Brazil Ghana Macedonia and Sri Lanka examine the multivocal process of the construction and reconstruction of ethnic identities through time *The Politics of Ethnicity* Michael Walzer,1982 Examines how ethnicity affects voting and party loyalty and looks at leadership among minority groups **Ethnic Politics and Civil Liberties** Lucius Jefferson Barker,1992-01-01 The official publication of the National Conference of Black Political Scientists this annual publication includes significant scholarly research reflecting the diverse interests of scholars from various backgrounds who use a variety of models approaches and methodologies The central focus is on politics and policies that advantage or disadvantage groups because of race ethnicity sex or other such factors The research is performed in a variety of contexts and settings This third volume includes an introductory note by the editor Lucius J Barker in which he assesses the performance of the Journal in defining a different political science and a note by incoming editor Matthew Holden Jr outlining topics and agendas for future volumes Feature articles include Reconceptualizing Urban Violence Political Science and the Black Political Experience The Impact of At Large Elections on the Representation of Black and White Women State Responses to Richmond v Croson A Survey of Equal Opportunity Officers Media in Warsaw Pact States Explanations of Crisis Coverage and Presence of Immigrants and National Front Vote The Case of Paris 1984 1990 The Book Review Section includes review essays on East European research black urban politics and the political reincorporation of southern blacks and regular book reviews on minority groups and American political culture and other areas *The Issue of Political Ethnicity in Africa* E Udogu,2018-02-06 This title was first published in 2001 The central characteristics of political ethnicity and its dysfunctional attributes in African politics is vexing to Africa s policy makers Moreover as a conflictive ideology in national and international politics many political actors would rather avoid it In the past nationalists have blamed ethnic chauvinists for fanning the embers of ethnicity but today they realize they may have underestimated its prominence in African politics

The Politics of Race and Ethnicity in the United States Sherrow O. Pinder,2010-04-15 This book examines and analyzes Americanization De Americanization and racialized ethnic groups in America It shows that America s cultural homogeneity which is based on whiteness has important consequences for racialized ethnic groups in America The question then of who is an American becomes overriding Although racialized ethnic groups remain unassimilated into the dominant culture the recognition and celebration of the non dominant cultures are important for multiculturalism However non dominant cultures are tied to cultural otherness Cultural otherness is looked upon as Un Americanness For this reason there is a need to move beyond multiculturalism Postmulticulturalism then would be the new possibility **The Politics of Difference** Edwin Norman Wilmsen,P. A. McAllister,1996-08 According to most social scientists the advent of a global media village and the rise of liberal democratic government would diminish ethnic and national identity as a source of political action Yet the contemporary world is in the midst of an explosion of identity politics and often violent ethnonationalism This volume examines cases ranging from the well publicized ethnonationalism of Bosnia and post Apartheid South Africa to ethnic

conflicts in Belgium and Sri Lanka Distinguished international scholars including John Comaroff Stanley J Tambiah and Ernesto Laclau argue that continued acceptance of imposed ethnic terms as the most appropriate vehicle for collective self identification and social action legitimizes the conditions of inequality that give rise to them in the first place This ambitious attempt to explain the inadequacies of current approaches to power and ethnicity forges more realistic alternatives to the volatile realities of social difference

The Politics of Ethnicity in Southern Mexico Howard Campbell,1996

Subnationalism in Africa Joshua Forrest,2004 This examination of the politics of ethnicity and nation building in Africa stresses the trend towards subnationalist autonomy and away from a singular state centric system based on the Western model Forrest ranges across the continent to explore a variety of subnational movements

Dominique Arel,David I. Kertzer,2002 The Politics of Race Ethnicity and Language in National Censuses examines the ways that states have attempted to pigeon hole the people within their boundaries into racial ethnic and language categories These attempts whether through American efforts to divide the US population into mutually exclusive racial categories or through the Soviet system of inscribing nationality categories on internal passports have important implications not only for people s own identities and life chances but for national political and social processes as well The book reviews the history of these categorizing efforts by the state and offers a theoretical context for examining them illustrating the case with studies from a range of countries

Ethnic Minorities, Political Competition, and Democracy Jan Rovny,2024-09-24 Ethnic minorities make contemporary Europe increasingly diverse The wisdom in research on ethnicity is that it is a trouble maker disrupting programmatic politics prioritizing group identity over ideology polity over policy principle over compromise In this book Jan Rovny approaches ethnic politics as normal politics and investigates the ideological potential of ethnicity He shows that ethnic minorities often search for group preservation by championing liberal rights that would protect them from the tyranny of the majority This translates into broader ideological preferences and political behavior including the formation of liberal political poles which in turn configures political cleavages shapes party systems and informs the absorption of new political issues Ultimately the presence of ethnic minorities can be a force for liberal democracy Simultaneously ethnic liberalism is circumstantial as conditional factors cross pressure ethnic minority search for rights and liberties potentially attenuating ethnic liberalism and inducing exclusionary particularism This book combines the study of ethnic politics with research on electoral behavior and party competition while comparing minorities and majorities in eastern Europe The book analyzes existing and new data using mixed experimental quantitative and qualitative methods The empirical chapters in the book are organized into two parts one focusing on large N comparative analyses while the other presents three in depth case studies on interwar Czechoslovakia contemporary Slovakia and contemporary Estonia Transformations in Governance is a major academic book series from Oxford University Press It is

designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism and environmental and urban studies concerned with the dispersion of authority from central states to supranational institutions subnational governments and public private networks It brings together work that advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and Walter Mattli of the University of Oxford

Ethnicity and Electoral Politics Jóhanna Kristín Birnir, 2006-12-25 This book asks what distinguishes peaceful plural democracies from violent ones and what distinguishes violent ethnic groups from peaceful ones within the same democracy Contrary to conventional wisdom it suggests that ethnic groups and their political demands are not inherently intransigent and that violence is not a necessary corollary of ethnic politics The book posits that ethnic identity serves as a stable but flexible information shortcut for political choices influencing party formation and development in new and maturing democracies It furthermore argues that political intransigence and violence expressed by some ethnic groups stem from circumstances exogenous to ethnic affiliations In particular absolute restrictions on ethnic access to the executive produce conditions under which ethnic group incentive to participate in peaceful electoral politics is eliminated A number of case studies and statistical analysis of all electoral democracies since 1945 are used to test and support the formal argument

The Politics of Ethnicity in Pakistan Farhan Hanif Siddiqi, 2012-05-04 In order to understand the Pakistani state and government's treatment of non dominant ethnic groups after the failure of the military operation in East Pakistan and the independence of Bangladesh this book looks at the ethnic movements that were subject to a military operation after 1971 the Baloch in the 1970s the Sindhis in the 1980s and Mohajirs in the 1990s The book critically evaluates the literature on ethnicity and nationalism by taking nationalist ideology and the political divisions which it generates within ethnic groups as essential in estimating ethnic movements It goes on to challenge the modernist argument that nationalism is only relevant to modern industrialised socio economic settings The available evidence from Pakistan makes clear that ethnic movements emanate from three distinct socio economic realms tribal Baloch rural Sindh and urban Mohajir and the book looks at the implications that this has as well as how further arguments could be advanced about the relevance of ethnic movements and politics in the Third World It provides academics and researchers with background knowledge of how the Baloch Sindhi and Mohajir ethnic conflict in Pakistan took shape in a historical context as well as probable future scenarios of the relationship between the Pakistani state and government and ethnic groups and movements

Communities, Networks and Ethnic Politics Ken Hahlo, 2018-08-10 First Published in 1998 this study explores ethnic community political participation in local politics in the North West British town The analysis is located within the framework of the shift from Fordism to post Fordism From 1965 to 1980 ethnic communities increased their

access to scarce resources including political influence by engaging in ethnic politics Using membership of religious organisations as structures of support elected men deployed ethnic identities to compete with others for ethnic support and influence over local decision making processes This gave ethnic minorities a positive role in local politics With the support of local community relations councils CRCs ethnic politics flourished It gave ethnic communities real opportunities to participate as ethnic communities in politics Using local events ethnic leaders competed for political influence and ethnic support After 1977 the shift from Fordism to post Fordism brought about a decline in ethnic political participation While conferment of citizenship secured their right to stay in Britain the rise in consumerism undermined the manufacturing sector on which they depended for work With no ethnic political identity today these communities are again politically disadvantaged
