Turgot* P.D. Groenewegen,2012-12-06 This book can be described as a development of my Masters thesis *The Economics of A R J Turgot* written at the University of Sydney in 1961 62 It has therefore been a long time in the making and needless to say I incurred many an intellectual debt during this period which I would like to acknowledge here My thanks go first to Professor J R Wilson who supervised my Masters thesis and who read part of this manuscript in draft to the late Professor Jacob Viner whose tremendous knowledge of the history of economics was put at my disposal on several occasions and to Professor R L Meek with whom I discussed this work in conversation and correspondence and who has given assistance in several other ways I also owe a great debt of gratitude to a large number of librarians for their assistance in unearthing infrequently used material housed in the collections over which they preside In particular I wish to acknowledge thanks to the librarians of the Fisher Library at the University of Sydney the Public Library of New South Wales the Australian National Library the British Library of Economics and Political Science the British Museum the Goldsmiths Library at the University of London the Kress Collection at the Baker Library at Harvard the Seligman Collection at the Butler Library at Columbia University and the Bibliotheque nationale Money Talks Brenda Berger,Stephanie Newman,2012-03-12 Sometimes referred to as the last taboo money has remained something of a secret within psychoanalysis Ironically while it is an ingredient in almost every encounter between analyst and patient the analyst's personal feelings about money are rarely discussed openly or in any great depth So what is it about money that relegates it to the background both on the couch and off In *Money Talks* Brenda Berger Stephanie Newman and their excellent cast of contributors address this and other questions surrounding the tender topic of money how we talk about it and how it talks to us Its multiple meanings are explored in the contexts of patients and analysts and the ways in which they relate in the training and practice of the analysts themselves as well as the psychological and cultural consequences of having too much or too little in both flush and tight economic times Throughout a clinical sensibility is brought to bear on money's softly spoken place in therapy and life *Money Talks* paves the way for an open discourse into the psychology of money and its pervasive influence on the psyche of both patient and analyst **Reflections** C.
