Escape from Violence Aristide R. Zolberg, Astri Suhrke, Sergio Aquayo, 1989 A crisis in the making Refugees Milton E. US-Pakistan Relationship A.Z. Hilali,2017-07-05 Hilali provides an excellent study into the US Pakistan partnership under the Reagan administration The book explores the causes of Pakistan's involvement in the Afghanistan war and the United States support to prevent Soviet adventurism It shows that Pakistan was the principal channel through which assistance was provided to Afghan freedom fighters it also provided access to its military bases to use against the Soviet Union The study looks at the consequences of the war on Pakistan and explains how it became enmeshed within its domestic politics Furthermore it evaluates the role of Pakistan as a key partner in the global coalition against terrorism and discusses how General Pervez Musharraf brought about Pakistan's development towards a progressive moderate and democratic society Ideally suited to courses on foreign policy Refugee Manipulation Stephen John Stedman, Dr. Fred Tanner, 2004-05-13 Since World War II refugee organizations have faced a recurrent challenge the manipulation of refugees by warring parties to further their own aims Some armies in civil wars facing military defeat use refugees as assets to establish the international legitimacy of their cause treat refugee camps as sanctuaries and recruitment pools and limit access to refugees to ensure that they will not repatriate Focusing on the geopolitical security environment surrounding militarized camps and the response of humanitarian agencies the contributors to this volume examine the ways armed groups manipulate refugees and how and why international actors assist their manipulation. They then offer suggestions for reducing the ability of such groups to use the suffering of refugees to their own advantage The contributors examine three cases Cambodian refugees along the Thai border in the 1970s and 1980s Afghan refugees in Pakistan in the 1980s and 1990s and Rwandan refugees in Eastern Zaire from 1994 96 They argue that refugee manipulation occurs because warring parties gain resources in their fight for power and other actors often the host government and regional and major powers encourage and support it Manipulation is allowed to occur because the international refugee regime and major states have not identified a consistent approach to stopping it In the post Cold War era the United Nations and its members have chosen to treat the issue as a humanitarian problem instead of a security problem As the contributors make clear however manipulation of refugees has important ramifications for international security turning some civil wars into larger protracted regional wars They argue that the geopolitics of refugee manipulation leads to sanguine conclusions about stopping it Solutions must change the moral political and strategic calculations of states that are implicated in the manipulation As long as the problem Governance, Development and Conflict Manas Chatterji, Darvesh Gopal, Savita is not deemed a security threat Singh, 2011-08-17 A considerable amount of work has been conducted in the field of peace studies conflict management peace science in economics sociology anthropology and management This title presents research with an emphasis on theoretical and mathematical constructs in the area of peace economics peace science Third World Conflicts and

From Migrants to Refugees Jill Rosenthal, 2023-10-06 In From Migrants to Refugees Jill Rosenthal tells the history of how Rwandan migrants in a Tanzanian border district became considered either citizens or refugees as nation state boundaries solidified in the wake of decolonization Outlining the process by which people who have long lived and circulated

across the Rwanda Tanzania border came to have a national identity Rosenthal reveals humanitarian aid s central role in the ideological processes of decolonization and nation building From precolonial histories to the first Rwandan refugee camps during decolonization in the 1960s to the massive refugee camps in the 1990s Rosenthal highlights the way that this area became a testing ground for novel forms of transnational aid to refugees that had global implications As local and national actors refugees and international officials all attempted to control the lives and futures of refugee groups they contested the authority of the nation state and the international refugee regime This history Rosenthal demonstrates illuminates how tensions between state and international actors divided people who share a common history culture and language across Internally Displaced, Refugees and Returnees from and in the Sudan Desirée Nilsson, 2000 Liguria is another country They do things differently there particularly when it comes to food Lucio Galletto grew up in Liquria at the eastern end of the Riviera di Levante coast of the rising sun He didn t realize how special his region was until he fell in love with an Australian girl and traveled 12 000 kilometers to be with her In 2008 Lucio and writer David Dale along with photographer Paul Green returned to the birthplace of ravioli and pesto and wild greens pie to investigate how the cooking of Lucio s region had evolved during his 25 year absence They found a new breed of chefs farmers and fishermen adapting traditions to the environmental concerns of the 21st century Still using the wonderful array of local herbs vegetables and seafood they apply a lighter touch and a more adventurous spirit In this stunningly photographed book Lucio brings us the fruits of his travels 180 delicious recipes that respect the experience of the past and anticipate the demands of the future dishes that are fun to cook beautiful to look at a pleasure to share and kind to the body And importantly that pay homage to the sunny Riviera di Levante from which Lucio s culinary journey began This book was the winner of the 2008 Gourmand Award for Best Italian Cuisine Book Australian Category and the 2009 Cordon d Or Cuisine Award for Best Illustrated Indochinese Refugees as a Security Concern of the ASEAN States, 1975-1981 Tim Huxley, 1983 Culinary Book

Refugees in International Politics Leon Gordenker,2023-02-01 Originally published in 1987 Refugees in International Politics explores the nature of forced migration It sets out systematically the factors that set refugees in motion and explains how and why a flexible network of organizations copes with the inescapable results of their presence It suggests measures to reduce both the human suffering involved in forced migration and the disturbing effects of international relations

International Political Theory and the Refugee Problem Natasha Saunders,2017-11-22 The refugee problem is a term that it has become almost impossible to escape Although used by a wide range of actors involved in work related to forced migration these actors do not often explain what exactly the problem is that they are working to solve leading to an unfortunate conflation of two quite different problems the problems that refugees face and the problems that refugees pose Beginning from the simple yet too often overlooked observation that how one conceives of solving a problem is inseparable

from what one understands that problem to be Saunders study explores the questions raised about how to address the refugee problem if we recognise that there may not be just one problem and that not all actors involved with the refugee regime conceive of their work as addressing the same problem Utilising the work of Michel Foucault the book first charts how different problems lend themselves to particular kinds of solutions arguing that the international refugee regime is best understood as developed to solve the refugee as problem rather than refugees problems Turning to the work of Hannah Arendt the book then reframes the refugee problem from the perspective of the refugee rather than the state and investigates the extent to which doing so can open up creative space for rethinking the more traditional solutions to the refugee as problem Cases of refugee protest in Europe and the burgeoning Sanctuary Movement in the UK are examined as two sub state and popular movements which could constitute such creative solutions to a reframed problem The consequences of the refugee label and of the discourses of humanitarianism and emergency is a topic of critical concern and as such the book will form important reading for a scholars and students of international political theory and forced migration studies
