Hargett, 2018-12-18 First hand accounts of travel provide windows into places unknown to the reader or new ways of seeing familiar places In Jade Mountains and Cinnabar Pools the first book length treatment in English of Chinese travel literature youji James M Hargett identifies and examines core works in the genre from the Six Dynasties period 220 581 when its essential characteristics emerged to its florescence in the late Ming dynasty 1368 1644 He traces the dynamic process through which the genre most of which was written by scholars and officials developed and shows that key features include a journey toward an identifiable place essay

or diary format description of places phenomena and conditions accompanied by authorial observations comments and even personal feelings inclusion of sensory details and narration of movement through space and time Travel literature s inclusion of a variety of writing styles and purposes has made it hard to delineate Hargett finds however that classic pieces of Chinese travel literature reveal much about the author his values and his view of the world which in turn tells us about the author s society making travel literature a rich source of historical information      *Books in Print* ,1994
