to Duck Dynasty Eleanor Hersey Nickel,2021-05-13 Christian popular culture has tremendous influence on many American

churchgoers When we have a choice between studying the Bible and reading novels downloading movies or watching television we become less familiar with Numbers than with Narnia This book examines popular Christian narratives with rigorous scholarly methods and assumes that they are just as complex fascinating and worthy of investigation as the latest secular Netflix series or dystopian novel While most scholars focus on the religious aspects of Christian texts this study takes a new approach by analyzing their social responsibility in portraying the complex dynamics of race class and gender in a profoundly unequal America Close readings of six case studies The Chronicles of Narnia Francine Rivers's Redeeming Love Jan Karon's Mitford novels Left Behind the films of the Sherwood Baptist Church and Duck Dynasty uncover both harmful stereotypes and Christians serving as leaders in social justice

The

Word is Worth a Thousand Pictures Gregory Edward Reynolds, 2001-04-20 **Religion and Popular Culture in America**

Bruce David Forbes, Jeffrey H. Mahan, 2005-11-17 The connection between American popular culture and religion is the subject of this multifaceted and innovative collection In fourteen lively essays whose topics range from the divine feminine in *The Da Vinci Code* to Madonna's *Like a Prayer* and from the world of sports to the ways in which cyberculture has influenced traditional religions this book offers fascinating insights into what popular culture reveals about the nature of American religion today Revised throughout this new edition features three new essays including a fascinating look at the role of women in apocalyptic fiction such as the *Left Behind* series and editor Bruce David Forbes has written a new introduction In addition to the new textual material each chapter concludes with a set of suggested discussion questions **Trajectory of**

the 21st Century Lawrence J. Terlizzone, 2009-01-10 *Trajectory of the Twenty first Century* explores what many prophets of the twentieth century such as Oswald Spengler Paul Tillich Aldous Huxley Jacques Ellul and others have predicted would transpire in the current century Their vision included an out of control technological system and a return to religious sentiment that will ultimately undermine the system to which it is reacting This book aims to accurately present their positions and draw certain logical conclusions from them that pertain to the course of history in our time The book's theme argues that modernity is a secularized version of millennial Christianity which reaches its fullest development in the twenty first century and will regress into what Russian philosopher Nicholas Berdyaev called the new Middle Ages or a new religious period This will mean the twilight of modern technological society as its values of rationalism give way to a post-rationalist society Ironically decline will come through further technological advance Omnicide threatens through religious world war driven by transcendent values and modern weaponry Jihadist thinking and posthumanist technology both establish the omnicidal mentality New technologies such as genetic engineering and artificial intelligence created under millennial inspiration to reach for immortality could potentially bring an end to the human species either through a slow steady obsolescence or through environmental catastrophe The titanic forces of technological progress and regress are on a direct collision course in the twenty first century **Religion as Entertainment**

Charles Kevin Robertson, 2002 Theologians and academics in the history of religion clinical psychology English and speech are the contributors to this collection of 14 essays on American religion The papers consider religion as entertainment and the treatment of religion in American entertainment The topics include the changing role of the laity in liturgical churches preaching as entertainment according to the Fathers of the Church televangelism the Toronto Blessing Oprah's Book Club as a secular canon treatment of religion in popular television science fiction programs and the depiction of spirituality on prime time shows Annotation copyrighted by Book News Inc Portland OR **Televised Morality**

Gregory Stevenson, 2003 The increasing frequency of moralist critiques of television shows is an acknowledgment of television's growing role in the shaping of a culture's moral values Yet many moralist critiques misconstrue the full moral message of a show due to a restrictive focus on sex violence and profanity

Televised Morality explores the nature of moral discourse on television by using Buffy the Vampire Slayer as a case study. Buffy the Vampire Slayer has simultaneously been heralded as one of the most morally sophisticated shows on television and one of the most morally corrupt. The program offers a fascinating look into the divergent issues involved in the moral evaluation of television today. Stevenson argues that analysis of this show's moral vision, its methods of moral reasoning, and its narrative function reveal the complexity of moral discourse on television and provides a good model for the moral critique of other television shows.

Communication and Change in American Religious History Leonard I. Sweet, 1993.
