autonomy Doumani rediscovers Palestine by writing the inhabitants of this ancient land into history **The Fragmentation of Palestine** Joshua Rickard, 2022-02-24 This book examines processes of fragmentation that have altered the social dynamics of Palestinian society since the second intifada With a specific focus on the city of Nablus and its outer laying areas the book details the extraordinarily personal experience of isolation namely the physical division of communities through long term military siege and the ways that communities have adapted to get by despite frequently changing restrictions Joshua Rickard shows various forms of isolation and social fragmentation combined with the uncertainty of everyday life that have come to characterise the existential experience of being Palestinian More relevant than how the conditions of fragmentation have occurred is what isolation and uncertainty mean to communities that are severed from those surrounding them Finally this book examines the possibility for a reformation of social organisation that transcends traditional political discourses which can be seen emerging from Palestinian communities *Palestine and the Decline of the Ottoman Empire* Farid Al-Salim, 2015-04-07 During the final decades of Ottoman rule Palestine was administratively divided into two states Jerusalem and Beirut Both provinces exhibited a strikingly cohesive history of modernisation and as the Ottoman Empire began to recede the education systems taxation and bureaucracy which were left behind formed the foundation of administration in the Palestinian authority today The reign of Sultan Abdulmecid I saw great changes in Palestine in line with the Tanzimat reform programme These changes included the monetisation of the economy structural changes in land ownership legal reform moves towards Ottoman centralisation and the first European immigration to the area Education was expanded to the lower classes and Arab and Palestinian nationalism and Islamic movements began to stir by the end of the century as the first Zionist settlers arrived At the heart of these radical shifts in thought and infrastructure were the new administrative centres established by the Ottomans during this period of re organisation Drawing extensively on official Ottoman records Farid Al Salim charts the transformation of one such centre Tulkarm from a small village in central Palestine to a seat of administrative reform in order to provide a new account of the forces behind the formation of modern Palestine **The Modern Middle East** Ilan Pappé, 2013-09-13 This hugely successful ground breaking book is the first introductory textbook on the Modern Middle East to foreground the urban rural cultural and women s histories of the region over its political and economic history Ilan Papp begins his narrative at the end of the First World War with the Ottoman heritage and concludes at the present day with the political discourse of Islam Providing full geographical coverage of the region The Modern Middle East opens with a carefully argued introduction which outlines the methodology used in the textbook provides a thematic and comparative approach to the region helping students to see the peoples of the Middle East and the developments that affect their lives as part of a larger world includes insights gained from new historiographical trends and a critical approach to conventional state and nation centred historiographies includes case studies debates maps photos an up to date bibliography and a glossarial index This second edition has been brought right up to date with recent

Lorca-Susino,2016-07-07 The European Union EU and the Eurozone became the economic integration example to follow for years However the worldwide economic crisis that unfolded in 2007 put the whole economic integration process in question the European project in jeopardy and the euro under pressure with serious doubts that it can survive its first crisis The core argument of this book is twofold First it seeks to explain the difficult political economic and fiscal idiosyncrasies of all member states in order to put the reasons for the economic crisis into a new and clear perspective Second it argues that the institutional response put forward to explain this tremendous crisis is flawed and dangerous because it does not solve the main underlying problem the deep differences among member states on their understanding of economic and financial behavior This study counters the leading institutional explanation for the economic crisis that has impacted the entire EU It presents a unique and provocative explanation of why the EU and the Eurozone are still immersed in an economic crisis and will be of key interest to students and scholars of European Politics and Economics **Understanding and Teaching the**

family made in the past Using specific case studies based on original archival research and fieldwork the contributors focus on the interplay between micro and macro processes of change and bridge the gap between materialist and discursive frameworks of analysis They reveal the flexibility and dynamism of family life and show the complex juxtaposition of different rhythms of time individual time family time historical time These findings interface directly with and demonstrate the need for a critical reassessment of current debates on gender modernity and Islam

The Politics and Practices of Cultural Heritage in the Middle East Irene Maffi, 2014-04-21 During the nineteenth century cultural heritage became a dominant feature of the political ideology of the European states and of their colonies It became a new form of legitimization for the rising nation state cementing its inextricable link with that nation's politics and practices The set of concepts and practices defining cultural heritage were exported to and imposed over the colonized populations in North Africa and the Near East The legacy of the colonial period has proven very significant in the domain of cultural heritage which has become a crucial cultural arena in many Arab states As in the majorities of post colonial states in the Arab world the inherited paradigm of cultural heritage has been subject to various forms of adaption and re elaboration that have made it a lively and complex space of negotiations between various actors Thus in *The Politics of Cultural Heritage in the Middle East* Irene Maffi and Rami Daher draw together expert scholars to unravel these complex processes that are involved in the definition production and consumption of heritage and its material culture in the Middle East and the dynamics of the key actors involved The variety of the cases analysed that cover the region from Morocco to Lebanon as well as the multiplicity of the actors concerned such as the state post colonial or colonial international organizations municipal councils local communities families and even exceptional personalities highlights and explores the complex processes where very local and specific dynamics intertwine with transnational economic political and cultural fluxes In its examination of the workings of cultural heritage in the Middle East this book is an important resource for students and scholars of Middle East Studies Cultural History History of Art and Architecture and for stakeholders involved in the field of cultural heritage

The Proper Order of Things Heather L. Ferguson,2018-06-12 The natural order of the state was an early modern mania for the Ottoman Empire In a time of profound and pervasive imperial transformation the ideals of stability proper order and social harmony were integral to the legitimization of Ottoman power And as Ottoman territory grew so too did its network of written texts a web of sultanic edicts aimed at defining and supplementing imperial authority in the empire s disparate provinces With this book Heather L Ferguson studies how this textual empire created a unique vision of Ottoman legal and social order and how the Ottoman ruling elite via sword and pen articulated a claim to universal sovereignty that subverted internal challengers and external rivals The Proper Order of Things offers the story of an empire at once familiar and strange told through the shifting written vocabularies of power deployed by the Ottomans in their quest to thrive within a competitive early modern environment Ferguson transcends the question of what these documents said revealing instead how their formulation of the proper order of things configured the state itself Through this textual authority she argues Ottoman writers ensured the durability of their empire creating the principles of organization on which Ottoman statecraft and authority came to rest

Remapping the Ottoman Middle East Cem Emrence,2015-12-18 As a result of the formation of the modern Turkish state nationalist narratives of the Ottoman Empire s collapse are commonplace Remapping the Ottoman Middle East on the other hand examines alternative and disparate routes to modernity during the nineteenth century Pursuing a comparison of different regions of the empire this book demonstrates that the Ottoman imperial universe was shaped by three distinct and simultaneous narratives market relations in its coastal areas imperial bureaucracy in the cities of central Anatolia Syria and Palestine and Islamic trust networks in the frontier regions of the Arabian Peninsula In weaving together these localized developments Cem Emrence departs from narratives of state centralism and suggests that a comprehensive way of understanding the late Ottoman world and its legacy should start from exploring regionally constituted and network based historical trajectories Introducing a persuasive new model for understanding the late Ottoman world this book will be essential reading for historians of the Ottoman Empire

Words and Stones Daniel Lefkowitz, 2004-07-22 Social and ethnic identity are nowhere more enmeshed with language than in Israel Words and Stones explores the politics of identity in Israel through an analysis of the social life of language By examining the social choices Israelis make when they speak and the social meanings such choices produce Daniel Lefkowitz reveals how Israeli identities are negotiated through language Lefkowitz studies three major languages and their role in the social lives of Israelis Hebrew the dominant language Arabic and English He reveals their complex interrelationship by showing how the language a speaker chooses to use is as important as the language they choose not to use in the same way that a claim to an Israeli identity is simultaneously a claim against other opposing identities The result is a compelling analysis of how the identity of Israeliness is linguistically negotiated in the three way struggle among Ashkenazi Jewish Mizrahi Jewish and Palestinian Arab Israelis Lefkowitz's ethnography of language use is both thoroughly anthropological and thoroughly linguistic and provides a comprehensive view of the role language plays in Israeli society His work will appeal to students and scholars of sociolinguistics anthropology and linguistic anthropology as well as students and scholars of Israel and the Middle East

Bedouin Bureaucrats Nora Barakat, 2023-04-25 In the late nineteenth century the Ottoman government sought to fill landscapes they legally defined as empty Both land and people were incorporated into territorially bounded grids of administrative law Bedouin Bureaucrats examines how tent dwelling seasonally migrating Bedouin engaged in these processes of Ottoman state transformation on local imperial and global scales As the tribe became a category of Ottoman administration Bedouin in the Syrian interior used this category both to gain political influence and to organize community resistance to maintain control over land Narrating the lives of Bedouin individuals involved in Ottoman administration Nora Elizabeth Barakat brings this population to the center of modern state making from their involvement in the pilgrimage administration in the eighteenth century and their performance of land registration and taxation as the Ottoman bureaucracy expanded in the nineteenth to their eventual rejection of Ottoman attempts to reallocate the empty land they inhabited in the twentieth She places the Syrian interior in a global context of imperial expansion into regions formerly deemed marginal especially in relation to American and Russian empires Ultimately the book illuminates Ottoman state formation attempts within Bedouin communities and the unique trajectory of Bedouin in Syria who maintained their control over land
