Refugees From Nowhere:

Refugees from Nowhere George W. Bourland, 1968 The League of Nations and the Refugees from Nazi Germany Greg Burgess, 2016-10-20 Greg Burgess's important new study explores the short life of the High Commission for Refugees Jewish and Other Coming from Germany from its creation by the League of Nations in October 1933 to the resignation of High Commissioner James G McDonald in December 1935 The book relates the history of the first stage of refugees from Germany through the prism of McDonald and the High Commission It analyses the factors that shaped the Commission's formation the undertakings the Commission embarked upon and its eventual failure owing to external complications The League of Nations and the Refugees from Nazi Germany argues that in spite of the Commission's failure the refugees from Nazi Germany and the High Commission's work mark a turn in conceptions of international humanitarian responsibilities when a state defies standards of proper behaviour towards its citizens From this point on it was no longer considered sufficient or acceptable for states to respect the sovereign rights of another if the rights of citizens were being violated Greg Burgess discusses this idea amongst others in detail as part of what is a crucial volume for all scholars and students of Nazi Germany the Holocaust and modern Jewish history

Immigrant and Asylum Seekers Labour Market Integration upon Arrival: NowHereLand Irina Isaakyan, Anna Triandafyllidou, Simone Baglioni, 2022-11-18 Through an inter subjective lens this open access book investigates the initial labour market integration experiences of these migrants refugees or asylum seekers who are characterised by different biographies and migration asylum trajectories The book gives voice to the migrants and seeks to highlight their own experiences and understandings of the labour market integration process in the first years of immigration It adopts a critical qualitative perspective but does not remain ethnographic The book rather refers the migrants own voice and experience to their own expert knowledge of the policy and socio economic context that is navigated Each chapter brings into dialogue the migrant's intersubjective experiences with the relevant policies and practices as well as with the relevant stakeholders whether local government national services civil society or migrant organisations The book concludes with relevant critical insights as to how labour market integration is lived on the ground and on what migrants do with labour market policies rather than on what labour market policies do to or for migrants

Hassan,2003-02-15 Judith Hassan s book discusses the kinds of demands placed on those who work with war survivors and opens up issues for others in the field of war trauma to answer in their own particular and appropriate way A House Next Door to Trauma points to a different way of becoming a neighbour to all those who suffer extreme war experiences *Child Refugee Asylum as a Basic Human Right* Sonja C. Grover,2018-05-24 This book addresses the intersection of various domains of international law refugee law human rights law including child rights international law and humanitarian law in terms of the implications for State obligations to child refugee asylum seekers in particular both as collectives and as individual persons How these State obligations have been interpreted and translated into practice in different jurisdictions is explored through selected problematic significant cases Further various threats to refugee children realizing their asylum rights including refoulement of these children through State extraterritorial and pushback migration control strategies are highlighted through selected case law The argument is made that child refugee asylum seekers must not be considered in theory or in practice beyond the protection of the law if the international rule of law grounded on respect for human dignity and human rights is in fact to prevail **Body Counts** Yen Le Espiritu,2014-08-23 Body Counts The Vietnam War and Militarized Refugees examines how the Vietnam War has continued to serve as a stage for the shoring up of American imperialist adventure and for the re production of American and Vietnamese American identities Focusing on the politics of war memory and commemoration this book retheorizes the connections among history memory and power and refashions the fields of American studies Asian American studies and refugee studies not around the narratives of American exceptionalism immigration and transnationalism but around the crucial issues of war race and violence and the history and memories that are forged in the aftermath of war At the same time the book moves decisively away from the damage centered approach that pathologizes loss and trauma by detailing how first and second generation Vietnamese have created alternative memories and epistemologies that challenge the established public narratives of the Vietnam War and Vietnamese people Explicitly interdisciplinary Body Counts moves between the humanities and social sciences drawing on historical ethnographic cultural and virtual evidence in order to illuminate the places where Vietnamese refugees have managed to conjure up social public and collective remembering **Refugee Repatriation** Megan Bradley,2013-03-21 Voluntary repatriation is now the predominant solution to refugee crises yet the responsibilities states of origin bear towards their repatriating citizens are under examined Through a combination of legal and moral analysis and case studies of the troubled repatriation movements to Guatemala Bosnia and Mozambique Megan Bradley develops and refines an original account of the minimum conditions of a just return process The goal of a just return process must be to recast a new relationship of rights and duties between the state and its returning citizens and the conditions of just return match the core duties states should provide for all their citizens equal effective protection for security and basic human rights including accountability for violations of these rights This volume evaluates the ways in which different forms of redress such as restitution and compensation may help enable

just returns and traces the emergence and evolution of international norms on redress for refugees *Refugee Talk* Eva Rask Knudsen, Ulla Rahbek, 2022-07-20 A wide ranging erudite and multi faceted analyses of the fundamental problem of who gets to be counted as human Kate Evans *Refugee Talk* explores cultural responses to the ongoing refugee crisis Looking at ethical questions and political rhetoric surrounding the refugee experience the authors uncover the reality behind the fraught discussions taking place today With an understanding of how to meaningfully negotiate responses through philosophy media representations art activism and literature the authors insist that a radically different approach is needed advocating for along with other reorientations a new refugee vocabulary as a launching pad for interventions into polarised debates By centring conversation as a method and ethical practice to engage in the discourses surrounding refugees *Refugee Talk* is structured around dialogues with academics activists journalists and refugee artists and writers creating a comprehensive humanities approach that places ethics and aesthetics at its core *The Rights of Refugees under International Law* James C. Hathaway, 2021-04-22 The only comprehensive analysis of international refugee rights anchored in the hard facts of refugee life around the world *Administration's Proposed Refugee Admissions Program for Fiscal Year 1993* United States. Congress. House. Committee on the Judiciary. Subcommittee on International Law, Immigration, and Refugees, 1992 *Visual Securitization* Alice Massari, 2021-05-18 This open access book offers an innovative account of how relief organizations visual depiction of Syrian displacement contributes to reproduce and reinforce a securitized account of refugees Through visual analysis the book demonstrates how the securitization process takes place in three different ways First of all even if marginally it occurs through the reproduction of mainstream media and political accounts that have depicted refugees in terms of threats Secondly and more consistently through a representation of Syrian displaced people that despite the undeniable innovative aesthetic patterns focusing on dignity and empowerment continue to reinforce a visual narrative around refugees in terms of victimhood and passivity The reproduction of a securitized account takes also place through the dialectic between what is made visible in the pictures and what is not At the same time the book identifies visual glimmers and minor displacements in the humanitarian discourse that have the potentiality to produce alternative discourses on refugees and displacement beyond the mainstream securitized ones By showing how relief organizations visual representation contributes to the securitization of the refugee issue this book provides a great resource to students and academics in migration visuality humanitarianism and securitization as well as social scientists and policy makers

Refugees and Forced Displacement in Northern Ireland's Troubles Niall Gilmartin, Brendan Ciarán Browne, 2022-10-15 Though forced displacement constituted a central and pervasive feature of the Northern Ireland Troubles effecting tens of thousands of citizens remarkably it has been afforded little more than a footnote or fleeting reference in most accounts of the conflict This book seeks to end the silence surrounding this neglected and ubiquitous aspect of the conflict Based on 88 in depth qualitative interviews with victims and survivors and extensive secondary research this

fascinating study provides the first comprehensive examination of forced displacement in Northern Ireland The analysis presented captures the unique perspectives of those forcibly uprooted over the course of the 30 year conflict and places on historical record their stories and experiences This thought provoking work challenges and broadens prevailing understandings of conflict related violence harm and loss in Northern Ireland to demonstrate the centrality of forced movement territory and demographics to the roots and subsequent trajectory of the Troubles In doing so it shows that to fully understand the eruption and outplaying of the Troubles and its elusive peace engagement with and understanding of the legacy of forced displacement is crucial

The Refugee Abyss Hyab Teklehaimanot Yohannes,2025-08-22 In defiance of the refugee abyss this book presents the flesh of pained bodies and the breath of displaced voices contributing to the thread of traces yet to be forged and the politics yet to emerge in a world where Relation takes precedence The book unfolds in several traces First open wounds and scars represent the refugee abyss revealing the onto epistemic chains that silence displaced voices These voices through embodied subjects recount their struggles in a world marked by violence Second the book questions the rights based order revealing how the human rights project is a new incarnation of the colonial civilising mission It claims to elevate humanity starting with those deemed uncivilised Yet its mask of benevolence once upheld in the metropolises of empire now appears hollow Third the book theorises the nationstate as a womb abyss a matrix that both births and consumes life Fourth it explores the refugee abyss as a realm of confinement and destitution where lives are commodified exploited and destroyed Fifth it shifts from open wounds to the poetics of refuge illustrating how life persists in the shadows of rights and laws while death is inflicted through them Finally it reflects on untamed life emerging from wounds and scars as a proclamation of the unfamiliar and enduring This book will be of interest to students and scholars of criminology criminal justice and refugee studies It will also appeal to political scientists and policymakers interested in issues of citizenship human rights and decoloniality

Refugees Now Kelly Oliver,Lisa M. Madura,Sabeen Ahmed,2019-04-03 This important new book examines the status of refugees from a philosophical perspective The contributors explore the conditions faced by refugees and clarify the conceptual practical and ethical issues confronting the contemporary global community with respect to refugees The book takes up topics ranging from practical matters such as the social and political production of refugees refugee status and the tension between citizen rights and human rights and the handling of detention and deportation to more conceptual and theoretical concerns such as the ideology rhetoric and propaganda that sustain systems of exclusion and expulsion to the ethical dimensions that invoke hospitality and transnational responsibility Ideal for students and scholars in Political and Social Philosophy and Migration Studies more broadly the book provides a critical commentary on material responses to contemporary refugee crises as a means of opening pathways to more pointed assessments of both the political and ideological underpinnings of statelessness
