Reforming The State Fiscal And Welfare Reform In Post Socialist Countries:

Reforming the State János Kornai,Stephan Haggard,Robert R. Kaufman,2001-01-15 The essays in this volume first published in 2001 examine fiscal policy making and providing for social welfare in post socialist countries *Enterprise and Welfare Reform in Communist Asia* Peter Ferdinand,Martin Gainsborough,2003 Featuring a wide geographical scope this collection of essays surveys enterprise and welfare reforms in all the remaining four Asian communist states China Vietnam Laos and North Korea Since the collapse of the Soviet Union they can no longer place major reliance upon assistance from other fraternal states and have to devise their own strategies for survival All have shown a trend towards greater reliance on market forces though in different ways and to varying degrees Enterprise management has to adapt to this In some of them entrepreneurs have become politically and socially acceptable They may even begin to set trends for social evolution Yet since state enterprises used to be responsible for all welfare payments to employees and their families management reforms cannot be separated from those of welfare arrangements Reducing an enterprise's non commercial obligations for the sake of greater market efficiency is bound to affect welfare provision It also reopens the role of official trade unions How these regimes cope with these conflicting pressures are vital factors in their long term viability **Social Service Reform in the Postcommunist State** Janelle A. Kerlin,2005 In this detailed study Janelle A Kerlin demonstrates how and why reforms intended to improve services and increase citizen participation in social service programming largely failed to meet expected goals The politics of reform development including political deals exclusionary tactics and hidden maneuvering by Polish policymakers prevented any significant upgrade of services or real change in decision making structures Kerlin uses focused interviews with leading reform actors and a nationwide representative survey of two hundred public social service institutions to develop a model that connects the politics of the decentralization process with social service outcomes Not only students of the former Soviet bloc but also those interested in the links between politics and policy outcomes more broadly will find in this volume an informative and instructive case study that has far reaching implications **BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved** **The Political Economy of Fiscal Reform in Central-Eastern Europe** Frank Bönker,2006-01-01 Frank Bönker has done a masterful job This is probably the best book available on this important subject and its significance is not limited to studies of postcommunist societies It has important theoretical implications for everyone interested in the Political Economy of Policy Reform perspective within the field of comparative political economy John L Campbell Slavic Review *Sweden and the Revival of the Capitalist Welfare State* Andreas Bergh,2014-07-31 This book tackles a number of controversial questions regarding Sweden's economic and political development How did Sweden become rich How did Sweden become egalitarian Why has Sweden since the early 1990s grown faster than **Transition, Taxation and the State** Gerard Turley,2017-11-30 In economic terms three of the most important and controversial issues of our times are transition taxation and the role of the state This book examines the

core associated problems of tax payment and collection in the context of transition from a centrally planned economy to a market economy and the persistence of the soft budget constraint While differences between the experiences of transition states vary the attitude of the state towards the control of the tax discipline its efficiency and vulnerability to corruption is shown to be a key issue in particular when political constraints are often more pressing than tax design or economic constraints Transition Taxation and the State will prove detailed and enlightening reading for all those concerned with tax administration in transition countries from both economic and political perspectives

Post-Communist Welfare States in European Context Kati Kuitto, 2016-02-26 Welfare reforms in post communist countries are determined by economic and social hardship democratization of the political systems and rapid structural change This groundbreaking book provides a comprehensive and systematic empirical assessment of the Central and Eastern European post communist welfare states in the context of their Western European counterparts Basing the study on new data on welfare entitlements and cluster analysis Kati Kuitto systematically compares 26 European welfare states across three empirical dimensions The author employs a multidimensional framework to analyze patterns of welfare policies and highlight spending priorities financing and the generosity of welfare entitlements Kati Kuitto thus sheds light on the hybrid patterns of welfare policies in post communist countries as they have emerged after the period of transformation and discusses their future challenges Unique and comprehensive this is essential reading for researchers in the fields of comparative welfare state research and Central and Eastern European studies as well as students and practitioners of social policy social security and political economy

Economic Anthropology Chris Hann, Keith Hart, 2011-03-28 This book is a new introduction to the history and practice of economic anthropology by two leading authors in the field They show that anthropologists have contributed to understanding the three great questions of modern economic history development socialism and one world capitalism In doing so they connect economic anthropology to its roots in Western philosophy social theory and world history Up to the Second World War anthropologists tried and failed to interest economists in their exotic findings They then launched a vigorous debate over whether an approach taken from economics was appropriate to the study of non industrial economies Since the 1970s they have developed a critique of capitalism based on studying it at home as well as abroad The authors aim to rejuvenate economic anthropology as a humanistic project at a time when the global financial crisis has undermined confidence in free market economics They argue for the continued relevance of predecessors such as Marcel Mauss and Karl Polanyi while offering an incisive review of recent work in this field Economic Anthropology is an excellent introduction for social science students at all levels and it presents general readers with a challenging perspective on the world economy today Selected by Choice as a 2013 Outstanding Academic Title

Runaway State-Building Conor O'Dwyer, 2006-09-14 Here Conor O'Dwyer introduces the phenomenon of runaway state building as a consequence of patronage politics in underdeveloped noncompetitive party systems Analyzing the cases of three newly democratized nations in Eastern Europe Poland the Czech

Republic and Slovakia O Dwyer argues that competition among political parties constrains patronage led state expansion O Dwyer uses democratization as a starting point examining its effects on other aspects of political development Focusing on the link between electoral competition and state building he is able to draw parallels between the problems faced by these three nations and broader historical and contemporary problems of patronage politics such as urban machines in nineteenth century America and the Philippines after Marcos This timely study provides political scientists and political reformers with insights into points in the democratization process where appropriate intervention can minimize runaway state building and cultivate efficient bureaucracy within a robust and competitive democratic system

The Politics of Poverty Reduction Paul Mosley, 2012-03-29 Poor people everywhere are politically weak and yet poverty in some developing countries has gone down dramatically Why is this Using nine country case studies this book provides answers by examining government alliances the role of aid donors and NGOs and policies on labour tax and expenditure

The Technocratic Challenge to Democracy Eri Bertsou, Daniele Caramani, 2020-03-09 This book represents the first comprehensive study of how technocracy currently challenges representative democracy and asks how technocratic politics undermines democratic legitimacy How strong is its challenge to democratic institutions The book offers a solid theory and conceptualization of technocratic politics and the technocratic challenge is analyzed empirically at all levels of the national and supra national institutions and actors such as cabinets parties the EU independent bodies central banks and direct democratic campaigns in a comparative and policy perspective It takes an in depth analysis addressing elitism meritocracy de politicization efficiency neutrality reliance on science and distrust toward party politics and ideologies and their impact when pitched against democratic responsiveness accountability citizens input and pluralist competition In the current crisis of democracy this book assesses the effects of the technocratic critique against representative institutions which are perceived to be unable to deal with complex and global problems It analyzes demands for competent and responsible policy making in combination with the simultaneous populist resistance to experts The book will be of key interest to scholars and students of comparative politics political theory policy analysis multi level governance as well as practitioners working in bureaucracies media think tanks and policy making

Inequality After the Transition Ekrem Karakoç, 2018-10-03 After the Transition is an all encompassing examination of the origins increase and persistence of inequality in new democracies It challenges the conventional thinking found in much of the democratization inequality literature and offers a new theory It speaks simultaneously to literature of democratization party systems social policy and inequality to explain why democracies are not able to fulfill their promise to the disadvantaged and why they cannot achieve income equality It investigates social policy programs such as pensions unemployment benefits and other social transfers in Poland and the Czech Republic in Post Communist Europe and Turkey

and Spain in Southern Europe The volume traces the origins and development of social policy from the formation of nation states to the present and considers how different political regimes whether totalitarian post totalitarian or authoritarian designed welfare policies to prioritize civil servants and the working classes in formal sectors at the expense of the majority poor It then demonstrates how these legacies perpetuate and widen disparities in access to welfare policies and thus income inequality in countries where low mobilization by the poor and unstable party systems prevail This study employs interviews with Polish Czech Turkish and Spanish union leaders bureaucrats and business people while also conducting an original survey in Turkey to dissect the linkage between organized groups and parties Employing a multi method approach two paired case studies on these countries also demystify why and how new populist parties have successfully appealed to voters and affected the trajectory of social policy party systems and inequality Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow John and Rebecca Moores Professor of Political Science University of Houston

Constraints and Driving Forces in Economic Systems Balázs Hámor,Miklós Rosta,2016-01-14 What do the diametrically opposite tendencies in the height of the North Korean and South Korean population over the past sixty years the paternalism in the current pension systems and the Greek crisis have in common Readers should not promptly reply nothing as Constraints and Driving Forces in Economic Systems shows The contributions to this volume analysing various topics actually all discuss the

same point the forces driving development and the constraints hindering progress in economic systems and subsystems

Hungary's Crisis of Democracy Peter Wilkin, 2016-08-26 This book examines the crisis of democracy that has arisen in Hungary since the election of the Fidesz government in 2010 After moving swiftly to transform the Hungarian constitution Fidesz created a new political system which has led its critics to argue that the era of democracy in Hungary is over US Senator John McCain has gone so far as to describe Hungary as an illiberal democracy on a path toward fascism The author argues that Fidesz has sought to challenge the capitalist and democratic transformation that shaped Hungary for 20 years after the fall of communism by increasing the power of the state over crucial aspects of the economy society and the political system In so doing Fidesz actions resemble those undertaken by many authoritarian states that have emerged since the end of the Second World War all aiming to build up a national capitalism and protect their economies whilst undertaking nation building To make sense of this the author draws upon two traditions of thought world systems analysis which situates Hungary in the context of its incorporation in the modern capitalist world system after the fall of communism and anarchist social thought which provides a unique way of seeing the actions of states and political elites In so doing the book argues that the events unfolding in Hungary cannot be explained on the basis of Hungarian exceptionalism but must be situated in the broader political and economic context that has shaped the development of Hungary since 1990 The form of capitalism introduced in Hungary and across the region of East and Central Europe has systematically undermined the strong state and social security that had existed under communism and when added to the failure of the left and liberals in the region it has paved the way for far right and neo fascist political movements to emerge claiming the mantle of defenders of society from the market This represents a fundamental threat to the enlightenment traditions that have shaped dominant modern political ideologies and raises profound problems for both the EU and NATO

Party Patronage and Party Government in European Democracies Petr Kopecký, Peter Mair, Maria Spirova, 2012-07-26 *Party Patronage and Party Government in European Democracies* brings together insights from the worlds of party politics and public administration in order to analyze the role of political parties in public appointments across contemporary Europe Based on an extensive new data gathered through expert interviews in fifteen European countries this book offers the first systematic comparative assessment of the scale of party patronage and its role in sustaining modern party governments Among the key findings are First patronage appointments tend to be increasingly dominated by the party in public office rather than being used or controlled by the party organization outside parliament Second rather than using appointments as rewards as used to be the case in more clientelistic systems in the past parties are now more likely to emphasize appointments that can help them to manage the infrastructure of government and the state In this way patronage becomes an organizational rather than an electoral resource Third patronage appointments are increasingly sourced from channels outside of the party thus helping to make parties look increasingly like network organizations primarily constituted by their leaders and their personal and political
