support for some aspects of social citizenship diminished more significantly under some political regimes than others and that limited public resistance following the financial crisis of 2008 2009 further suggests the public rolled over and accepted these neoliberal values Yet attitudinal variances across different policy areas challenge the idea of an omnipotent neoliberalism providing food for thought for academics students and advocates wishing to galvanise support for social citizenship in the 21st century

Indigenous Spiritualities at Work Chellie Spiller, Rachel Wolfgramm, 2015-06-01 Are you intrigued by ancient wisdom traditions? Do you ever wonder if they have any relevance in today's world? How do Indigenous ways of being and doing balance wealth creation and well being? How might Indigenous peoples define success? What are Indigenous spiritualities? How is Spirituality manifested in Indigenous organizations today? These questions have intrigued us for many years. As a consequence we invited scholars from around the world to contribute to a ground breaking book *Indigenous spiritualities at work: transforming the spirit of business enterprise* to explore these questions from different worldviews. A key focus of this book is how Indigenous spiritual approaches revitalize identities and relationships within the workplace. However the notion of workplace is not narrow as it includes communities of engagement and practice in ecologies of creativity and enterprise in the broadest sense. This enables Indigenous spiritualities at work to be explored from diverse perspectives, disciplines, cultures and sectors. In particular the authentic voices of authors in this book enriches our understandings, offers points of enlightenment and amplifies spiritual traditions of Indigenous peoples in a way that honours traditions of the past, present and future. The contributions build bridges between scholarly work and practice. They include empirical studies of Spirituality, mindfulness, presence and authenticity. A diverse range of research methodologies, impact studies and examples of development programs are offered alongside artistic works, photographic essays, stories and poetry.
