**Dynamics of the Mixed Economy** Sanford Ikeda, 2002-09-11 Dynamics of the Mixed Economy applies the insights of modern Austrian political economy to examine economic policy in mixed economies It compares and contrasts standard approaches to the growth of the state including public choice with that of modern Austrian political economy examines in detail the nature and operation of the interventionist process in the context of nationalization regulation and the welfare state analyzes conditions that produce instability under laissez faire capitalism argues that the interventionist process is a spontaneous order and offers several pattern predictions regarding the character and behaviour of really existing economies

**Political Confidence and Democracy in Europe** Christian Schnaudt, 2018-07-09 This book examines the antecedents and consequences of citizens confidence in different political institutions and authorities Its main argument states that a distinction between confidence in representative and regulative institutions and authorities is of crucial importance in order to gain novel insights into the relevance of political confidence for the viability of democratic systems Relying on individual level data from the European Social Survey ESS the author provides empirical evidence that citizens from a total of twenty one European countries make a distinction between confidence in representative institutions and authorities and confidence in regulative institutions and authorities Furthermore the author shows that both types of political confidence emanate from different sources and are associated with varying consequences Overall these findings indicate that confidence in representative and confidence in regulative institutions and authorities establish two qualitatively

different types of political confidence each with distinct implications for the functioning and well being of modern democracies     Voters' Choice Gerald M. Pomper,1975     **Citizens, Context, and Choice** Russell J. Dalton,Christopher J.
