Education Reform in the American States Jerry McBeath, Maria Elena Reyes, Mary Ehrlander, 2008-04-01 Education Reform in the American States is a timely evaluation of the accountability movement in American public education culminating in the No Child Left Behind Act federal legislation of 2002 The authors treat the current accountability movement placing it in historical context and addressing the evolution in public education policymaking from the overwhelming emphasis on state and local discretion to increasing federal oversight and mandates related to federal funding They provide case studies of the educational accountability movements in nine states and analyze the factors and forces which explain progress in achievement levels as measured on standardized tests and the states prospects for meeting their NCLB targets The book and the individual case studies acknowledge the merits of NCLB while exposing several significant flaws and unintended harmful consequences of the act particularly its incentives for states to lower their standards in order to meet annual yearly progress targets and its threat to withdraw federal funds from districts with the highest percentage of disadvantaged students The audience for this study includes local state and federal education policy makers administrators and instructors in schools of education and other teaching programs educators and the general public

Suhrbur, 2025-04-08 Founded in 1853 the Illinois Education Association IEA and its predecessors have played a vital role in shaping the Illinois public school system Thomas J Suhrbur s history covers the lifespan of the IEA within the larger story of state public education as a battleground for contentious social and economic issues Suhrbur pays particular attention to the impact of race gender religion and tax policy on the IEA and public schools He also examines the IEA s evolution from a professional organization controlled by administrations and officials through its radical transformation into a teacher led independent labor union As a workers organization the IEA successfully fought for collective bargaining and organized K 12 and higher education while continually standing against right wing efforts to privatize education and undermine public schools with vouchers for profit institutions and tax credits Multifaceted and up to date Public Education and Social Reform tells the story of the organization and figures dedicated to sustaining and advancing Illinois public education The End of School Reform Maurice R. is not an attempt to be the comprehensive book on the era. Given the sheer number of projects that task would be impossible. However, the current lack of knowledge about the politics, people, and projects of the NSS is unfortunate as it often appears that new scholars are reinventing the wheel due to their lack of knowledge about the history of the social studies field. The goal of this book then is to sample the projects and individuals involved with the New Social Studies (NSS) in an attempt to provide an understanding of what came before and to suggest guidance to those concerned with social studies reform in the future, especially in light of the standardization of curriculum and assessment currently underway in many states. The authors who contributed to this project were recruited with several goals in mind, including a broad range of ages, interests, and experiences with the NSS, from participants during the NSS era through new young scholars who had never heard much about the NSS. As many of the authors remind us in their chapters, much has been written of the failure of the NSS. However, in every chapter of this book, the authors also point out the remnants of the projects that remain.
