the bodily production of speech which it rendered in poetic legible graphic form Modernist sound writing aims to capture the acoustic phenomenon of vocal articulation by graphic means Tobias Wilke considers sound writing from its inception in nineteenth century disciplines like physiology and experimental phonetics following its role in the aesthetic practices of the interwar avant garde and through to its reemergence in the postwar period These projects work with the possibility of crossing over from the audible to the visible from speech to notation from body to trace Employing various techniques and concepts this search for new possibilities played a central role in the transformation of poetry into a site of radical linguistic experimentation Considering the works of writers and artists including Raoul Hausmann Kurt Schwitters Viktor Shklovsky Hugo Ball Charles Olson and Marshall McLuhan Wilke offers a fresh look at the history of the twentieth century avant garde

Art and Resistance in Germany Deborah Ascher Barnstone, Elizabeth Otto, 2018-11-01 In light of the recent rise of right wing populism in numerous political contexts and in the face of resurgent nationalism racism misogyny homophobia and demagoguery this book investigates how historical and contemporary cultural producers have sought to resist confront confound mock or call out situations of political oppression in Germany a country which has seen a dramatic range of political extremes during the past century While the current turn to nationalist populism is global it is perhaps most disturbing in Germany given its history with its stormy first democracy in the interwar Weimar Republic its infamous National Socialist Nazi period of the 1930s and 1940s and its split Cold War existence with Marxist Leninist Totalitarianism in the German Democratic Republic and the Federal Republic of Germany's barely hidden ties to the Nazi past Equally important Germans have long considered art and culture critical to constructions of national identity which meant that they were frequently implicated in political action This book therefore examines a range of work by artists from the early twentieth century to the present work created in an array of contexts and media that demonstrates a wide range of possible resistance

Cannibalizing the Canon, 2024-02-06 This rich in depth exploration of Dada's roots in East Central Europe is a vital addition to existing research on Dada and the avant garde Through deeply researched case studies and employing novel theoretical approaches the volume rewrites the history of Dada as a story of cultural and political hybridity border crossings transitions and transgressions across political class and gender lines Dismantling prevailing notions of Dada as a Western movement the contributors to this volume present East Central Europe as the locus of Dada activity and techniques The articles explore how artists from the region prefigured Dada as well as actively cannibalized that is reabsorbed and further hybridized a range of avant garde techniques thus challenging Western cultural hegemony

The Oxford Critical and Cultural History of Modernist Magazines Peter Brooker, Andrew Thacker, 2009 The first full study of the role of little magazines and their contribution to the making of artistic modernism and the avant garde across Europe this

Presentism Maria Stavrinaki, 2016-04-20 Dada is often celebrated for its strategies of shock and opposition but in Dada Presentism Maria Stavrinaki provides a new picture of Dada art and writings as a lucid reflection on history and the role of art within it The original Berlin based Dadaists' acute historical consciousness and their modern experience of time she contends anticipated the formulations of major historians such as Reinhart Koselleck and more recently François Hartog The book explores Dada temporalities and concepts of history in works of art artistic discourse and in the photographs of the Berlin Dada movement These photographs including the famous one of the First International Dada Fair are presented not as simple transparent documents but as formal deployments conforming to a very concrete theory of history This approach allows Stavrinaki to link Dada to more contemporary artistic movements and practices interested in history and the archive At the same time she investigates what seems to be a real oxymoron of the movement its simultaneous claim to the ephemeral and its compulsive writing of its own history In this way Dada Presentism also interrogates the limits between history and fiction
