American Almanac and Treasury of Facts, Statistical, Financial, and Political ,1883 The Fictional Republic Carol Nackenoff,1994-04-14 Investigating the persistence and place of the formulas of Horatio Alger in American politics The Fictional Republic reassesses the Alger story in its Gilded Age context Carol Nackenoff argues that Alger was a keen observer of the dislocations and economic pitfalls of the rapidly industrializing nation and devised a set of symbols that addressed anxieties about power and identity As classes were increasingly divided by wealth life chances residence space and culture Alger maintained that Americans could still belong to one estate The story of the youth who faces threats to his virtue power independence and identity stands as an allegory of the American Republic Nackenoff examines how the Alger formula continued to shape political discourse in Reagan s America and beyond **An American Almanac and Treasury of Facts, Statistical, Financial, and Political, for the Year ...** ,1883 Trump and Political Philosophy Angel Jaramillo Torres,Marc Benjamin Sable,2018-06-12 This book aims to recover from ancient and modern thinkers valuable arguments about statesmanship leadership and tyranny which illuminate reassessments of political science and practice after the election of Donald Trump Like almost everyone else contemporary political scientists were blind sided by the rise of Trump No one expected a candidate to win who repeatedly violated both political norms and the conventional wisdom about campaign best practices Yet many of the puzzles that Trump s rise presents have been examined by the great political philosophers of the past For example it would come as no surprise to Plato that by its very emphasis on popularity democracy creates the potential for tyranny via demagoguery And perhaps no problem is more alien to empirical political science than asking if statesmanship entails virtue or if so in what that virtue consists This is a theme treated by Plato Aristotle and Machiavelli among others Covering a range of thinkers such as Confucius Plutarch Kant Tocqueville and Deleuze the essays in this book then seek to place the rise of Trump and the nature of his political authority within a broader institutional context than is possible for mainstream political science Library of Congress Subject Headings: A-E Library of Congress.
