The Keystone, 1925 *South of South Beach* Keith G. Laufenberg, 2014-07-05 *South of South Beach* takes the reader back in time to the 60 s and 70 s during a time when South Beach was nothing like the glitzy Art Deco district it is today but more of a dilapidated run down section of real estate where Chris Dundee runs the 5th Street Gym and many transplanted prizefighters Muhammad Ali among them roam the streets looking for something to while away the hours while they prepare their bodies for the task of fighting another highly trained boxer who wants to beat their brains out even as they wish to do much the same to them The girls stroll parts of South Beach in bikinis and the Beatles have even visited the 5th Street Gym recently the beat generation is giving way to the hippie free love generation so come back in time and visit what today is one of the world s great vacation centers but at this time during the 1960 s was more of a slum or a ghetto to avoid at your own peril especially a small stretch of beach just south of South Beach *The Infamous King Of The Comstock* Michael J. Makley, 2006-01-09 William Sharon was one of the most colorful scoundrels in the nineteenth century mining West He epitomized the robber barons of the nation s Gilded Age and the political corruption and moral decay for which that period remains notorious yet he was also a visionary capitalist who controlled more than a dozen of the greatest mines on Nevada s mighty Comstock Lode built the Virginia the machinations of rampant Gilded Age capitalism and the sophisticated financial and technological infrastructure that supported Virginia City s boomtown economy *The Infamous King of the Comstock* offers a significant fresh perspective on Nevada and the mining West *The Blind Boss and His City* William A. Bullough, 2023-11-15 This title is a compelling examination of Christopher Augustine Buckley the enigmatic political figure who dominated San Francisco s Democratic Party during the late 19th century This richly detailed study reveals how Buckley despite being blind for much of his career rose to power without ever holding elective office epitomizing the saloon boss phenomenon unique to America s urban political landscape of the era Through meticulous research Bullough reconstructs Buckley s influence over San Francisco s politics the city s transformation into a burgeoning metropolis and the interplay between municipal governance economic ambitions and social stratification during this pivotal period in California s history The book situates Buckley s career within the broader narrative of San Francisco s transition from a Gold Rush boomtown to an industrial and political powerhouse Exploring themes of urbanization political reform and the complexities of machine politics Bullough unpacks the dynamics of Buckley s reign his relationships with other power brokers and the eventual decline of his political empire amidst the rise of Progressive Era reforms Scholars of urban history political science and California s development will find this work an invaluable resource shedding light on the intricate connections between leadership community and the evolving cityscape of 19th century San Francisco This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed

two young men and how they died Will Pressley free the house of the torturous limbo it has endured for so long Or will his spirit be the newest addition to a house of solemn shadows and lost souls **Old California Houses** Marion Randall Parsons,2023-11-15 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1952 **Adolph Sutro** William R. Huber,2020-04-13 Adolph Sutro was forever seeking challenges Emigrating from Prussia to the U S at age 20 the California gold rush lured him west At the Comstock Lode in Nevada he conceived an idea for a tunnel to drain the hot water that made the mines perilous and inefficient But he would have to overcome both physical obstacles and powerful opposition by the Bank of California to realize his vision Back in San Francisco Sutro bought one twelfth of the city including the famous Cliff House perched over the Pacific Ocean When it burned to cinders on Christmas Day 1894 he built a massive eight story Victorian replacement He used his expertise in tunneling and water solutions to create the world s largest enclosed swimming structure the Sutro Baths six glass covered heated saltwater pools with capacity of 1 000 swimmers Other challenges followed but Sutro was not invincible After a two year term as mayor of San Francisco he succumbed to debilitating strokes which left him senile His death in 1898 started disputes among his heirs six children by his wife and two by his mistress that lasted more than a decade **New York Times Saturday Review of Books and Art** ,1937 *Our Better Nature* Philip J. Dreyfus,2012-11-19 Few cities are so dramatically identified with their environment as San Francisco the landscape of hills the expansive bay the engulfing fog and even the deadly fault line shifting below Yet most residents think of the city itself as separate from the natural environment on which it depends In *Our Better Nature* Philip J Dreyfus recounts the history of San Francisco from Indian village to world class metropolis focusing on the interactions between the city and the land and on the generations of people who have transformed them both Dreyfus examines the ways that San Franciscans remade the landscape to fit their needs and how their actions reflected and affected their ideas about nature from the destruction of wetlands and forests to the creation of Golden Gate and Yosemite parks the Sierra Club and later the birth of the modern environmental movement Today many San Franciscans seek to strengthen the ties between cities and nature by pursuing more sustainable and ecologically responsible ways of life Consistent with that urge *Our Better Nature* not only explores San Francisco s past but also poses critical questions about its future Dreyfus asks us to reassess our connection to the environment and to find ways to redefine ourselves and our cities within nature Only with such an attitude will San Francisco retain the magic that has always charmed residents and visitors alike **Western Mining** Otis E. Young, Jr.,Otis Young,Robert Lenon,1977-06-01 Here for the first time is a clear account in words and pictures of the methods by which gold and silver were extracted and processed in the Old West The author describes the early days of Spanish and Indian mining and the wild era inaugurated by

the American prospector who rushed west to get rich quick ending with the year 1893 when repeal of the Sherman Silver Purchase Act virtually closed the mining frontier The account gives in laymen s language the techniques employed in prospecting placering lode mining and milling particularly those employed by the Spaniards Indians and Cornishmen and shows how the ever practical Americans adapted and improved them Special attention is given to the methods employed in the California and Montana gold fields Colorado and the Comstock Lode the Black Hills and Tombstone Arizona In these pages the reader also meets some of the unforgettable personalities whose lives enriched and sometimes impoverished the mining camps **Book of General Membership of the Ralston Health Club ...** Ralston Health Club,1896 **The Master of Ralston** Maud Jeanne Franc,1885 **Scientists and Swindlers** Paul Lucier,2008-11-20 Scientists and Swindlers introduces us to a new service of professionals the consulting scientists Lucier follows these entrepreneurial men of science on their wide ranging commercial engagements from the shores of Nova Scotia to the coast of California and shows how their innovative work fueled the rapid growth of the American coal and oil industries and the rise of American geology and chemistry Along the way he explores the decisive battles over expertise and authority the high stakes court cases over patenting research the intriguing and often humorous exploits of swindlers and the profound ethical challenges of doing science for money from publisher description *Reclaiming San Francisco* James Brook,Chris Carlsson,Nancy J. Peters,City Lights Books,1998 Reclaiming San Francisco is an anthology of fresh appraisals of the contrarian spirit of the city a spirit resistant to authority or control The official story of San Francisco is one of progress development and growth But there are other unofficial San Francisco stories often shrouded in myth and in danger of being forgotten and they are told here stories of immigrants and minorities sailors and waterfront workers and poets artists and neighborhood activists along with the stories of speculators land grabbers and the land itself that need to be told differently Contributors include historians geographers poets novelists artists art historians photographers journalists citizen activists an architect and an anthropologist Passionate about the city they want San Francisco to be more itself and less like the city of office towers chain stores theme parks and privatized public services and property that appears to be its immediate fate San Francisco is not alone in being transformed according to the dictates of the global economy But San Franciscans are unusual in their readiness to confront the corporate agenda for their city Ralston Gardens of Life Edmund Shaftesbury,1900 **The Ralstons** Francis Marion Crawford,1893 **Book of General Membership in the Ralston Health Club** Ralston Health Club,1895 **Universal System of the Ralston Health Club** Ralston Health Club,1909
