Eine intensive Perspektive auf einen umstrittenen Teil der europäischen Außenpolitik.

Losing Place Johnathan Bascom, 2001-09-01 Refugee flight, settlement and repatriation are not static, self-contained or singular events. Instead, they are three stages of an ongoing process made and mirrored in the lives of real people. For that reason, there is an evident need for historical and longitudinal studies of refugee populations that rise above description and trace the process of social transformation during the full circle of flight, resettlement and return home. This book probes the economic forces and social processes responsible for shaping the everyday existence for refugees as they move through exile.

Relocation Failures in Sri Lanka Robert Muggah,2013-04-04 Each year millions of people are internally displaced and resettled in the wake of wars and floods or to make way for large scale development projects and this number is increasing Humanitarian and development specialists continue to struggle with designing and executing effective protection strategies and durable solutions Relocation Failures explains how internal displacement and efforts to engineer resettlement are conceived and practiced by policy makers and practitioners The author argues that policies for internally displaced peoples are weak and diluted by narrow interpretations of state sovereignty and collective action dilemmas and in the case of Sri Lanka unintentionally intensified ethnic segregation and ultimately war This unique new book considers the origins and parameters of internal displacement and resettlement policy and practice and proposes an explanation for why it often fails In highlighting the ways that development assistance can exacerbate smoldering conflicts the volume provides an important caution to the aid community PEACE STUDIES, PUBLIC POLICY AND GLOBAL SECURITY - Volume I Ursula Oswald Spring, Ada Aharoni, Ralph V. influence enough people's lives in significant enough ways through what they protect, provide or enable that they should be considered together as global institutions. The United Nations, the World Bank, the internet as well as private military and security companies leave a heavy footprint on the social, political and economic landscape of the planet. We are all aware in different ways of the existence of these global institutions but their importance in achieving change in the twenty-first century is often underestimated. In this book, contributors seek to explain what associations exist between change in global institutions and the reduction of poverty and inequality as well as the achievement of security and justice. The work makes sense of processes of change and identifies the most significant obstacles that exist, offering suggestions for future action that will be of interest to students and scholars of global institutions.

Refugee Women, Representation and Education
Melinda McPherson, 2014-10-07

Even with increased attention to refugee women's issues in the late 20th century, post-colonial discourses have nurtured limiting representations of refugee women predominantly as subjects of charity and as victims. Adding to a growing body of work in the field, the author challenges this preconception by offering an opportunity for women's voices.
