Psychiatry In The Communist World:

Non-Aligned Psychiatry in the Cold War Ana Antić, 2022-01-18 This book explores the relationship between socialist psychiatry and political ideology during the Cold War tracing Yugoslav psy sciences as they experienced multiple internationalisations and globalisations in the post WWII period These unique transnational connections with West East and South remain at the centre of this book The author argues that the psy disciplines provide a window onto the complications of Cold War internationalism offering an opportunity to re think postwar Europe s internal dynamics She tells an alternative pan European narrative of the post 1945 period demonstrating that in the Cold War there existed sites of collaboration and vigorous exchange between the two ideologically opposed camps and places like Yugoslavia provided a meeting point where ideas frameworks and professional and cultural networks from both sides of the Iron Curtain could overlap and transform each other Moreover the book offers the first analysis of East European psychiatrists contacts with and contributions to the decolonizing world exploring their participation in broader political discussions about decolonization anti imperialism and non alignment The Yugoslav brand of East West psychoanalysis and psychotherapy bred a truly unique intellectual framework which enabled psychiatrists to think through a set of political and ideological dilemmas regarding the relationship between individuals and social structures This book offers a thorough reinterpretation of the notion of communist psychiatry as a tool used solely for political oppression and instead emphasises the political interventions of East European psychiatry and psychoanalysis This monograph has partly been funded by the European Research Council ERC under the European Union s Horizon 2020 research and innovation programme ERC Starting Grant DECOLMAD 851871 *Psychiatry in the Communist World* Ari Kiev, 1968 *Russian/Soviet Military Psychiatry, 1904-1945* Paul Wanke, 2005 Psychiatry like most professional fields in Russia gained its legitimacy from its ability to serve the Tsar and later the Bolshevik party The militarised nature of these governments meant that psychiatry would have to prove its worth to the military This study will cover Russian Soviet military psychiatry from its first practical experience during the Russo Japanese war to its greatest test during the Great Patriotic War 1941 45 Throughout this study the continuity between Russian and Soviet military psychiatry will be emphasised For example psychiatry s materialist school dominated throughout this period and that Russia s acceptance that psychiatric casualties will occur allowed them to focus their resources on treatment rather than prevention

Ethnopsychiatry Atwood D. Gaines, 1992-08-17 This book outlines a new ethnopsychiatry one that considers popular or folk ethnomedicines and professional psychiatric systems in the same discourse effacing the traditional distinction between psychiatry and ethnopsychiatry The essays in this volume are from a diverse interdisciplinary group representing history psychology sociology and medicine as well as anthropology The author view both ethnomedical practices and illness as local cultural constructions They consider ideologies and institutions from both professional and popular ethnopsychiatric systems in America Western Europe South Africa the Caribbean Japan and India The book demonstrates that professional and popular

psychiatric medicines lie along the same local cultural continua that professional scientific psychiatries and less formalized systems of local popular psychology are epistemological relatives aspects of common cultural discourses on normality and abnormality The essays reject the notion of a universal uniform reality of psychopathology beyond cultural boundaries but the data strongly support the cultural and historically constructed nature of ethnopsychiatry in its illness ideologies and institutions Contributors to this volume include Amy V Blue Thomas Csordas Ellen Dwyer Paul E Farmer M D Atwood D Gaines Helena Jia Hershel Janis Jenkins Pearl Katz Thomas Maretzki Naoki Nomura Charles Nuckolls Kathryn Oths Lorna Amarasingham Rhodes and Leslie Swartz *Psychiatry and Criminal Culpability* Ralph Slovenko, 1995-02-28 Of related interest PSYCHOLOGICAL SERVICES FOR LAW ENFORCEMENT Theodore H Blau This unique training guide reference was written in response to the ever growing demand for psychological services in law enforcement agencies Written by one of the nation s most respected experts in forensic psychology it offers psychologists now working in law enforcement agencies and those interested in entering the field a detailed overview of the many functions psychologists serve within those agencies Organized by sections corresponding to the major functions psychologists perform assessment intervention consultation and training the book deals with all issues that psychologists working in law enforcement will encounter in their practice including officer recruitment fitness for duty evaluations stress counseling drug and alcohol counseling hostage negotiations investigative hypnosis management consultation and much more 1994 0 471 55950 4 454 pp THE PSYCHOLOGICAL EXAMINATION OF THE CHILD Theodore H Blau Over twenty five years in the making and the result of examinations of over four thousand children this book is a comprehensive guide to performing psychological examinations on children Covering virtually every aspect of the examination procedure it offers specific recommendations and step by step guidelines to everything from office decor requisite equipment test selection rating categories and techniques for minimizing stress to administering tests writing reports and making recommendations Closely following Dr Blau s famous Basic Psychological Examination package the book guides readers in their assessment of environmental pressure behavioral responses intellectual factors neuropsychological status response capabilities academic achievement and personality 1991 0 471 63559 6 279 pp THE PSYCHOLOGIST AS EXPERT WITNESS Theodore H Blau This very practical guide arms mental health professionals with everything they need to serve comfortably and effectively as expert witnesses With the help of numerous real life examples excerpts from transcripts sample forms checklists and legal documents it shows you how to prepare for your day in court avoid being manipulated by attorneys write up depositions and psychological and technical reports and much more And as the use of mental health professionals as expert witnesses continues to extend beyond traditional judicial applications the author addresses a wide range of untraditional situations and types of cases in which readers may be called upon to serve including cases of liability and personal injury eyewitness identification research trademark and patent litigation and others 1984 0 471 87129 X 424 pp PSYCHIATRY AND CRIMINAL CULPABILITY How do we distinguish

between sin and sickness Few cases in recent memory so well typify the current confusion over this question as that of Jeffrey Dahmer The confessed killer of fifteen young men Dahmer had sex with and cannibalized his victims bodies Yet because he was not found to be mentally ill the threshold requirement in tests of legal insanity he was convicted and sentenced to 936 years imprisonment How is it that such a severely disturbed person as Dahmer is adjudged sane and therefore culpable while Twinkiedefense killer Dan White and would be presidential assassin John Hinckley Jr are deemed not guilty by reason of insanity What are the origins of tests for criminal responsibility and how is mental illness defined under them Can causal links be shown to exist between specific crimes and disorders Psychiatry and Criminal Culpability explores in depth these questions and many others at the heart of one of the most controversial issues in our criminal justice system today Throughout Dr Ralph Slovenko an acknowledged expert whose professional experience straddles both the worlds of psychiatry and the law brings a wealth of scholarship and direct experience to bear on the subject Citing numerous landmark cases and historical formulations of criminal responsibility dating back to biblical times he traces the evolution of current legal and psychiatric notions of culpability and the relationship between culpability and insanity Writing for both a mental health and legal audience Dr Slovenko clearly and eloquently addresses a wide range of important topical issues He explains the distinctions between the defenses of not guilty by reason of insanity guilty but mentally ill and diminished capacity He identifies the types of mental illness that currently qualify under the test of criminal responsibility including disorders that psychiatrists do not regard as psychotic but which nevertheless many experts assert negate responsibility He explores the role of the mental health professional as an expert character witness in cases where it is uncertain whether the accused committed the crime in question And much more Fascinating thought provoking and enlightening Psychiatry and Criminal Culpability helps guide mental health and legal professionals through the moral and technical complexities of one of the knottiest issues of our day

Therapeutic Fascism Ana Antić, 2017 During World War Two death and violence permeated all aspects of the everyday lives of ordinary people in Eastern Europe Throughout the region the realities of mass murder and incarceration meant that people learnt to live with daily public hangings of civilian hostages and stumbled on corpses of their neighbors Entire populations were drawn into fierce and uncompromising political and ideological conflicts and many ended up being more than mere victims or observers they themselves became perpetrators or facilitators of violence often to protect their own lives but also to gain various benefits Yugoslavia in particular saw a gradual culmination of a complex and brutal civil war which ultimately killed more civilians than those killed by the foreign occupying armies *Therapeutic Fascism* tells a story of the tremendous impact of such pervasive and multi layered political violence and looks at ordinary citizens attempts to negotiate these extraordinary wartime political pressures It examines Yugoslav psychiatric documents as unique windows into this harrowing history and provides an original perspective on the effects of wartime violence and occupation through the history of psychiatry mental illness and personal experience Using previously unexplored resources such as

patients case files state and institutional archives and the professional medical literature of the time this volume explores the socio cultural history of wartime through the eyes of mainly lower class psychiatric patients Ana Antic examines how the experiences of observing suffering and committing political violence affected the understanding of human psychology pathology and normality in wartime and post war Balkans and Europe

Pathological Child Psychiatry and the Medicalization of Childhood Sami Timimi,2014-04-04 Currently it is common practice among the child psychiatric establishment to prescribe powerful and potentially addictive drugs to children who have emotional or behavioural problems Pathological Child Psychiatry and the Medicalization of Childhood is a strong challenge to this way of thinking Sami Timimi uses a wide variety of sources that shape our understanding including his personal experiences to highlight the role of culture beliefs science social hierarchy and power in shaping our understanding of childhood problems and how to deal with them He urges professionals who work with children to question their assumptions in a manner that will enable them to access a greater variety of potentially helpful therapeutic frameworks Since the 1960s psychiatry has had to learn to accommodate critical analysis of its beliefs and methods The legitimacy of its core assumptions continues to be questioned Now child psychiatry too must engage with such a debate if it wishes to develop into a genuinely democratic and inclusive profession Pathological Child Psychiatry and the Medicalization of Childhood will be of great interest to professionals and trainees in psychiatry and child psychiatry social work family therapy and other psychotherapies for children and adolescents
