Raising Abel:

Raising Abel ,2003-06-01 **Raising Abel** James Alison,1996 Raising Abel is a theological exploration of a huge change of mind the change which the apostolic group underwent as a result of the Resurrection and how that paradigm can transform the world today Making use of the thought of Rene Girard the author shows how the God who was revealed by Jesus subverted the violent language imagery and expectations of the early Christians A Human Catechism Joel David Aguilar Ramirez,2024-01-26 A Human Catechism is a theopoetic journey It is the integration of personal experience theological reflection and contextual analysis This book proposes a radical way of discipleship in which we are invited to run the risk of positively imitating one another through the imitation of Christ If violence happens through the imitation of one another maybe good things do too As the reader embarks on a contextually self reflective journey this book invites us to take the chance of believing in a God in whom there is no violence A Human Catechism will be a journey from what seemed impossible to what became second nature all the way to becoming responsible for modeling a way of being otherwise to those around us **James Alison and a Girardian Theology** John P. Edwards,2020-05-14 Opening with a Foreword by James Alison this volume is the first in depth treatment of Alison s theological method John P Edwards shows that Alison s theological project outstrips Ren Girard s application of mimetic theory to theology He concludes that an explicitly Christian theological perspective is necessary for providing a fully coherent account of Girard s notions of conversion and mimetic desire This volume grounds Alison s theological method in his understanding of the ongoing interaction between conversion and theological reflection which is informed by his use of mimetic theory While Alison describes this method as theology in the order of the discovery the author refers to it as an inductive theology The volume closes by demonstrating that such a theology bears fruit in a renewed understanding of the value of Christian doctrines and particularly the doctrine of revelation

Hellrazed? Kevin Miller,2017-11-15 In September 2012 the feature length documentary Hellbound was released in theaters across North America Joining a growing chorus of voices that were questioning the traditional view of hell as a place of eternal conscious torment the film asked a handful of burning questions Does hell exist If so who goes there and why More importantly what do our views about hell say about us and our understanding of God And how do our beliefs about these issues affect the kind of world we create the kind of people we become Five years later the debate over hell is far from settled but the landscape in which such questions are being asked has changed radically Hence filmmaker Kevin Miller decided it was time to go back to some of the people who appear in Hellbound and others he met along the way to get their input on how the debate has shifted and how it s remained the same The result is a plethora of voices offering all sorts of perspectives some highly academic some polemic some intensely personal and all bound to impact how readers think and feel about this issue **Resurrection and Moral Imagination** Sarah Bachelard,2016-04-08 Moral life gathers its shape force and meaning in relation to an underlying sense of reality imaginatively conceived Significant contemporary writing in

philosophy appeals to the concept of transcendence to explore what is deepest in our moral experience but leaves this notion theologically unspecified This book reflects on the appeal to transcendence in ethics with reference to the Resurrection of Jesus Bachelard argues that the Resurrection reveals that the ultimate reality in which human life is held is gracious forgiving and reconciling a Goodness that is for us Faith in this testimony transforms the possibilities of moral life both conceptually and in practice It invites our participation in a goodness experienced non dualistically as grace and so profoundly affects the formation of the moral self the practice of moral judgement and the shape of moral concepts From this perspective contemporary philosophical discussion about transcendence in moral thought is cast in a new light and debates about the continuity between theological and secular ethics gain a thoroughly new dimension Bachelard demonstrates that placing the Resurrection at the heart of our ethical reflection resonates with the deepest currents of our lived moral experience and transfigures our approach to moral life and thought *United States of America V. Schennault* ,1973

"Just a thought..." -e.: Manna for the Mind Ed Cook,2011-07 This thought provoking book offers short readings on a wide variety of topics prompted by Dr Ed Cook s engagement with culture and the Christian faith In the age of sound bites and instant gratification we sometimes forget that elements of our life deserve more consideration than can be expressed in tweets posts and Facebook status updates The chapters are short the writing is pithy and the pages will prompt readers to develop and contemplate their own questions regarding this brave new world in which we find ourselves at the start of the twenty first century Just as in life the joy is often in the journey rather than the destination The richness of this reading experience may often be found in the questions contemplated rather than in answers discovered So read enjoy and think a bit You may not agree with everything presented but remember no offense is intended because after all what s offered is just a thought *The Postmodern Saints of France* Colby Dickinson,2013-07-18 From the mid to the late 20th century various French thinkers have at times toyed with the label of the saint applying it to friends colleagues the revered and even the worshipped such as Genet Sartre Camus or Foucault Despite this profaning of the term however here are many subtle truths which emerge from its usage among such writers This volume is devoted to exploring certain varied notions of the saint in recent French philosophical and literary thought from within a theological context offering insights and valuable contributions toward how we understand sainthood in cultural philosophical and religious terms Each essay focuses on the convergence of a particular author s work and their various re formulations of saintliness in their writings whether this concept is directly expressed in their writings or not In general the aim of the volume is to develop a critical engagement between each authors philosophical worldview and historical notions of sainthood such that we are capable of providing new understandings of what a saint could be said to be in our world today **René Girard and the Nonviolent God** Scott Cowdell,2018-11-30 In his latest book on the ground breaking work of Ren Girard 1923 2015 Scott Cowdell sets out a new perspective on mimetic theory and theology he develops the proposed connection between Girardian thought and theological

dramatic theory in new directions engaging with issues of evolutionary suffering and divine providence inclusive Christian uniqueness God's judgment nonviolent atonement and the spiritual life Cowdell reveals a powerful illuminating and life enhancing synergy between mimetic theory and Christianity at its best With religion widely seen as increasingly violent and intransigent the true Christian emphasis on divine solidarity mercy and healing is in danger of being lost Ren Girard provides a countervailing voice He emerges from Cowdell's study not only as a necessary dialogue partner for theology today but as a global prophet offering hope and challenge in equal measure Ren Girard was a Catholic cultural theorist whose mimetic theory achieved a powerful symbiosis of social science with scripture and theology yielding a unique perspective on humanity's origins violent history and future prospects Cowdell maps this synergy revealing theological themes present from Girard's earliest writings to the latest less familiar publications He resolves a number of theological challenges to Girard's work engaging mimetic theory in fruitful dialogue with key themes movements and thinkers in theology today Bringing a distinctive Anglican voice to a largely Catholic debate Cowdell gives an orthodox theological account of Girard's intellectual achievement bearing witness to Christianity's nonviolent God This book will be of great interest to theologians seminarians and clergy of all traditions Girardians and Christian peace activists

From Stone to Living Word: Letting the Bible Live Again, **People of the Lakes** Kathleen O'Neal Gear, W. Michael Gear, 1995-06 Otter a Mississippi Valley trader undertakes a perilous journey to lead the Mound Builders to prosperity while Star Shell a chief's daughter accompanies him toward Niagara Falls to destroy an evil totemic mask Resisting Violence and Victimisation Joel Hodge, 2016-03-23 The reality and nature of religious faith raises difficult questions for the modern world questions that re present themselves when faith has grown under the most challenging circumstances In East Timor widespread Christian faith emerged when suffering and violence were inflicted on the people by the state This book seeks a deeper understanding of faith and violence exploring how Christian faith and solidarity affected the hope and resistance of the East Timorese under Indonesian occupation in their response to state sanctioned violence Joel Hodge argues for an understanding of Christian faith as a relational phenomenon that provides personal and collective tools to resist violence Grounded in the work of mimetic theorist Ren Girard Hodge contends that the experience of victimisation in East Timor led to an important identification with Jesus Christ as self giving victim and formed a distinctive communal and ecclesial solidarity The Catholic Church opened spaces of resistance and communion that allowed the Timorese to imagine and live beyond the violence and death perpetrated by the Indonesian regime Presenting the East Timorese stories under occupation and Girard's insights in dialogue this book offers fresh perspectives on the Christian Church's ecclesiology and mission **Mimetic Theory and Its Shadow** Scott Cowdell, 2023-08-01 Leading Girardian theologian Scott Cowdell seeks to resolve a long standing challenge to mimetic theory that it entails a fundamental brutishness an ontological violence Girard's account of scapegoating violence seen as providing the initial stability for our species to emerge and consolidate hardly seems compatible with Christian belief in God's good

creation with violence only appearing after a subsequent Fall The brilliant but controversial theologian John Milbank has long raised this concern about Girard grounded in a remarkably sophisticated though seldom fathomed philosophical theology Unpacking Milbank's program along with Girard's recasting of Continental philosophy in light of mimetic theory Cowdell finds a way between two apparently irreconcilable positions With irenic spirit but analytic tenacity he probes for ways through Milbank's arguments while pressing on growth points in Girard's Cowdell's proposals involve reframing divine creation in light of salvation history reimagining divine participation by thinking Christ and evolution together and developing a semiotic approach to mimetic theory that delivers ontological peace hermeneutically Cowdell shows how Girard's vision of human transformation through faith in Christ reveals a different world beyond ontological violence while preserving the divine participation that Milbank champions

Religion and Violence Dominic Arcamone, 2016-02-25 The aim of Religion and Violence is to engage dialectically key symbols of religiously motivated violence through the insights of Bernard Lonergan Sociologists and psychologists argue the link between religion and violence but religion is viewed more as part of the problem and not part of the solution to violence Bernard Lonergan's insights have helped the author arrive at a number of conclusions regarding the link between religion and violence He argues that there is a difference between distorted religion and genuine religion between authenticity and inauthenticity of the subject Distorted religion has the capacity to shape traditions in ways that justify violence while genuine religion helps them make different moral decisions when confronted with situations of conflict and aims to explore new ways of understanding themselves as shaping history toward progress Experiencing God in the Gospel of John Anthony Kelly, Francis J. Divine Teaching Mark A. McIntosh, 2017-09-05 This innovative work is an introduction to Christian theology with a difference Not only does it interpret with clarity and energy fundamental Christian beliefs but it also shows how and why these beliefs arose promoting an understanding of theological reflection that encourages readers to think theologically themselves From Irenaeus and Aquinas to Girard from Augustine to Zizioulas and contemporary feminist thought Divine Teaching explores the ways in which major thinkers in the Christian tradition have shaped theology through the wide variety

of their encounters with God It makes theological study adventurous and interactive not necessarily requiring a faith commitment from all but allowing readers a thoughtful involvement in the subject that takes seriously the Christian vision of God as the ultimate teacher of theology Divine Teaching An Introduction to Christian Theology is an imaginative and lively analysis of the Christian way of thinking offering vivid and informing insight into the history and practice of Christian theology **Corks and Curls** ,1915
