Portrait of Terror Joseph Masiello, 1986 **American International Pictures** Rob Craig, 2019-03-05 American International Pictures was in many ways the missing link between big budget Hollywood studios poverty row B movie factories and low rent exploitation movie distributors AIP first targeted teen audiences with science fiction horror and fantasy but soon grew to encompass many genres and demographics at times it was indistinguishable from many of the major studios From Abby to Zontar this filmography lists more than 800 feature films television series and TV specials by AIP and its partners and subsidiaries Special attention is given to American International Television the TV arm of AIP and an appendix lists the complete AITV catalog The author also discusses films produced by founders James H Nicholson and Samuel Z Arkoff after they left the company *The Encyclopedia of Fantastic Film* R. G. Young, 2000-04 Thirty five years in the making and destined to be the last word in fanta film references This incredible 1 017 page resource provides vital credits on over 9 000 films 1896 1999 of horror fantasy mystery science fiction heavy melodrama and film noir Comprehensive cast lists include directors writers cinematographers and composers Also includes plot synopses critiques re title translation information running times photographs and several cross referenced indexes by artist year song etc Paperback **New Physiognomy, Or Signs of Character** Samuel Roberts Wells, 1871 **New Physiognomy** Samuel Roberts Wells, 1871 **A gentleman of the olden time, François de Scépeaux** Clarisse Coignet, 1887 *New Physiognomy and External Forms, and Especially in "the Human Face Divine."* Samuel Roberts Wells, 1868 **Portraiture and Politics in Revolutionary France** Amy Freund, 2015-06-13 Portraiture and Politics in Revolutionary France challenges widely held assumptions about both the genre of portraiture and the political and cultural role of images in France at the beginning of the nineteenth century After 1789 portraiture came to dominate French visual culture because it addressed the central challenge of the Revolution how to turn subjects into citizens Revolutionary portraits allowed sitters and artists to appropriate the means of representation both aesthetic and political and articulate new forms of selfhood and citizenship often in astonishingly creative ways The triumph of revolutionary portraiture also marks a turning point in the history of art when seriousness of purpose and aesthetic ambition passed from the formulation of historical narratives to the depiction of contemporary individuals This shift had major consequences for the course of modern art production and its engagement with the political and the contingent *Counterterror Offensives for the Ghost War World* Richard J. Chasdi, 2010-07-06 In Counterterror Offensives for the Ghost War World The Rudiments of Counterterrorism Policy Richard J Chasdi has written a groundbreaking quantitative analysis that provides new insight into which types of counterterror practices work best and which types perform poorly in particular operational environments and circumstances For Chasdi effectiveness is defined as the capacity of counterterror practices to work with stealth namely without eliciting high amounts of related follow up terrorist assaults He moves beyond individual country analyses to tackle an analysis of counterterror practice effectiveness

based on the type of political system of the country carrying out counterterror offensives and the power level of that country within the international political system Chasdi furthermore provides essential qualitative descriptions of national security institutions stakeholders and processes to frame his quantitative results in ways that tie those findings to historical and contemporary political developments
