Red Vienna Experiment In Working Class Culture 1919 1934:

Red Vienna Helmut Gruber, 1991 From 1919 to 1934 the Socialist government in Vienna sought to create a comprehensive working class culture striving to provide a foretaste of the socialist utopia in the present In Red Vienna Gruber critically examines the impact of this experiment in all areas of life from massive public housing projects and health and education programs to socialist parades festivals and sporting events designed to create a new working class The Socialist program faced enormous obstacles arising from the exaggerated expectations of the socialist leaders and their conventional cultural vision from the resistance of workers and from the competition of commercial and mass culture Gruber then evaluates the limited and partial success of the Viennese model clearly the most comprehensive in the West and a democratic alternative to the Bolsheviks experiment in Soviet Russia to pose general questions about attempts to fashion culture from above

Engineered to Sell Jan L. Logemann, 2019-11-20 The mid twentieth century marketing world influenced nearly every aspect of American culture music literature politics economics consumerism race relations gender and more In Engineered to Sell Jan L Logemann traces the transnational careers of consumer engineers in advertising market research and commercial design who transformed capitalism from the 1930s through the 1960s He argues that the history of marketing consumer goods is not a story of American exceptionalism Instead the careers of immigrants point to the limits of the Americanization paradigm Logemann explains the rise of a dynamic world of goods and examines how and why consumer engineering was shaped by transatlantic exchanges From Austrian psychologists and little known social scientists to the illustrious Bauhaus artists the emigrants at the center of this story illustrate the vibrant cultural and commercial connections between metropolitan centers Vienna and New York Paris and Chicago Berlin and San Francisco By focusing on the transnational lives of emigrant consumer researchers marketers and designers Engineered to Sell details the processes of cultural translation and adaptation that mark both the midcentury transformation of American marketing and the subsequent European shift to American consumer capitalism

Creating German Communism, 1890-1990 Eric D. Weitz, 2021-04-13 Eric Weitz presents a social and political history of German communism from its beginnings at the end of

the nineteenth century to the collapse of the German Democratic Republic in 1990 In the first book in English or in German to explore this entire period Weitz describes the emergence of the Communist Party of Germany KPD against the background of Imperial and Weimar Germany and clearly explains how the legacy of these periods shaped the character of the GDR to the very end of its existence In Weimar Germany social democrats and Germany's old elites tried frantically to discipline a disordered society Their strategies drove communists out of the workplace and into the streets where the party gathered supporters in confrontations with the police fascist organizations and even socialists and employed workers In the streets the party forged a politics of display and spectacle which encouraged ideological pronouncements and harsh physical engagements rather than the mediation of practical political issues Male physical prowess came to be venerated as the ultimate revolutionary quality The KPD's gendered political culture then contributed to the intransigence that characterized the German Democratic Republic throughout its history The communist leaders of the GDR remained imprisoned in policies forged in the Weimar Republic and became tragically removed from the desires and interests of their own populace

find *Philosophers on Education* to be both an engaging and fascinating read **The Third Reich's Elite Schools** Helen Roche, 2021 *The Third Reich's Elite Schools* tells the story of the Nazis' Germany's most prominent training academies for the future elite. This deeply researched study gives an in-depth account of everyday life at the schools while also shedding fresh light on the political, social, and cultural history of the Nazi dictatorship **Paths out of the Apocalypse** Ota Konrád, Rudolf Kucera, 2022-05-09 *Paths out of the Apocalypse* uses violence as a prism through which to investigate the profound social, cultural, and political changes experienced by post-Habsburg Central Europe during and immediately after the Great War. It compares attitudes toward and experiences and practices of physical violence in the mostly Czech-speaking territories of Bohemia and Moravia, the German-speaking territories that would constitute the Republic of Austria after 1918, and the mostly German-speaking region of South Tyrol. Based on research in national and local archives and copious secondary literature, the study argues that in the context of total war, physical violence became a predominant means of conceptualizing and expressing social-political demands as well as a means of demarcating various notions of community and belonging. The authors apply an interdisciplinary understanding of violence informed by sociological and psychological theories as well as by rigorous empirical historiographical approach. First, they examine the most severe kind of physical violence: murder against the backdrop of shifting scientific and media discourses during the war and its immediate aftermath. Second, the authors use numerous cases of collective violence ranging from less serious everyday conflicts to massive hunger demonstrations and riots to unravel its language, thus deciphering the attitudes and values shared among an ever-growing group of perpetrators. *Paths out of the Apocalypse* thus fundamentally rethinks some key topics currently debated in the scholarship on early twentieth-century Central Europe: the First World War, violence, nationalism, and modern European comparative social and cultural history *European Modernism and the Information Society* W. Boyd Rayward, 2017-05-15 Uniting a team of international and interdisciplinary scholars, this volume considers the views of early twentieth-century European thinkers on the creation, dissemination, and management of publicly available information. Interdisciplinary in perspective, the volume reflects the nature of the thinkers discussed, including Otto Neurath, Patrick Geddes, the English Fabians, Paul Otlet, Wilhelm Ostwald, and H. G. Wells. The work also charts the interest since the latter part of the nineteenth century in finding new ways to think about and to manage the growing body of available information in order to achieve aims such as the advancement of Western civilization, the alleviation of inequalities across classes and countries, and the promotion of peaceful coexistence between nations. In doing so, the contributors provide a novel historical context for assessing widely held assumptions about today's globalized post-modern information society. This volume will interest all who are curious about the creation of a modern networked information society *Listening In* Susan J. Douglas, 2013-11-30 Few inventions evoke such nostalgia, such deeply personal and vivid memories as radio. From Amos 'n' Andy and Edward R. Murrow to Wolfman Jack and Howard Stern, *Listening In* is the first in-depth history of how radio culture and content have kneaded and expanded

the American psyche But *Listening In* is more than a history It is also a reconsideration of what listening to radio has done to American culture in the twentieth century and how it has brought a completely new auditory dimension to our lives Susan Douglas explores how listening has altered our day to day experiences and our own generational identities cultivating different modes of listening in different eras how radio has shaped our views of race gender roles ethnic barriers family dynamics leadership and the generation gap With her trademark wit Douglas has created an eminently readable cultural history of radio

[Socialism before Sanders](#) Jake Altman, 2019-06-13 The early years of the twentieth century are often thought of as socialism's first heyday in the United States when the Socialist Party won elections across the country and Eugene Debs ran for president from a prison cell winning more than 900 000 votes Less well known is the socialist revival of the 1930s Radicalized by the contradiction of crushing poverty and unimaginable wealth that existed side by side during the Great Depression socialists built institutions organized the unemployed extended aid to the labor movement developed local political movements and built networks that would remain active in the struggle against injustice throughout the twentieth century Jake Altman brings this overlooked moment in the history of the American left into focus highlighting the leadership of women the development of the Highlander Folk School and Soviet House and the shift from revolutionary rhetoric to pragmatic reform by the close of the decade As another socialist revival takes shape today this book lays the groundwork for a more nuanced history of the movement in the United States

[A History of Austrian Literature 1918-2000](#) Katrin Maria Kohl, Anne Fuchs, Florian Krobb, Ritchie Robertson, 2006 New essays examine 20th c Austrian literature in relation to history politics and popular culture 20th century Austrian literature boasts many outstanding writers Schnitzler Musil Rilke Kraus Celan Canetti Bernhard Jelinek These and others feature in broader accounts of German literature but it is desirable to see how the Austrian literary scene and Austrian society itself shaped their writing This volume thus surveys Austrian writers of drama prose fiction and lyric poetry relates them to the distinctive history of modern Austria a democratic republic that was overtaken by civil war and authoritarian rule absorbed into Nazi Germany and re established as a neutral

state and examines their response to controversial events such as the collusion with Nazism the Waldheim affair and the rise of Haider and the extreme right In addition to confronting controversy in the relations between literature history and politics the volume examines popular culture in line with current trends Contributors Judith Beniston Janet Stewart Andrew Barker Murray Hall Anthony Bushell Dagmar Lorenz Juliane Vogel Jonathan Long Joseph McVeigh Allyson Fiddler Katrin Kohl is Lecturer in German and a Fellow of Jesus College and Ritchie Robertson is Taylor Professor of German Language and Literature and a Fellow of The Queen's College both at the University of Oxford

Austria 1867-1955 John W. Boyer, 2022 Austria 1867 1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social Democracy in Vienna in the 1890s The war crisis of 1914 1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legacies of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance
