Kelly, L. Harrison, 2009-08-28 In the UK in 2002 the celebrity chef Jamie Oliver set out to transform a group of unemployed young Londoners into enterprising passionate workers Their struggles and those that train and manage them to develop a passionate orientation to work highlights many of the challenges we all face in the globalized labour markets of the 21st century *Small Press Review*, 1995 **Hegemonic Masculinity** James W. Messerschmidt, 2018-04-09 The concept of hegemonic masculinity formulated by Raewyn Connell more than three decades ago has been the driving force behind the expanding field of masculinities studies *Hegemonic Masculinity Formulation Reformulation and Amplification* provides the first comprehensive overview of the concept from its original conception to how it has evolved over time The book also examines some of the most powerful ways the concept is being used in contemporary gender studies *Hegemonic Masculinity* describes the development of the concept the actual formulation and initial applications of the concept the eventual reformulation and subsequent applications of that reformulation and finally the amplification of the reformulated concept of hegemonic masculinity The book also includes a chapter theorizing why and how hegemonic masculinities are constructed and the concluding chapter chronicles the prospects for social change toward more egalitarian gender relations *Hegemonic Masculinity Formulation Reformulation and Amplification* brings together for the first time in one volume the history of the concept as well as a discussion and examination of some of the most important research accomplished on hegemonic masculinity over the last thirty years

Hegemonic Masculinities and Camouflaged Politics James W. Messerschmidt, 2015-12-03 Analyzing the speeches of the two Bush presidencies this book presents a new conceptualization of hegemonic masculinity by making the case for a multiplicity of hegemonic masculinities locally regionally and globally This book outlines how state leaders may appeal to particular hegemonic masculinities in their attempt to sell wars and thereby camouflage salient political practices in the process Messerschmidt offers a fresh historical perspective on the war against Iraq over an 18 year period and he argues that we cannot truly understand this war outside of its gendered masculine and historical context **N.
