Random House Essential Italian Dictionary Robert Anderson Hall,1997-01-01      *Studies in Etymology and Etiology* David L. Gold,2009 Dictionaries usually give only brief treatment to etymologies and even etymological dictionaries often do not lavish on them the attention which many deserve To help fill the gap the author deals in depth with several etymologically problematic words in various Germanic Jewish Romance and Slavic languages all of which have hitherto either been misetymologized or not etymologized at all Sometimes he succeeds in cracking the nut Sometimes he is able only to clear away misunderstanding and set the stage for further treatment Usually he marshals not only linguistic but also historical and cultural information Since this book also discusses methodology it has the makings of an introduction to the science art and craft of etymology David L Gold is the founder of the Jewish Name and Family Name File the Jewish English Archives and the Association for the Study of Jewish Languages as well as the editor of Jewish Language Review and Jewish Linguistic Studies      **Library of Congress Catalogs** Library of Congress,      **World Dictionaries in Print 1983** ,1983

novelist It focuses on the intensification of Sicilian linguistic features in Camilleri's narrative works in particular features pertaining to the domains of sounds and grammar since these have been marginalized in linguistic centered research on the evolution of Camilleri's narrative language and remain overall understudied Through a systematic comparative analysis of the distribution patterns of selected Sicilian features in a selection of Camilleri's historical novels and novels of the Montalbano series the author identifies the individual features that have become most widespread and the lexical items that are targeted with highest frequency and consistency The results of the analysis show that in the earlier novels Sicilian features are rather sparse and can be attributed to linguistic situational functionality that is they function as indices of salient distinctive aspects of topics settings events situations and characters Conversely in the latest novels Sicilian elements pervade the entire novels and the texts are written almost entirely in Camilleri's own Sicilian *vigatese* so that Sicilian is stripped of any linguistic situational functionality
