existential and ontological truth through self understanding performed in a group setting Restoring agency to the RastaWoman Christensen argues that RastaWomen intimately in touch with this spiritual ethos challenged oppressive structures within the movement itself They skirted official restrictions speaking out in public and written forums whenever such avenues presented themselves and searched for their own truth through conscious intentional self examination characteristic of the Reasoning ritual With its powerful theoretically informed narrative Rastafari Reasoning and the RastaWoman Gender Constructions in the Shaping of Rastafari Liverty will appeal to students and scholars interested in religious transformation resistance movements gender issues critical race studies and the history and culture of the English speaking Caribbean

*Rastafari Women* Obiagele Lake, 1998 The subordination of Jamaican Rastafarian women represents a microcosm of women's subordination worldwide *Rastafari Women Subordination in the Midst of Liberation Theology* focuses on the Rastafarians who emerged in 1930 in response to the exploitation and disenfranchisement of African people in Jamaica Rastafarian cultural ideology includes the belief in the divinity of Haile Selassie and that the salvation of people of African descent lies in their repatriation to Africa Historically Rastas have played a leading role in raising racial and anti colonial consciousness in Jamaica Yet at the same time the subordination of women within their own ranks is a central aspect of their belief system *Rastafari Women* is the product of years of empirical research and conversations with Rastafarian women whose voices are prominent in this work

They speak on such issues as women's codes of dress and their secondary relationship to men. This book is dauntless in its exposition of Christian religious texts and African traditional practices and the ways in which they constitute the basis for the containment of women. In *Rastafari Women* Lake analyzes the subordination of Rastafarian women within the larger context of sexism, colonialism and racism in Jamaica, making this book an invaluable resource for any whose work involves the intersection of sex, race and class.

With chapters that range from the specific to the general, this volume will be important to specialists of Caribbean religion and the African diaspora and to those with a burgeoning interest in Rastafari. Contributors challenge existing scholarship on Rastafari. Volume offers both a general overview for the introductory student and sophisticated analysis for the specialist.
