Ciottone, 2023-03-07 While medical specialists in disaster mitigation preparedness and response are needed worldwide the initial phase of disaster response is almost entirely dependent upon local resources making it essential that all

healthcare personnel have a working knowledge of the field and stand ready to integrate into the response system Ciottone's Disaster Medicine 3rd Edition is the most comprehensive reference available to help accomplish these goals in every community. It thoroughly covers isolated domestic events as well as global disasters and humanitarian crises. Dr. Gregory Ciottone and more than 200 worldwide authorities share their knowledge and expertise on the preparation, assessment, and management of both natural and man-made disasters, including lessons learned by the responders to contemporary disasters such as the COVID-19 pandemic, Australian and western U.S. wildfires, European heatwaves, the Beirut explosion, recent hurricanes and typhoons, and the global refugee crisis. Part 1 offers an A to Z resource for every aspect of disaster medicine and management, while Part 2 features an exhaustive compilation of every conceivable disaster event organized to facilitate quick reference in a real-time setting. Covers basic concepts such as identification of risks, organizational preparedness, equipment, planning, disaster education and training, and more advanced concepts such as disaster risk reduction, health in complex emergencies, building local disaster resiliency, psychological impact of disasters on children, and more. Contains new decision trees throughout that help guide you through the decision-making process in difficult situations. Uses an easy-to-follow templated approach to historical perspectives, overviews of current practice, including pre-incident and post-incident actions, medical treatment of casualties, and potential pitfalls. Includes updated sections on man-made disasters, including mass casualties, active shooter situations, integrated response to terrorist attacks, and chemical, biological, radiological, nuclear, high-yield explosives disasters. Discusses the latest technologies, such as the use of mobile disaster applications, drone response systems, and virtual reality simulation training. Features thoroughly updated information on crisis leadership, practical applications of disaster epidemiology, disaster and climate change, and the integration of non-government agencies. NGOs in disaster response, a critical topic for those responding to humanitarian needs overseas. Includes new chapters on Pandemic Preparedness and Response, Disaster Medicine in a Changing Climate, Disaster Response in Asia, Building Local Capacity, and Disaster Resiliency. Civilian-Military Coordination in Disaster Response, Medical Simulation in Disaster Preparedness, Disaster Nursing, Crisis Management, Leadership, Palliative Care in Disasters, Counter-Terrorism Medicine, SARS-CoV, COVID-19, and SARS, and Disasters in Space Travel. An eBook version is included with purchase. The eBook allows you to access all of the text, figures, and references, with the ability to search, customize your content, make notes and highlights, and have content read aloud.

Proceedings of the Forum on Risk Management and Assessments on Natural Hazards, 2001
International Disaster Response Law Andrea de Guttery, Marco Gestri, Gabriella Venturini, 2012-08-31 With a Foreword by Kristalina Georgieva, European Commissioner for International Cooperation, Humanitarian Aid and Crisis Response. Over the last decades, natural and man-made disasters have been increasing in terms of frequency, size, number of people affected, and material damage caused. There is growing awareness of the importance of adequate national and international legal frameworks for disaster prevention, mitigation, and response. The implementation of these frameworks

however poses serious challenges This book analyses International Disaster Response Law as developed in recent times and identifies the main existing normative gaps The authors address the rights and duties of States in preventing and mitigating disasters in facilitating access to their territory for humanitarian relief actors as well as issues related to liability and compensation Due attention is paid to European Union law governing disaster response and to its reform in the light of the Lisbon Treaty and to the main trends in domestic legislation Human rights obligations are thoroughly examined and the potential relevance of international criminal law is assessed Additional topics such as the status of relief personnel the hindrances to the delivery of relief consignments by customs and excise administration the use of civilian and military defence assets in emergency situations the mechanisms and procedures available to offer financial support for recovery and rehabilitation risk insurance and the issue of corruption during disaster related activities are specifically addressed By drawing on the expertise of lawyers political scientists economists and humanitarian practitioners the book promotes much needed interdisciplinary dialog and sheds light on a largely uncharted field of research It is therefore essential reading for academics and practitioners in international and EU law policy makers civil protection and humanitarian operators and for anyone interested in exploring the legal facets of the international community s response to large scale calamitous events Over the last decades natural and man made disasters have been increasing in terms of frequency size number of people affected and material damage caused There is growing awareness of the importance of adequate national and international legal frameworks for disaster prevention mitigation and response The implementation of these frameworks however poses serious challenges This book analyses International Disaster Response Law as developed in recent times and identifies the main existing normative gaps The authors address the rights and duties of States in preventing and mitigating disasters in facilitating access to their territory for humanitarian relief actors as well as issues related to liability and compensation Due attention is paid to European Union law governing disaster response and to its reform in the light of the Lisbon Treaty and to the main trends in domestic legislation Human rights obligations are thoroughly examined and the potential relevance of international criminal law is assessed Additional topics such as the status of relief personnel the hindrances to the delivery of relief consignments by customs and excise administration the use of civilian and military defence assets in emergency situations the mechanisms and procedures available to offer financial support for recovery and rehabilitation risk insurance and the issue of corruption during disaster related activities are specifically addressed By drawing on the expertise of lawyers political scientists economists and humanitarian practitioners the book promotes much needed interdisciplinary dialog and sheds light on a largely uncharted field of research It is therefore essential reading for academics and practitioners in international and EU law policy makers civil protection and humanitarian operators and for anyone interested in exploring the legal facets of the international community s response to large scale calamitous events
