

Reflections on the discipline of philosophy and its history

Sharon Rider

Introduction

When Aristotle introduces his critique of the Platonic doctrine of ideas regarding the Idea of the Good as a guide to morals, he finds it necessary to reflect upon his relationship to his former mentor and the latter's disciples in the Academy. Thus he begins chapter 6 of book I of the *Nicomachean Ethics* with the following admission:

We had perhaps better consider the universal good and discuss thoroughly what is meant [*legetai*] by it, although such an inquiry is made an uphill one by the fact that the Forms have been introduced by friends of our own. Yet it would perhaps be thought to be better, indeed to be our duty, for the sake of maintaining the truth even to destroy what touches us closely, especially as we are philosophers or lovers of wisdom; for, while both are dear, piety requires us to honour truth above our friends.¹

One might see this confession in light of an important Aristotelian distinction, one which itself can be seen as a sort of confession, given Aristotle's overall ambition of laying down guidelines for what we would today call proper scientific procedure. In a famous passage in the *Metaphysics* (1004b, 15–27), he asserts that the difference between sophistry, dialectics and philosophy rests not in their respective methods, but in the role the reasoning plays in one's life.² According to Aristotle, what the sophist says instrumentally in order to give the appearance of wisdom and the dialectician as an exercise, the philosopher is really trying to understand or know. The distinction Aristotle draws and the notion of truth in the passage cited above can and perhaps ought to be understood in terms of one another. The point of bringing these ideas together is to draw attention to an aspect of human thinking that was essential for earlier thinkers, but seems to have been largely forgotten today: the desire for truth is ultimately a moral demand that the individual makes on himself.

The paradox of this simple fact of life is that the need to get clear on things, to understand how things really are, is something that arises in the individual precisely because she is of necessity a member of a greater collective, a tradition or community. Being a member of a community, one is sometimes forced to take a stand on that community, or aspects of it.

Consciousness Sara Heinämaa, Vili Lähteenmäki, Pauliina Remes, 2007-07-16 SARA HEIN MAA VILI L HTEENM KI AND PAULIINA REMES This book is about consciousness It illuminates the concept in its complexity and richness capturing its theoretical and philosophical significance as well as its problematic aspects By taking a new look into the history of concepts the collection questions several deep seated assumptions about consciousness assumptions both thematic and methodological It argues that even though our predecessors did not formulate their philosophical queries in terms of consciousness they have much to offer to our current disputes concerning its central features such as reflexivity subjectivity and aboutness as well as related themes from selfhood to attention and embodiment At the same time the collection demonstrates that consciousness is not just an issue in the philosophy of mind but is bound to ontology epistemology and moral theory We can find premodern and early modern concepts and arguments that are interesting and even crucial to our own philosophical concerns but we should not assume that these belong or contribute to any theory of mind isolated from metaphysical and ethical discussions an argument that for us provides insightful descriptions of perception or self awareness might to its writer have meant not just a theoretization of the soul or the mind but also and perhaps more importantly a contribution to ethics or ontology *Pluralizing Philosophy's Past* Amber L. Real History Martin Bunzl, 2005-06-20 Real History is a fascinating and essential read for all those interested in a reconciliation of the debates about the methodology and study of the philosophy of history

Reflections on Naturalism José Ignacio Galparsoro, Alberto Cordero, 2013-09-04 To naturalists there is no such thing as complete justification for any claim and so requiring complete warrant for naturalist proposals is an unreasonable request The proper guideline for naturalist proposals seems thus clear develop it using the methods of science if this leads to a fruitful stance then explicate and reassess The resulting offer will exhibit virtuous circularity if its explanatory feedback loop involves critical reassessment as the explanations it encompasses play out So viewed naturalism is a philosophical perspective that seeks to unite in a virtuous circle the natural sciences and non foundationalist broadly based empiricism Other common lines of antinaturalist complaint are that naturalization efforts seem fruitful only in some areas also that several endeavors outside the sciences serve as sources of knowledge into human life and the human condition especially in areas where science does not reach terribly far as yet It seems hard not to grant some truth to many allegories from literature art and some religions Naturalism has room for knowledge gathered outside science provided the imported claims satisfy also by naturalistic methods Naturalism and the debate about its scope and limits thrive on discrepancy We hope that collectively the selected essays that follow will give a fair view of the vitality and tribulations of naturalism as a variegated contemporary philosophical perspective

Hegelian Reflections on the Idea of Nuclear War Hayo B.E.D. Krombach, 1991-06-18 Applying Hegelian dialectical method Krombach attempts to demonstrate how Hegelian thinking provides a method to traverse the gulf between the history of philosophy and the idea of nuclear war as well as showing its direct implications for conceptualizing environmental issues

Methodological Reflections on Women's Contribution and Influence in the History of Philosophy Sigríður Thorgeirsdóttir, Ruth Edith Hagengruber, 2020-07-11 This book introduces methodological concepts aimed at including

women in the canon of the history of philosophy The history of women philosophers is as long and strong as the history of philosophy and this holds true not only for the European tradition as the research of women philosophers of the past shows The phenomenon of ignoring and excluding women in 19th and 20th century views on the history of philosophy was a result of the patriarchal tradition that ostracized women in general In this book leading feminist philosophers discuss methodologies for including women thinkers in the canon and curricula of philosophy How does the recovery of women thinkers and their philosophies change our view of the past and how does a different view of the past affect us in the present Studying a richer and more pluralistic history of philosophy presents us with worlds we have never entered and have never been able to approach This book will appeal to philosophers and intellectual historians wanting to view the history of philosophy in a new light and who are in favor of an inclusive perspective on that history **Theories and Narratives.**

Reflections on the Philosophy of History, 2007 Gadamer on Tradition - Historical Context and the Limits of Reflection Anders Odenstedt, 2017-07-07 This book discusses Gadamer's theory of context dependence Analytical and partly critical the book also shows exegetical accuracy in the rendering of Gadamer's position It explores the following questions that Gadamer's theory of context dependence tries to answer in what way is thought influenced by and thus dependent on its historical context To what extent and in what way is the individual able to become reflectively aware of and emancipate himself from this dependence The book takes Gadamer's wide interests into account e.g. issues relating to the history of historiography and the nature of art and aesthetic experience The problem of the context dependence of thought is prominent in contemporary philosophy including the fields of structuralism post structuralism deconstruction certain forms of feminist philosophy and the philosophy of science In this sense the book discusses an issue with wide repercussions *Theories and Narratives* Alex Callinicos, 1997 **The Discovery of Historicity in German Idealism and Historism** Peter

Koslowski, 2006-03-30 German Idealism develops its philosophy of history as the theory of becoming absolute and as absolute knowledge Historism also originates from Hegel's and Schelling's discovery of absolute historicity as it turns against Idealism's philosophy of history by emphasizing the singular and unique in the process of history German Idealism and Historism can be considered as the central German contribution to the history of ideas Since Idealism became most influential for modern philosophy and Historism for modern historiography they are analyzed in this volume in a collaboration of philosophers and historians German Idealism is presented in Schelling and its critics Schlegel Baader and Nietzsche Historism in Ranke Droysen Burckhardt and Treitschke The volume further presents the impact of Idealism and Historism on present German approaches to the philosophy of history and outlines the debates on the possibility of a philosophy of history and on the methodology of the historical sciences **An Introduction to the Logic of Reflection** Matthew Thompson McClure, 1925

Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from

Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies *A Sketch of the Development of Philosophic Thought from Thales to Kant* Ludwig Noiré, 1908 Reflection and the Stability of Belief Louis E. Loeb, 2010 A unifying theme of Loeb's work is epistemological that Descartes and Hume advance theories of knowledge that rely on a substantial naturalistic component adopting one or another member of a cluster of psychological properties of beliefs as the goal of inquiry and the standard for assessing belief forming mechanisms Thus Loeb shows a surprising affinity between the epistemologies of the two figures surprising because they are often thought of as polar opposites in this respect Descartes and Hume are unique in that their philosophical texts are accessible beyond just a narrow audience in the history of philosophy their ideas continue to be a vital part of the field at large This volume will thus appeal to advanced students and scholars not just in the history of early modern philosophy but in epistemology and other core areas of the discipline
