Rare Earths Forbidden Cures:

Rare Earths Joel D. Wallach, 1996 *The Hundred-Year Lie* Randall Fitzgerald, 2007-06-26 In a devastating exposé in the tradition of *Silent Spring* and *Fast Food Nation* investigative journalist Randall Fitzgerald warns how thousands of man-made chemicals in our food, water, medicine, and environment are making humans the most polluted species on the planet. A century ago when Congress enacted the Pure Food and Drug Act, Americans were promised better living through chemistry. Fitzgerald provides overwhelming evidence to shatter this myth and many others perpetrated by the chemical, pharmaceutical, and processed foods industries. Consider this: The average American carries a body burden of 700 synthetic chemicals. Chemicals in tap water can cause reproductive abnormalities and hermaphroditic birth. One study of lactating women found perchlorate, a toxic component of rocket fuel, in practically every mother's breast milk. In the face of this national health crisis, Fitzgerald presents informed and practical suggestions for what we can do to turn the tide and live healthier lives.

Offers practices, techniques, and guidelines for each of the Eight Immortal Healer teachings, including the important roles of oxygen and water in the body, nutrition, detoxification, exercise, energy work, emotional pollution, and spiritual hygiene. They discuss how oxygen deficiency is the main culprit in cancer and virus and provide a number of oxygen therapies, including the use of hydrogen peroxide and deep breathing to stimulate the metabolism and immune system. The second Immortal Healer centers on water, and the authors explain how chronic dehydration can lead to a host of ailments and offer advice for rehydrating. The other teachings of the Immortal Healers include Nutrition with guidance on supplements, superfoods, toxic foods, and daily meals; Detoxification with detailed guidelines for cleansing the body's organs and glands; Avoiding environmental poisons with advice on vaccines, dental amalgam fillings, sunscreen, chemotherapy, fluoride, and pesticides; Exercise with step-by-step instructions for Inner Alchemy practices, yoga, and breathing techniques; Maintenance of the energy body through acupuncture, chi kung, healing magnet therapy, and photon sound beams; and Emotional pollution and spiritual hygiene with a wealth of practices for balancing the emotional body and staying connected to Source, including forgiveness, meditation, and

Collapse How Societies Choose to Fail or Succeed addresses the fact that only civilizations that recognize the threats against their existence and deal with the threat effectively survive Civilizations with their heads in the sand become extinct or are conquered by more vigorous nations The robber barons of the last century were able to create a monopoly for oil and the automobile by ruthlessly and systematically destroying all competition They tore up cable car lines and public transportation so the public would have no other alternative except their oil Today the drug monopolies owned by the descendants of these same robber barons are nearly complete in their plot to eradicate all natural low cost remedies for disease prevention and treatment In the state of Florida naturopathic physicians were de licensed unless they also had a conventional medical license The powers that be want to create a drug induced society at an enormous financial and emotional cost to the public at large They are even trying to outlaw vitamins via European health treaties and side step the American constitution and the public The ever escalating cost of medical care created by lack of natural alternative options can only lead to the eventual total collapse of the entire medical system It is exceedingly difficult finding the truth about alternative medicine as the system has a vested interest in making profits and keeping the truth from you A few thousand deaths is an acceptable loss if a few billion dollars can be made And it will be a cold day in hell before a drug company puts itself out of business by telling you about a low cost natural cure that their product can manage The guardians of public health know which side their toast is buttered on also The career politicians and beltway bandits at the FDA know where the money is and they dont get it from you or providers of natural cures The drug monopolies pay the big bucks There have been no checks and balances Corruption has become so pronounced that the US House of Representatives is seeking to pass the Consumers Access to Health Information Act H R 2352 to ensure that accurate health claims ARE NOT SUPPRESSED Consumers would be given TRUTHFUL AND COMPLETE information about the curative mitigation treatment and prevention effects of foods and dietary supplements on disease or health related conditions The time to exercise your God given right to the health care of your choice is now www.lef.org America has the finest emergency health care in the world Bar none However that is not the nature of the coming threat American baby boomers will soon be retiring in the tens of millions Their health care needs will be staggering and costly However 92% of American health care providers are trained in emergency medicine and only 8% in long term preventative medicine As it takes a minimum of 6 7 years to obtain a medical degree America is unprepared for a crisis that is inevitable
