America's best interests and security With the fate of the world in the balance liberals should leave the defense of the nation to conservatives Reexamining the sixty year history of the Cold War and beyond including the career of Senator Joseph McCarthy the Whittaker Chambers Alger Hiss affair Ronald Reagan's challenge to Mikhail Gorbachev to tear down this wall the Gulf War and our present war on terrorism Coulter reveals how liberals have been horribly wrong in all their political analyses and policy prescriptions McCarthy exonerated by the Venona Papers if not before was basically right about Soviet agents working for the U S government Hiss turned out to be a high ranking Soviet spy who consulted Roosevelt at Yalta Reagan ridiculed throughout his presidency ended up winning the Cold War And George W Bush also an object of ridicule has performed exceptionally in responding to America's newest threats at home and abroad Coulter who in Slander exposed a liberal bias in today's media also examines how history especially in the latter half of the twentieth century has been written by liberals and therefore distorted by their perspective Far from being irrelevant today her clearheaded and piercing view of what we ve been through informs us perfectly for challenges today and in the future With Slander Ann Coulter became the most recognized and talked about conservative intellectual of the year Treason in many ways an even more controversial and prescient book will ignite impassioned political debate at one of the most crucial moments in our history
