Grand Master then you want The Collected Stories of Arthur C Clarke If you re looking for a representative sample of Clarke s short stories or for some examples of the creative and extrapolative abilities that established Clarke as one of science fiction s greatest and most important writers then check out Tales from Planet Earth Tales from Planet Earth ranges widely across time but the stories are centered on our home world Many SF writers confine their visions of earth to its flatlands but Clarke is three dimensional his stories Hate The Deep Range and The Man Who Ploughed the Sea plunge into the ocean while The Cruel Sky ascends the Himalayas Some stories like The Other Tiger and If I Forget Thee Oh Earth end on chilling twists The Road to the Sea spans centuries and millennia to explore how humanity s exodus to the stars may affect the world left behind Hate considers how transcendence of the Earth s atmosphere may affect ancient enmities The Parasite demonstrates a scary nastiness not usually associated with Clarke The Wall of Darkness is set on an alternate universe earth so different from ours and The Lion of Comarre is set in a future so far away that both stories feel like fantasy but both are rigorously extrapolated from scientific theory Two lighthearted entertainments The Next Tenants and The Man Who Ploughed the Sea are from Tales of the White Hart All of the stories in Tales from Planet Earth are recommended Here is a collection of Arthur s science fiction stories science fiction dealing with science extrapolated intelligently How you will enjoy it ISAAC ASIMOV
