Committee on the Budget, **Housing and Planning References** ,1980 *The Rise and Fall of Neoliberal Capitalism* David M. Kotz,2017 The financial and economic collapse that began in the United States in 2008 and spread to the rest of the world continues to burden the global economy David Kotz who was one of the few academic economists to predict it argues that the ongoing economic crisis is not simply the aftermath of financial panic and an unusually severe recession but instead is a structural crisis of neoliberal or free market capitalism Consequently continuing stagnation cannot be resolved by policy measures alone It requires major institutional restructuring Kotz s book will reward careful study by everyone interested in the question of stages in the history of capitalism Edwin Dickens Science Society Whereas others suggest that the downfall of the postwar system in Europe and the United States is the result of the triumph of ideas Kotz argues persuasively that it is actually the result of the exercise of power by those who benefit from the capitalist economic organization of society The analysis and evidence he brings to bear in support of the role of power exercised by business and political leaders is a most valuable aspect of this book one among many important contributions to our knowledge that makes it worthwhile Michael Meeropol Challenge *Finance And Third World Economic Growth* John Edwards,2019-04-24 I would like to thank the business and education leaders who served on the CED Subcommittee on Finance and Third World Economic Growth for their diligent work and practical contributions In particular I would like to thank Subcommittee Chairman James W McKee chairman of the executive committee of CPC International Inc whose leadership insight and interest in these issues guided the subcommittee through to publication of the policy statement I would also like to acknowledge the outstanding work of Professor Isaiah Frank of the School of Advanced International Studies at Johns Hopkins University who served as project director His knowledge in this field and expertise in drafting the statement clarified many complex issues Thanks also go to Research Assistant Patricia Pollard of Johns Hopkins University who was of valuable assistance to Dr Frank in compiling the necessary research William Regulatory Reform United States. Congress. House. Committee on the Budget,1980      **Myth of Liberal Ascendancy** G. Williams Domhoff,2015-11-17 Based on new archival research G Williams Domhoff challenges popular conceptions of the 1930 s New Deal Arguing instead that this period was one of increasing corporate dominance in government affairs affecting the fate of American workers up to the present day While FDR s New Deal brought sweeping legislation the tide turned quickly after 1938 From that year onward nearly every major new economic law passed by Congress showed the mark of corporate dominance Domhoff accessibly portrays documents of the Committee s vital influence in the halls of government supported by his interviews with several of its key employees and trustees Domhoff concludes that in terms of economic influence liberalism was on a long steady decline despite two decades of post war growing equality and that ironically it was the successes of the civil rights feminist environmental and gay lesbian movements not a new corporate mobilisation that led to the final defeat of the liberal labour alliance after 1968
