Rediscovering Our Past Ebays On The History Of American Archaeology:

Rediscovering Our Past Jonathan E. Reyman,1992 This collection of essays examines the history of American archaeology in terms of some of the major figures and internal and external forces that shaped its development The importance of using the vast array of unpublished materials in writing the history of archaeology is stressed as is the need for examining more closely the important contributions of women particularly in the period up to and immediately after World War II Finally the role of institutions in the development of American archaeology is also examined both for their progressive and regressive attributes The New York Times Index ,2003 **Wall Street Journal Index** ,1999 A History of American Archaeology Gordon Randolph Willey,Jeremy A. Sabloff,1974 **Ancient America, in Notes on American Archaeology** John D. Baldwin,2015-02-12 The purpose of this volume is to give a summary of what is known of American Antiquities with some thoughts and suggestions relative to their significance It aims at nothing more No similar work I believe has been published in English or in any other language What is known of American Archeology is recorded in a great many volumes English French Spanish and German each work being confined to some particular department of the subject or containing only an intelligent traveler s brief sketches of what he saw as he went through some of the districts where the old ruins are found **American Archaeology, Past and Future** David J. Meltzer,Don D. Fowler,Jeremy A. Sabloff,Society for American Archaeology,1986 Digging for Dollars Paul Fagette,1996 This study investigates the institutional evolution of American archaeology during the 1930s Its primary focus is the process by which archaeologists created a modern professional science through government especially at the federal level Ancient America, in Notes on American Archaeology Baldwin John D. archaeology to focus on the history of the discipline This volume grew out of the second symposium presented at the 1998 meeting of the Society for American Archaeology Interest in the intellectual history of the field is certainly nothing new the first such volume appeared in 1856 but previously focus has been on individuals and their theories and methods or on various government agencies that supported developed or mandated excavations in North America This volume however focuses on the roots of Americanist archaeology including its pre 1915 European connections and on some of the earliest work by women archaeologists which has been largely overlooked Full of valuable insights for archaeologists and anthropologists both professional and amateur into the history and development of Americanist archaeology New Perspectives will also inspire and serve as a model for future research David Browman is Professor of Anthropology and Chair of the Interdisciplinary Program in Archaeology at Washington University Stephen Williams is Professor Emeritus of Anthropology at Harvard University
