The Ghost Forest Greg King,2023-06-06 The definitive story of the California redwoods their discovery and their exploitation as told by an activist who fought to protect their existence against those determined to cut them down Every year millions of tourists from around the world visit California s famous redwoods Yet few who strain their necks to glimpse the tops of the world s tallest trees understand how unlikely it is that these last isolated groves of giant trees still stand at all In this gripping historical memoir journalist and famed redwood activist Greg King examines how investors and a growing U S economy drove the timber industry to cut down all but 4 percent of the original two million acre redwood ecosystem King first examined redwood logging in the 1980s as an award winning reporter What he found in the woods convinced him to leap the line of neutrality and become an activist dedicated to saving the very last ancient redwood groves remaining in private hands The land grab began in 1849 when a green gold rush of migrants came to exploit the legendary redwoods that grew along the Russian River Several generations later in 1987 Greg King discovered and named Headwaters Forest at 3 000 acres the largest ancient redwood habitat remaining outside of parks and he led the movement to save this grove After a decade of one of the longest most dramatic and violent environmental campaigns in US history in 1999 the state and federal governments protected Headwaters Forest The Ghost Forest explores a central question an overhanging mystery What was it like this botanical Elysium that grew only along the Northern California coast a forest so spectacular but also uniquely valuable as a cornerstone of American economic growth that in the end it would inspire life and death struggles Few but loggers and surveyors ever saw such magnificent trees ancient

sentinels that like ghosts have informed King's understanding of the world. On a lifelong journey, King finds himself through the generations and through the trees. A Next Big Idea Club Must Read Title Churchill in North America, 1929 Bradley P. Tolppanen, 2014-04-16 Churchill took a three-month vacation to North America in the summer and fall of 1929, a little-known event in his long career. In the company of his son Randolph, his brother Jack, and his nephew Johnny, he toured Canada and the United States. Notable are Churchill's meetings with political, business, newspaper, and entertainment figures: President Hoover, Prime Minister Mackenzie King, Bernard Baruch, William Randolph Hearst, Marion Davies, and Charlie Chaplin, as well as his visits to such landmarks as the Grand Canyon, Lake Louise, Niagara Falls, and Yosemite. The Churchills also visited a lumber camp, slaughterhouse, and steel factory; went fishing on the Pacific Ocean; and inspected the battlefields in Quebec and Virginia. They evaded Prohibition and gambled on the stock market about to crash. It was on this trip that Churchill gained an understanding of the two countries firsthand and deepened his feelings for Canada and the United States. *Redwood National Park: Hearings held in Washington, D.C., June 27, 28, 29, and July 12 and 19, 1967* United States Congress, House Committee on Interior and Insular Affairs, Subcommittee on National Parks and Recreation, 1967 **Reading**
