**Catholic Spirituality for Business** Martin Schlag, Domenc Mele, 2019 Spirituality and gift are notions that are en vogue Topics such as spirituality at the workplace spirituality management spirituality in leadership organizational spirituality and other related topics are trending in management literature The logic of gift is also appearing more frequently especially in attempts to rethink the way our economy works in order to include the marginalized brbr The expression logic of gift was introduced into official Catholic social teaching by Pope Benedict XVI who presented it in association with the principle of gratuitousness which in turn is an expression of fraternity However before *Caritas in Veritate* and ever since Marcel Mauss's groundbreaking work *The Gift* the importance of gift for human relationships and for the cohesion of society had been increasingly recognized Alain Caill and Jacques T Godbout further fleshed out the implication of gift for contemporary society in the context of secular social sciences striving to overcome utilitarianism It was the civil economy movement however that exercised greatest influence on Benedict XVI's encyclical *Caritas in Veritate* i brbr This present volume reflects on the general scope of these notions for business and society This is done by structuring the book in two parts each dedicated to one of the two concepts Each part has two general chapters and two that apply the notions to business and to business education The authors are a mix of well known emeritus professors and younger talented emerging scholars We have also been careful to combine European with American authors brbri **A Catholic Spirituality for Business The Logic of Gift** Course in Industrial Publishing Business Training Corporation, 1921 **William Faulkner, Letters & Fictions** James G. Watson, 2014-09-10

Besides the groundbreaking novels and stories that brought him fame William Faulkner throughout his life wrote letters to his publisher his lovers his family and his friends In this first major study of epistolarity in Faulkner's work James G Watson examines Faulkner's personal correspondence as a unique second canon of writing separate from his literary canon with its many fictional letters but developing along parallel lines By describing the similarity of forms and conventions in Faulkner's personal and fictional correspondence Watson clearly demonstrates that Faulkner's personal experience as a writer of letters significantly shaped his imaginative work early and late Letters are always about themselves they re create a world between the sender and the receiver In this illuminating study Faulkner's personal letters are treated as a form of reflexive writing first person narratives in which Sender self consciously portrays Self to a specific Receiver likewise portrayed in the letter text This duality of actual experience and imaginative re creation measures the personal distances between the life of the

writer and the written self image It reveals that letters are at once fragments of autobiography and fictions of self Such laws of letters apply equally to the letters that appear throughout Faulkner s novels and stories The twenty one letters and telegrams in *The Sound and the Fury* for example portray character propel plot and convey important themes of failed communication and broken identity From *Soldiers Pay* to his last work Faulkner s carefully lettered canon of fiction is dramatic evidence of his understanding of epistolarity and of the extent to which he adapted letters including some of his own to shape his fictional world
