AB Bookman's Weekly , 1998 At the Blue Hole Jack R. Reese, 2021-10-14 Said plainly churches are in trouble All churches are but certainly Churches of Christ Whether or not they recognize the threats they are facing is a different matter The future is fraught with dangers Many won't make it On New Year's weekend 1831-32 two churches came together in Lexington Kentucky in what is often known today as the Restoration Movement Among the churches that emerged from this movement were Churches of Christ which grew in the nineteenth century and then flourished in the twentieth At their zenith around 1990 there were over 13 000 Church of Christ congregations in the United States with nearly 1.3 million members Especially in the southern states where Churches of Christ were concentrated it seemed inconceivable that they would ever face their own death Like many communities of faith these churches are now in rapid decline The numbers are devastating At the current trajectory Churches of Christ in America with a membership of just over a million will be less than a quarter their current size in thirty years As they awaken to their crisis many of them are beginning to see themselves at the edge This book is an elegy for those churches But it is also a story of hope and promise As from the Blue Hole the tiny hidden spring from which flows the San Antonio River near where Jack Reese ministers there is still abundant life and grace to be found flowing into Churches of Christ waiting to be uncovered Anyone wondering how to stem the seemingly inevitable ebb of the fading Western church will find solace and help in Reese's account of a once thriving fellowship of churches that God willing may yet emerge from the grave into the light of resurrection **The Southern Quarterly** , 1997 *Crafting Traditions* Richard R. Brettell, Willis C. Winters, 2005 This is the first work to document the life and career of Dallas architect Mark Lemmon a pre eminent American historicist It is an illustrated testament to Lemmon's ideas of architectural civility solidity and classicism considered retrograde by many architectural historians though taking on a renewed relevance after the post

modernist revisionism of the 1970s Having completed his architectural education at MIT and a tour of duty as a military engineer in Europe during World War I Lemmon a Texas native moved to Dallas and began a distinguished career spanning forty years from the 1920s to the 1960s Lemmon s greatest contributions to Texas architecture were his designs for educational and religious institutions His most important clients were the Dallas Independent School District Southern Methodist University for which he designed eighteen Georgian style buildings the Port Arthur School District and the University of Texas at Austin In styles that vary from Romanesque to Moderne these buildings define their neighborhoods and place their users in a system of civilized architectural allusions that raises the level of urban culture Few Texas architects matched the range of Lemmon s ecclesiastical architecture His master works include Highland Park United Methodist Church 1927 Third Church of Christ Scientist 1930 and Highland Park Presbyterian Church 1939 His other projects include the Cotton Bowl the Museum of Natural History the Hall of State the Art Deco Great Hall and the Hall of Heroes all at Dallas s Fair Park The volume contains an essay by Richard R Brettell placing Lemmon as historicist in the context of a modernist century as well as a critical biography of the architect by Willis Cecil Winters with a chronological list of buildings and projects by the team of DeWitt and Lemmon 1921 1926 and later by Mark Lemmon 1926 1964
