Amelia Earhart

Amelia Earhart was a famous pilot who lived a long time ago. She was born on July 24, 1897, in Atchison, Kansas. When she was a young girl, she loved to play outside and explore. She was always curious about the world around her.

As Amelia grew up, she became fascinated by airplanes. In those days, airplanes were still very new, and not many people knew how to fly them. But Amelia was determined to learn. She worked hard and saved up her money to take flying lessons. Flying made her feel free, like a bird soaring through the sky.

In 1928, Amelia became the first woman to fly across the Atlantic Ocean as a passenger. This was a significant achievement because it had never been done before! People all over the world were amazed by her bravery and skill. After that, she became famous.

Amelia didn't stop there. She set many more records for flying. She was the first woman to fly solo across the Atlantic Ocean. She was also the first person to fly solo from Hawaii to California. She set records for flying at high altitudes and for long distances. Everywhere she went, people admired her courage and cheered for her.

Amelia wasn't just a pilot. She also wanted to inspire other women to follow their dreams. She encouraged girls to believe in themselves and to never give up, no matter what. She believed that anyone could achieve anything if they worked hard enough.

Amelia Earhart also wrote books about her flying experiences. She wanted to share her adventures with everyone and show that women could do incredible things. Her books were very popular, and they made her even more famous. Amelia also gave many speeches, where she talked about her flights and encouraged others to pursue their passions.

process and the impact on the fund performance Factors impacting on the performance differential are structural resulting from characteristics of the funds themselves operational such as the investment practices of the VC firms which manage the funds and environmental such as culture and attitude to risk and the wider ecosystem in which the funds operate These factors are set out clearly for the reader The characteristics of the better performing funds in Europe and the US are also investigated The book is aimed at academics who are researching venture capital fund performance and investment practices and also at practitioners advisors and policymakers who want to learn about best VC investment practices Whilst the book is focused on European and US VC investing the best practices are also pertinent for VC firms and funds setting up in other geographies particularly in emerging markets To this end best practice guidelines based on the research are included
