Rampaging Bulls:

Clearing the Bull Jonathan Ledwidge, 2012-02-11 The financial crisis shows that the banking industry requires a transformation as its business model and practices are no longer sustainable Even so such transformation cannot be made without Clearing the Bull moving beyond old and tired orthodoxies in order to properly diagnose the problem Drawing on more than twenty years of experience in banking author Jonathan Ledwidge shows how the financial crisis exposed the industry's poor system of values leaving it mired in conflict with its human environment Specifically this includes how poor leadership virtually unmanageable organizations dysfunctional suppliers infuriated customers alienated employees and dissatisfied communities all arise from the inability of banks to understand that values are more important than valuations As a result there is now a total disconnect between banks and their human environment That disconnect cannot be fully addressed by conventional solutions involving more regulations more governance and more controls Banks have a very human problem and thus by definition what they require is a human transformation Clearing the Bull provides both a clear diagnosis as well as a detailed and comprehensive roadmap for the banking industry's human transformation and while doing so it remains totally engaging and accessible to bankers and non bankers alike **My Brother's Road** Markar

From Soldier to Storyteller Kathleen Broome Williams, Hal M. Friedman, 2024-10-08 Many of the best known and most popular children's stories of the 20th and early 21st century were written by veterans of World War I and World War II These include works by such writers as A A Milne C S Lewis Roald Dahl Ian Fleming and J R R Tolkien among others Although they had experienced war most of the veterans did not overtly write about it The seeming paradox of warriors who went through searing combat and then wrote books for children has not been addressed collectively before now The essays in this book explore what motivated these veterans to write for children what they wrote and how their writing was influenced by the wars they lived through It examines how their combat experience can be traced in their writing however subtly whether it was stories about a bear and his piglet companion a World War I flying ace or a flying car Their reactions to war as reflected in their writing yield important lessons about the complicated legacy of the 20th century's two great conflicts and their long lasting impact through children on society at large
