDU exports over the last fifty years. Canadian-Japanese Economic Relations in a Triangular Perspective Wendy Dobson, 1987 **Asia-Pacific Diplomacy** Lawrence T. Woods, 2011-11-01 The emergence of Asia Pacific regionalism as witnessed by the increasing influence of the Asia Pacific Economic Cooperation forum and the annual ASEAN Post Ministerial Conference highlights one of the major trends in late twentieth century geopolitics and international relations. Asia Pacific Diplomacy traces the evolution of the Pacific economic cooperation movement by examining the diplomatic contributions of three international nongovernmental organizations: INGOs, the scholarly Pacific Trade and Development Conference (PAFTAD), the business-oriented Pacific Basin Economic Council (PBEC) and the multipartite academic business and government Pacific Economic Cooperation Council (PECC). Lawrence Woods also provides a historical perspective by assessing the work of the Institute of Pacific Relations, forerunner of the INGOs. This book makes an important contribution to the study of international political and economic institutions. It argues that as the regional cooperation movement expands at the governmental level, an understanding of the nongovernmental roots of that movement is required if the diplomatic contributions of the INGOs are to be retained. *Area Bibliography of Japan* Ria Koopmans-de Bruijn, 1998 Provides a general overview of literature relating to Japan and covers a broad range of subject matter from art, feminism and linguistics to corporate culture, history and medicine. Includes books published since 1980 that are related to the geographical area of Japan and to Japanese culture within that area. *Government, International Trade, and Laissez-Faire Capitalism* Carin L. Holroyd, 2002-07-30 Two of the biggest

issues facing nation states in the twenty first century are the role of government in the management of national economies and the cultivation of international trade and investment in an age of globalization In *Government International Trade and Laissez Faire Capitalism* Carin Holroyd offers a comprehensive comparison of Australian Canadian and New Zealand policies and strategies aimed at improving economic relations with Japan the world s second largest economy She illustrates negative consequences that result when governments withdraw from trade promotion and leave the development of commercial opportunities to the private sector Holroyd focuses on how Australia Canada and New Zealand responded to the dramatic changes in the Japanese economy that followed the 1985 Plaza Accord and currency reforms She examines trade promotional activities efforts to coordinate business responses to the Japanese market and the cultivation of Japanese investment indicating how new paradigms of state involvement in the economy influenced international trading activity Holroyd demonstrates that rather than responding proactively to changing conditions and new opportunities the national business sectors stayed with traditional patterns of trade and investment losing significantly in market share and export opportunities as a consequence

A Yen for Profit Richard W. Wright,Susan Huggett,1987 From the back cover This book is about the challenge and the opportunity Japan offers to Canadian financial institutions Canadian banks will have to move beyond their traditional commercial banking activities where Japanese financial institutions have a well established edge into newer more creative money and capital market activities And traditional strict lines between the various banking activities must blur in order for Canada to acquire the same breadth of financial expertise as other global players Canadian banks also must blur the distinction they tend to make between their activities at home and in Japan As for Canada s securities companies today s strengths may become tomorrow s liability Securities companies are thriving today because their role as the main intermediaries in the massive flow of fund from Japanese institutional investors into Canadian government bonds Tomorrow however they could be vulnerable because of such heavy reliance on a single financial activity The massive flow of Japanese capital Canadian securities is one of the public policy issues discussed The most important in the authors opinion is the

nature and pace of deregulation The authors argue that Canada must open itself to foreign financial institutions not only to expose itself to the reality of competitive pressures but also to forge the links and collaborative arrangements needed to survive and prosper

The Pacific Rim, Second Revised Edition Peter N. Nemetz, 1990-01-01 As the importance of the Pacific Rim as a global centre of large scale investment development and trade continues to increase so do the potential benefits that Canada and other countries could reap as a result of an increased presence in this diverse region This book a revised and to a large extent new version of The Pacific Rim Investment Development and Trade 1987 integrates a broad range of current economic data concerning the Pacific Rim with some of the more important theoretical issues in the area of economic development and trade It demonstrates the paradoxical combination of strength and fragility that characterizes the emerging integrated Pacific Rim economy and attempts to clarify the nature of the framework and constraints that face foreign investors and trading partners The historical background of Japan s trade with other Pacific nations is examined in the opening chapter which is complemented by a new article outlining in detail the nature of and rationale for the profound change in Japan s foreign direct investment in the 1980s Other articles analyze trade in the ASEAN countries Indonesia Malaysia the Philippines Singapore and Thailand and discuss the emerging financial centres in the Pacific Rim New contributions deal with the policy environment for Pacific strategic management compare the financial centres of Hong Kong and Singapore as these face the challenge of strategic adjustment and repositioning in international financial markets during the 1990s and present a theoretical framework for comparing US and Japanese trade policies The second part of the book examines the critical role of energy in the future development of the Pacific Rim and its interdependence with other global regions New articles discuss the progress and prospects for energy cooperation in the Pacific Basin and the potential for further development of nuclear power while those dealing with the British Columbia coal industry and the changes in the energy systems of Japan and China have been updated to reflect current data Another new contribution seeks to explain the excess capacity in the coal industry coming to the conclusion that the experience of the past twenty years is unlikely to be repeated thanks to new technologies in steel production and the increased steel capacity of such Pacific Rim countries as Korea Taiwan and China Looking beyond its traditional ties with Europe and the United States Canada is in a particularly advantageous position to participate in the development and integration of the Pacific Basin Canada s geographic location coupled with its increasing economic and cultural ties to East Asia suggest that this country can have a profound effect upon and will be profoundly affected by Pacific Rim development in the coming decade While the risks may be high and the payback period long the potential return on investment is significant
