Ransom Of Russian Art:

The Ransom of Russian Art John McPhee, 2011-04-01 John McPhee's *The Ransom of Russian Art* is a suspenseful chilling and fascinating report on a covert operation like no other. It offers unprecedented insight into Soviet culture at the brink of the Union's collapse. In the 1960s and 1970s an American professor of Soviet economics forayed on his own in the Soviet Union, bought the work of underground unofficial artists and brought it out himself or arranged to have it illegally shipped to the United States. Norton Dodge visited the apartments of unofficial artists in at least a dozen geographically scattered cities. By 1977 he had a thousand works of art. His ultimate window of interest involved the years from 1956 to 1986 and through his established contacts he eventually acquired another eight thousand works by far the largest collection of its kind. McPhee investigates Dodge's clandestine activities in the service of dissident Soviet art, his motives for his work and the fates of several of the artists whose lives he touched.

This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union. It indexes fields of scholarship such as the humanities, arts, technology and life sciences and all kinds of scholarship such as PhDs.

The Second John McPhee Reader John McPhee, 1996-02-28. This second volume of *The John McPhee Reader* includes material from his eleven books published since 1975 including *Coming into the Country*, *Looking for a Ship*, *The Control of Nature* and the four books on geology gathering under the title *Annals of the Former World*: *Basin and Range*, *In Suspect Terrain*, *Rising from the Plains* and *Assembling California*.

[The 2002 Collection](#) Sudbury Valley School Press, 2002-07. Edited email exchanges written related to Sudbury Schools.

Such Freedom, If Only Musical Peter J Schmelz, 2009-03-04. Examining the construction and reception of the music produced in the Soviet Union between 1956 and 1974 in the period known as the Thaw, this is the first book to draw upon interviews with musicians from the time as well as detailed analyses and archival materials.

[na](#) McPhee John, **Looking for a Story** Noel Rubinton, 2025-05-13. An annotated bibliography that documents the work of the longtime New Yorker writer, journalist, Pulitzer Prize winner and Princeton professor John McPhee.

In Suspect Terrain John McPhee, 2011-04-01. From the outwash plains of Brooklyn to Indiana's drifted diamonds and gold, John McPhee's *In Suspect Terrain* is a narrative of the earth told in four sections of equal length each in a different way reflecting the three others: a biography, a set piece about a fragment of Appalachian landscape in illuminating counterpoint to the human history there, a modern collision of ideas about the origins of the mountain range and in contrast a century-old collision of ideas about the existence of the Ice Age. The central figure is Anita Harris, an internationally celebrated geologist who went into her profession to get out of a Brooklyn ghetto. The unifying theme is plate tectonics, here concentrating on the acceptance that all aspects of the theory do not universally enjoy. As such, *In Suspect Terrain* is a report from the rough spots at the front edge of a science. *In Suspect Terrain* is the second book in a

series on geology and geologists presenting a cross section of North America along the fortieth parallel and gathered under the overall title *Annals of the Former World* The other books in the series are *Basin and Range* *Rising from the Plains* and *Assembling California*

Giving Good Weight John McPhee, 2011-04-01 You people come into the market the Greenmarket in the open air under the down pouring sun and you slit the tomatoes with your fingernails With your thumbs you excavate the cheese You choose your stringbeans one at a time You pulp the nectarines and rape the sweet corn You are something wonderful you are people of the city and we who are almost without exception strangers here are as absorbed with you as you seem to be with the numbers on our hanging scales So opens the title piece in this collection of John McPhee's classic essays grouped here with four others including *Brigade de Cuisine* a profile of an artistic and extraordinary chef *The Keel of Lake Dickey* in which a journey down the whitewater of a wild river ends in the shadow of a huge projected dam a report on plans for the construction of nuclear power plants that would float in the ocean and a pinball shoot out between two prizewinning journalists

The Survival of the Bark Canoe John McPhee, 1982-05-01 In Greenville New Hampshire a small town in the southern part of the state Henri Vaillancourt makes birch bark canoes in the same manner and with the same tools that the Indians used *The Survival of the Bark Canoe* is the story of this ancient craft and of a 150 mile trip through the Maine woods in those graceful survivors of a prehistoric technology It is a book squarely in the tradition of one written by the first tourist in these woods Henry David Thoreau whose *The Maine Woods* recounts similar journeys in similar vessel As McPhee describes the expedition he made with Vaillancourt he also traces the evolution of the bark canoe from its beginnings through the development of the huge canoes used by the fur traders of the Canadian North Woods where the bark canoe played the key role in opening up the wilderness He discusses as well the differing types of bark canoes whose construction varied from tribe to tribe according to custom and available materials In a style as pure and as effortless as the waters of Maine and the glide of a canoe John McPhee has written one of his most fascinating books one in which his talents as a journalist are on brilliant display

Basin and Range John McPhee, 1981-04 The first of John McPhee's works in his series on geology and geologists *Basin and Range* is a book of journeys through ancient terrains always in juxtaposition with travels in the modern world a history of vanished landscapes enhanced by the histories of people who bring them to light The title refers to the physiographic province of the United States that reaches from eastern Utah to eastern California a silent world of austere beauty of hundreds of discrete high mountain ranges that are green with junipers and often white with snow The terrain becomes the setting for a lyrical evocation of the science of geology with important digressions into the plate tectonics revolution and the history of the geologic time scale

Levels of the Game John McPhee, 2011-04-01 *Levels of the Game* is John McPhee's astonishing account of a tennis match played by Arthur Ashe against Clark Graebner at Forest Hills in 1968 It begins with the ball rising into the air for the initial serve and ends with the final point McPhee provides a brilliant stroke by stroke description while examining the backgrounds and attitudes which have molded the players games
