Reflections Three Put Them In Cages:

Third Place Learning Glyn M. Rimmington, Mara Alagic, 2008-06-01 The hybridity and dynamism of today's interconnected interdependent and culturally diverse world poses challenges and opportunities for learning and communication. This book introduces an approach to facilitate global learning opportunities while facing these challenges. The approach is based on the cage painting metaphor for dialogic co-construction of meaning and understanding of multiple perspectives. Resolving disorienting dilemmas or preconceptions requires a dialectic flow of thinking since the root of the problem may lay deep in person's beliefs and values. Such experiences might be transformative in their nature causing change in person's perspective, better understanding the culture of themselves and other people, reflective and mindful inquiry into one's worldview, the third place processes. Misunderstandings are more prevalent when using technology, global reach between people from distant locations, different cultures. To prepare people for these challenges we offer a Web 2.0 based instructional design blueprint. Dependent on the context and content of the planned activities, the cage painting and global learning processes may be facilitated simultaneously or sequentially. The approach presented in this book has attracted interest of educators in different disciplines as well as human resources leaders concerned with key characteristics of today's global business workers: intercultural, global communication and collaboration. The ideas emerged from six years of studying ways in which we and our colleagues from 25 other countries integrated global learning into classrooms in a range of discipline areas. In this book we explore the competences needed to communicate interculturally and avoid the effects of preconceptions on our communication and collaboration. We review metaphors commonly used in intercultural communication and then introduce a new metaphor called Cage Painting. The process of Cage Painting requires certain conditions during intercultural communication, whether it is face to face or via global reach using technology. The transformative processes that we undergo as we confront cultural disorienting dilemmas, smiling being a simple example of one, are named the Third Place.

John Cage's Theatre Pieces William Fetterman, 2012-10-12 The experimental composer John Cage 1912-1992 is best known for his works in percussion, prepared piano and electronic music, but he is also acknowledged to be one of the most significant figures in 20th century theatre. In Cage's work in theatre composition, there is a blurring of the distinctions between music, dance, literature, art and everyday life. Here William Fetterman examines the majority of those compositions by Cage which are aural as well as visual in content, beginning with his first work in this genre in 1952 and continuing through 1992. Much of the information in this study comes from previously undocumented material discovered among the unpublished scores and notes of Cage and his frequent collaborator David Tudor, as well as author's interviews with Cage and with individuals closely associated with his work, including David Tudor, Merce Cunningham, Bonnie Bird, Mary Caroline Richards and Ellsworth Snyder. [Crafts & Projects for children](#), [Writings through John Cage's Music, Poetry, and Art](#) David W. Bernstein, Christopher Hatch, 2010-06-15 This volume looks at the

creative work of the great avant gardist John Cage from an exciting interdisciplinary perspective exploring his activities as a composer performer thinker and artist The essays in this collection grew out of a pivotal gathering during which a spectrum of participants including composers music scholars and visual artists literary critics poets and filmmakers convened to examine Cage s extraordinary artistic legacy Beginning with David Bernstein s introductory essay on the reception of Cage s music the volume addresses topics ranging from Cage s reluctance to discuss his homosexuality to his work as a performer and musician and his forward looking provocative experimentation with electronic and other media Several of the essays draw upon previously unseen sketches and other source materials Also included are transcripts of lively panel discussions among some of Cage s former colleagues Taken together this collection is a much needed contribution to the study of one of the most significant American artists of the twentieth century

John Cage Julia Robinson,2011-08-12 An extended trajectory of Cage literature from early critical reaction to writing by contemporaries to current scholarship John Cage 1912 1992 defined a radical practice of composition that changed the course of modern music and shaped a new conceptual horizon for postwar art Famous for his use of chance and silence in musical works a pioneer in electronic music and the nonstandard use of instruments Cage was one of the most influential composers of the last century This volume traces a

trajectory of writings on the artist from the earliest critical reactions to the scholarship of today If the first writing on Cage in the American context often written by close associates with Cage s involvement seemed lacking in critical distance younger scholars a generation removed have recently begun to approach the legacy from a new perspective with more developed theoretical frameworks and greater skepticism This book captures that evolution The texts include discussions of Cage s work in the context of the New Music scene in Germany in the 1950s Yvonne Rainer s essay looking back on Cage and New York experimentalism of the 1960s a complex and original mapping of Cage s place in a wider avant garde genealogy that includes Le Corbusier and Moholy Nagy a musicologist s account of Cage s process of defining and formalizing his concept of indeterminacy and an analysis of Cage s project that considers his strategies of self representation as key to his unique impact on modern and postmodern art

The Cage David Weissman,2012-02-01 Hume argued that is does not entail ought that we cannot infer necessity or obligation from any description of actual states of affairs His philosophical heirs continue to argue that nothing outside ourselves constrains us The Cage maintains contrary to Humean tradition that reality is a set of nested contexts each distinguished by intrinsic norms Author David Weissman offers an innovative exploration of these norms intrinsic to human life including practical affairs morals aesthetics and culture In this critical examination of character formation and the conditions for freedom Weissman suggests that eliminating context because of regarding it as an impediment to freedom impoverishes character and reduces freedom He concludes that positive freedom the freedom to choose and to act has no leverage apart from the contexts where character forms and circumstances provide opportunities to express one s thoughts tastes or talents
