Prospects for Peace in South Asia Rafiq Dossani, Henry S. Rowen, 2022 *Prospects for Peace in South Asia* addresses the largely hostile often violent relations between India and Pakistan that date from their independence in 1947 The persistent conflict between the two neighboring countries over Kashmir has defied numerous international attempts at resolution and entered its most dangerous phase when both India and Pakistan became nuclear powers in 1998 The struggle over Kashmir is enduringly rooted in national identity religion and human rights It has also influenced the politicization of Pakistan's army religious radicalism and nuclearization in both countries This incisive volume analyzes these forces their impact on relations between the two countries and alternative roles the United States might play in resolving the dispute While acknowledging the risks the book is optimistic about peace in South Asia The key argument is that many of the domestic concerns such as territorial integrity in both countries and civilian military rapprochement in Pakistan that were fueling the conflict have abated

Regionalism and Regional Security in South Asia Zahid Shahab Ahmed, 2016-04-08 Zahid Shahab Ahmed evaluates the progress of the South Asian Association for Regional Cooperation SAARC This study goes beyond economic integration to present a detailed appraisal of cooperation under the overarching themes of economic cooperation environmental security human welfare and cooperation in security matters According to the author SAARC is making progress in addressing the myriad of issues on its agenda The transition from agreements to actions and frequent interactions among the member states has boosted confidence The progress of SAARC is more evident in the less controversial areas of human security such as poverty alleviation health and safety human resources development and higher education Notwithstanding enthusiastic commitments reflected in agreements and action plans there is a gulf between rhetoric and implementation most notably in sensitive areas relating to

traditional security In the light of the findings of this study the author proposes that greater cooperation in common human security areas has a potential to pave the way for a cooperation on issues of a contentious nature particularly terrorism

Cambodia, Prospects for Prosperity and Peace United States. Congress. House. Committee on International Relations. Subcommittee on Asia and the Pacific, 1996 *South Asia and the Great Powers* Sten Rynning, 2017-02-23 Where the implications of war and peace are open to question the possibility of change depends more on politics than economics This book asks whether the region's great powers can overcome opposing interests and commit to political restraint The concept of regional security is based on great power support for regional order However there are many pitfalls to consider notably the politics of contested nationalisms the Asia Pacific rivalry of China and the US and India's inclinations to function or be seen as a benevolent hegemon for the region Yet there are signs of renewed determination to move the region in new directions While China's Silk Road projects are long term regional investments that hinge on regional stability the US is attempting to fashion new partnerships and India strives to reconcile regional differences to promote a peaceful environment This book as it sets out the emerging agendas of the great powers and local powers makes a significant contribution to a better understanding of the international relations and diplomatic politics of South Asia *Prospects for Peace and Stability in Northeast Asia* Barry K. Gills, 1995 **Forging Peace in Southeast Asia** Zachary Abuza, 2016-09-26 Until recently Southeast Asia was plagued by separatist insurgencies that had simmered seemingly intractable for several decades But peace processes in Indonesia and the Philippines have been some of the most innovative and successful in the world a model and counterpoint for Thailand and other protracted conflicts Since the 1970s Indonesia the Philippines and Thailand have wrestled with secessionist groups Each government entered into peace talks then though without any sincerity or willingness to make significant concessions By the turn of the millennium the governments of Indonesia and the Philippines began to reevaluate their strategies while insurgents came to the conclusion that the changed global environment and waning capabilities made victory unlikely Further the impact of the 2004 tsunami brought not only another impetus but also the involvement of the international donor community and peace processes began in both countries where they were successfully implemented Successful devolution of political and economic powers that protected the cultural rights of the minority population as well as substantial wealth sharing brought an end to these conflicts Such successful peace building efforts serve as both a model and counterpoint for Thailand Each of the case studies begins with a history of the insurgency an analysis of the insurgent group's organization operations tactics and capabilities before delving into the history of the peace processes and analyzing the factors that made them successful Nothing is harder than a peace process but the lessons of Southeast Asia show that it is made possible through such factors as a national devaluation of power bold and creative statesmanship the successful neutralization of spoilers and the role of neutral third party facilitators These cases provide important lessons for the fields of counterinsurgency and peace making **Routledge Handbook of Autocratization in**

Southeast Asia Netina Tan, Yuko Kasuya, 2025-07-31 The Routledge Handbook of Autocratization in Southeast Asia examines how global and domestic forces of autocratization affect regional and local politics. It analyzes how the interactions of international and domestic factors affect actors and institutions in both democracies and autocracies in the region. Bringing together a representative slate of both local and international junior and senior scholars of different methodological backgrounds, this Handbook cross-examines regional trends and provides an insider view of the causes and effects of autocratization in a region with diverse experiences with decolonization, state building, and economic and political developments. The 28 chapters are organized into three sections. Part I examines a range of structural, international, socio-political, technological, and ideological causal factors of autocratization. Part II offers a comparative analysis of the consequences of autocratization on key actors and democratic institutions. Part III provides a more detailed study of autocratic consolidation and pushback in each country in Southeast Asia. Taking into account structural, historical, institutional, and cultural factors, the contributors analyze how domestic actors and democratic institutions withstand the global forces of autocratization. This Handbook fills empirical gaps in the current scholarship by focusing on all nation states in the Association of Southeast Asian Nations and Timor-Leste, varied regime types with diverse socio-religious backgrounds. It is the first authoritative reference work dedicated to Southeast Asia's autocratization and will be an indispensable reference work for academics and policymakers interested in democracy and autocracy, regime transition, and Southeast Asian politics.

Culture, Religion and Conflict in Muslim Southeast Asia Joseph A. Camilleri, Sven Schottmann, 2013 By examining the sometimes surprising and unexpected roles that culture and religion have played in mitigating or exacerbating conflicts, this book explores the cultural repertoires from which Southeast Asian political actors have drawn to negotiate the pluralism that has so long been characteristic of the region. Focusing on the dynamics of identity politics and the range of responses to the socio-political challenges of religious and ethnic pluralism, the authors assembled in this book illuminate the principal regional discourses that attempt to make sense of conflict and tensions. They examine local notions of dialogue, reconciliation, civility, and conflict resolution and show how varying interpretations of these terms have informed the responses of different social actors across Southeast Asia to the challenges of conflict, culture, and religion. The book demonstrates how stumbling blocks to dialogue and reconciliation can and have been overcome in different parts of Southeast Asia and identifies a range of actors who might be well placed to make useful contributions, propose remedies, and initiate action towards negotiating the region's pluralism. This book provides a much-needed regional and comparative analysis that makes a significant contribution to a better understanding of the interfaces between region and politics in Southeast Asia.
