Health and Poverty Gijs Walraven, 2013-10-18 Provides examples of diseases and problems related to health that disproportionately impact the poor and gives their experiences a human face

through individual case studies Walraven provides a specific case study of a health problem such as malaria tuberculosis and HIV or health financing including an introduction in each chapter followed by an historical review of the problem From publisher description Reforming China's Rural Health System ,2009-01-01 Since 1978 when it embarked on sweeping agricultural and industrial reforms China's economic growth has been remarkable Its success in transforming itself within just three decades from a very poor low income country to a successful middle income country is unparalleled During this period however and in contrast to the first 30 years of the People's Republic progress in the health sector has been disappointing For example during the period 1980-2007 China increased its income per head as a percentage of the OECD average from 3 percent to 15 per cent but infant mortality fell no faster Missing the Mark? Women and the Millennium Development Goals in Africa and Oceania Naomi M. McPherson,2016-04-01 In the year 2000 United Nations world leaders set out eight targets the UN Millennium Development Goals for achieving improved standards of living at the micro level in poorer nations around the globe by the year 2015 The papers in this collection present fine detailed ethnographic studies of cultures in Africa and Oceania with a focus primarily on MDG 3 targeted to promote gender equality and empower women and MDG 5 targeted to improve maternal health to ascertain whether or not these goals have made or missed their mark Ethnographic case studies located in Solomon Islands Marshall Islands Federated States of Micronesia Papua New Guinea Vanuatu Ghana Malawi Cameroon and South Ethiopia show that women in these cultures regardless of nation state face the same issues or problems lack of empowerment gender inequities and inadequate access to cultural or state resources to realize good health in general and good maternal and reproductive health in particular *Health and Human Rights in a Changing World* Michael Grodin, Daniel Tarantola, George Annas, Sofia Gruskin,2013-07-04 *Health and Human Rights in a Changing World* is a comprehensive and contemporary collection of readings and original material examining health and human rights from a global perspective Editors Grodin Tarantola Annas and Gruskin are well known for their previous two volumes published by Routledge on this increasingly important subject to the global community The editors have contextualized each of the five sections with foundational essays each reading concludes with discussion topics questions and suggested readings This book also includes Points of View sections originally written perspectives by important authors in the field Section I is a Health and Human Rights Overview that lays out the essential knowledge base and provides the foundation for the following sections Section II brings in notions of concepts methods and governance framing the application of health and human rights in particular the Human Rights based Approaches to Health Section III sheds light on issues of heightened vulnerability and special protection stressing that the health and human rights record of any nation any community is determined by what is being done and not done about those who are most in need Section IV focuses on addressing system failures where health and human rights issues have been documented recognized even at times proclaimed as priorities and yet insufficiently attended to as a result of State denial unwillingness or incapacity Section V

examines the relevance of the health and human rights paradigm to a changing world underscoring contemporary global challenges and responses Finally a Concluding Note brings together the key themes of this set of articles and attempts to project a vision of the future

An Introduction to Global Health Michael Seear,Obidimma Ezezika,2017-12-18 Newly revised and thoroughly updated the third edition of An Introduction to Global Health is constructed around three essential questions why is population health so poor in developing countries what is the scope of the issue and how can it be remediated By considering aspects of the topic that are often neglected including

poverty malnutrition wars governance and humanitarian disasters Seear and Ezezika provide a comprehensive overview of the various determinants of global health and its inevitable companion the modern aid industry This informative and accessible introduction examines potential solutions to health inequity via a combination of primary health care strategies poverty alleviation developing world debt relief and human rights interventions With an updated discussion of global health in relation to the Sustainable Development Goals as well as the addition of chapter summaries critical thinking questions and recommended readings this new edition is an ideal resource for both university level students and anyone keen to inform themselves on this urgent problem

Who's Got the Power? Lynn P. Freedman, UN Millennium Project, 2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company

UN Millennium Development Library: Who's Got the Power UN Millennium Project, 2013-06-17 The Millennium Development Goals adopted at the UN Millennium Summit in 2000 are the world's targets for dramatically reducing extreme poverty in its many dimensions by 2015 income poverty hunger disease exclusion lack of infrastructure and shelter while promoting gender equality education health and environmental sustainability These bold goals can be met in all parts of the world if nations follow through on their commitments to work together to meet them Achieving the Millennium Development Goals offers the prospect of a more secure just and prosperous world for all The UN Millennium Project was commissioned by United Nations Secretary General Kofi Annan to develop a practical plan of action to meet the Millennium Development Goals As an independent advisory body directed by Professor Jeffrey D Sachs the UN Millennium Project submitted its recommendations to the UN Secretary General in January 2005 The core of the UN Millennium Project's work has been carried out by 10 thematic Task Forces comprising more than 250 experts from around the world including scientists development practitioners parliamentarians policymakers and representatives from civil society UN agencies the World Bank the IMF and the private sector This report lays out the recommendations of the UN Millennium Project Task Force on Child and Maternal Health The Task Force recommends the rapid and equitable scale up of interventions like the Integrated Management of Childhood Illness the universal provision of emergency obstetric care and sexual and reproductive health services and rights be provided through strengthened health systems This will require that health systems be seen as social institutions to which all members of society have a fundamental right This bold yet practical approach will enable every country to reduce the under five mortality rate by two thirds and the maternal mortality rate by three quarters by 2015

Sexual and Reproductive Health of Women Pradip Chouhan, Avijit Roy, Nanigopal Kapasia, Jayanta Das, Margubur Rahaman, 2025-01-31 The book offers readers a nuanced understanding of sexual and reproductive rights health status associated concerns and policy critiques within the context of South Asia While sexual and reproductive health issues are prevalent worldwide the severity and underlying drivers vary across regions South Asia identified as a hotspot for vulnerability in sexual and reproductive health currently lacks comprehensive coverage of existing global perspectives on the subject Intended as a comprehensive guide to

understanding the sexual and reproductive health complexities reproductive morbidity and multifaceted health policies of women in South Asia this book will examine menstrual health as well as changing fertility behaviours among women It will provide in depth case studies on demand family planning birth control and pressing issues of women s health perspectives The book highlights the wide range of sexual and reproductive health morbidities including maternal health complications eclamptic maternal death sexually transmitted diseases infected diseases and health disparity among reproductive women Adopting advanced quantitative techniques in the social sciences and GIS modeling this book offers a unique and insightful look at women s reproductive health and its implications for shaping health policies Transcultural Caring Dynamics in Nursing and Health Care Marilyn A. Ray,2018-08-10 How do you perceive your cultural identity All of us are shaped by the cultures we interact with and the cultural backgrounds and ethnicities that are part of our heritage Take a dynamic approach to the study of culture and health care relationships Dr Marilyn A Ray shows us how cultures influence one another through inter cultural relationships technology globalization and mass communication and how these influences directly shape our cultural identities in today s world She integrates theory practice and evidence of transcultural caring to show you how to apply transcultural awareness to your clinical decision making Go beyond common stereotypes using a framework that can positively impact the nurse patient relationship and the decision making process You ll learn how to deliver culturally competent care through the selection and application of transcultural assessment planning and negotiation tools for interventions **Developing Country Perspectives on Public Service Delivery** Anjula Gurtoo,Colin Williams,2015-05-26 The book examines the status of public service in developing countries in the sectors of health infrastructure labour and marginalized populations rural economy and public administration The last decade has witnessed significant government focus on service delivery in developing nations like South Africa Philippines India and Malaysia At the forefront of this movement has been the public sector reforms significantly driven by two broad factors public sector inefficiencies and liberal economic ideology This move towards efficient public service delivery in developing nations versus developed nations has required a significant shift in institutional thinking and institutional capacity for the governments It is therefore no surprise that while economic liberalization has been relatively easy to implement governance reforms towards public service delivery has been significantly more challenging In this background the chapters of the book with sector themes examine the three basic foundations of public policy courses of action regulatory measures and issues and funding structures and priorities in public service delivery The book is a multi country multi sector perspective since it includes studies from Russian Federation India Ethiopia Pakistan Fiji South Africa Columbia Philippines Macedonia and India This perspective lends itself to the investigation for a comprehensive overall development model **In the Public Interest** Bethan Emmett,2006 This report shows that building public services in developing countries is at the heart of making poverty history **Yes, Africa Can** Punam Chuhan-Pole,Manka Angwafo,2011-06-24 Takes an in depth look at twenty six economic and social development

successes in Sub Saharan African countries and addresses how these countries have overcome major developmental challenges **Healthy Partnerships** ,2011 Since the private health sector is an important and often dominant provider of health services in Sub Saharan Africa it is the job of governments as the stewards of the health system to engage with it Increasing the contributions that the existing private health sector is making to public health is an important but often neglected element of meeting the daunting health related challenges facing African nations This Report presents newly collected data on how and how effectively each country in the Africa region is engaging the respective private health sectors and how the engagement compares across the region While the approach taken by governments varies greatly between countries there is much room for improvement in the Africa region overall to engage more effectively and room for exchange of ideas and good practices on how to do so Improved solutions on the policy regulatory side should be supported by effective organization of the private sector itself and by adjustments in donor programs that take the dynamics of the private health sector better into account
