Regaining Marxism:

Regaining Marxism Ken Post, 2016-07-27 This book responds to recent events by proposing a radical reshaping of Marxist theory Taking the core problem as that of the historical subject it conceptualises human life in terms of four interrelated practices It explores these in turn in the context of a capitalism divided into centre and periphery primarily through nine theoretical reconstructions which attempt to meet such problems as the labour theory of value the nature and role of the state and consciousness

Twentieth-Century Marxism Daryl Glaser, David M. Walker, 2007-09-12 This book outlines and assesses the Marxist tradition as it developed in the twentieth century and considers its place and standing as we move into the twenty first century It is divided into three parts examining Marxism historically geographically and thematically Part 1 analyzes early Marxism in Russia and Europe as it developed after the death of Marx Lenin Trotsky Luxemburg Kautsky Bernstein and the school of thought associated with them are all examined Part 2 deals with thinkers debates and movements that followed the early Marxism focused on in part one and includes chapters on Marxism in Europe the Soviet Union Africa Asia and Latin America Part 3 is concerned with more contemporary debates in relation to Marxism and its standing and role today The chapters in this section consider various themes including the relationship between theory and practice in Marxism democratic procedure and liberties Marxism as an economic critique of capitalism and Marxist methodology Twentieth Century Marxism is not an introspective discussion of Marxism that would be of interest only to a limited number of specialists Rather it provides a thoughtful and stimulating contribution to debates about the role of Marxism today and its future direction

and socialism in Indonesia since the beginning of the twentieth century until the New Order State of President Suharto The focus is on the communist women s organization Gerwani which was by 1965 the largest communist women s organization in the non communist world Gerwani members combined feminist demands such as a reform of the marriage law with an insistence upon a political role for women The organization was destroyed in a campaign of sexual slander orchestrated by the military under General Suharto Hundreds of thousands of people were killed President Sukarno lost his power and General Suharto took over

Recovering Marxism of Karl Marx Randhir Singh,1998 Revolution's Other World Ken Post,2016-07-27 Ken Post examines the turn to the East by the international communist movement in fostering world revolution after the success in Russia in 1917 which led to communism s greatest gains after the Second World War Based on a theorisation of the building of revolutionary movements this study critically assesses communist strategy and tactics using three key cases China India and Brazil drawing out implications for possible future developments in less developed countries

Post-Industrial Socialism Adrian Little,2004-01-14 Post Industrial Socialism provides critical analysis of recent developments in leftist political thought Adrian Little charts new directions in the economy and the effects they have had on traditional models of social welfare and orthodox approaches to social policy In demonstrating the limitations of the welfare state and the associated concept of citizenship this book suggests that we need to renew socialist welfare theory through the evaluation of universal welfare provision and a policy of breaking the link between work and income

A Broad and Ennobling Spirit Ronald Mendel,2003-10-30 With the introduction of new production methods and technological innovation tradesmen and workers encountered new challenges This study examines the development of trade unions as a manifestation of working class experience in late Gilded Age America It underscores both the distinctive and the common features of trade unionism across four occupations building tradesmen cigar makers garment workers and printers While reactions differed the unions representing these workers displayed a convergence in their strategic orientation programmatic emphasis and organizational modus operandi As such they were not disparate organizations concerned only with sectional interests but participants in an organizational network in which cooperation and solidarity became benchmarks for the labor movement Printers coped with the mechanization of typesetting by promoting greater cooperation among the different craft unions within the industry with the aim of establishing effective job control Building tradesmen exerted a pragmatic militancy which combined strikes with overtures to the employers business sense to uphold the standards of craft labor Cigar makers especially handicraftsmen who found their position threatened by machinery and the growth of factory production debated the merits of a craft based union against the possible advantages of an industrial oriented organization Garment workers caught in the snare of a sweating system of labor in which wages and work loads were inversely related organized unions to mount strikes during the busy season in the hope of securing higher wages only to see them wither in the midst of slack periods

Communists and National Socialists Ken Post,1997-06-11 A study of the Russian Revolution of 1917 and the

coming to power of the Nazis in Germany in 1933 in light of the marxist proposition that revolution would come in advanced capitalist societies The implications of the actual cases for the theory are drawn out and an original theorization of capitalist crisis combining economic and political factors is put forward *Revolution and the European Experience 1789-1914* K. Post,1999-08-12 This study argues that the Europe which is now being united was originally the product of the French revolution 1789 95 and then formed by the emergent industrial capitalism Given the prediction and fear that the new working class would launch another revolution which would spread the author investigates why that did not in fact prove to be the case Rather the new working classes were incorporated as part of the dynamics of capitalist development **The Development Dilemma** S. Parasuraman,2016-07-27 The social economic and political contexts in which development projects in India are implemented and consequences to people displaced by such projects are analyzed in this book Development displacement resettlement and rehabilitation processes related to three major reservoir bases irrigation and power projects and three major industrial projects are studied The role of the State international agencies and the private industrial sector in promoting development and managing rehabilitation of the displaced people is assessed and the author proposes a framework for a comprehensive policy on development displacement and rehabilitation **Marx's 'Grundrisse' and Hegel's 'Logic' (RLE Marxism)** Hiroshi Uchida,2015-04-17 Marx s Grundrisse is acknowledged as the vital link between Marx s early and late work It is also a crucial text in elucidating Marx s debt to the idealist philosopher G W F Hegel This book first published in 1988 is the first full length study of that relationship in a thorough textual analysis which makes the connections explicit and also the Grundrisse s relations to the works of Adam Smith and Aristotle This book argues that Marx s critique of political economy and his critique of Hegel are double interrelated Not only did Marx adapt Hegelian logic in order to analyse the economic categories crucial to modern society but it is argued that those logical categories were themselves seen as reflections of the productive processes of contemporary commercial society Uchida reveals a conceptual structure common to the apparently rarefied world of Hegelian conceptual logic and to the supposedly common sensical world of economic science Demonstrating this is a considerable achievement and it allows us to consider precisely what is valuable today in Marx s critical commentary on this conceptual structure and on the type of society in which it is manifested Uchida s subject like Marx s is the force of capital on modern life Transnational Classes and International Relations Kees Van der Pijl,2005-08-10 An exciting and original analysis of the development of capitalist classes such as the Freemasons that cross national boundaries in the global political economy This innovative book focuses on an historical perspective on class formation under capitalism and its transnational integration international relations between the English speaking centre of capital and successive contender states The author develops a broad ranging and thorough understanding of class in the process of globalization He does so within several theoretical frameworks shedding much light on this important topic

The Ethical Foundations of Marxism (RLE Marxism) Eugene Kamenka,2015-04-17 The Ethical Foundations of

Marxism first published in 1962 and corrected and revised for a 1972 edition examines carefully and critically the origin precise nature and subsequent role of Marx's ethical beliefs Drawing freely on Marx's still largely untranslated philosophical works and drafts the author elicits the ethical presuppositions with which Marx began He then examines the intellectual development that made Marx a Communist and seeks to clarify the place of Marx's ethic in his mature materialist work Professor Kamenka distinguishes sharply between the critical ethical views of Marx and the inept conventional applications of his doctrine by Engels He appraises the ethics of the Communist Party and traces the development of the moral and legal theory in the Soviet Union He concludes by subjecting Marxism as a whole to a radical ethical and philosophical criticism for which Marx himself laid some of the foundations

Marxism, Religion and Ideology David Bates, Iain MacKenzie, Sean Sayers, 2015-10-05 As austerity measures are put into place the world over and global restructuring is acknowledged by all as an attempt to bolster the economic system that led to the crash there is a great need to come to grips with the economic political and philosophical legacy of Marx Of particular interest are Marx's analyses of alienation and the cycles of boom and bust thought to be integral to the functioning of capitalism Moreover as the Cold War drifts into the history books it is possible to reconsider the lasting impact of Marx's analyses without the shadows cast by the Soviet version of communism Equally though scholars are increasingly turning to Marx for insight into the rise of religion and the corresponding demise of political ideologies that seems to mark the contemporary age Are we witnessing the return of Marx Few scholars have done as much to tease out the intricacies of Marx ideology and religion and their overlapping concerns as the eminent writer and Marx biographer Professor David McLellan This book brings together a group of internationally renowned academics to reflect upon develop and criticise McLellan's analyses of these three themes with a view to contributing more broadly to scholarly debates in these fields This exciting and timely analysis will be of interest to scholars of political theory the history of political thought including historical methodology Marx and Marxism sociology of knowledge particularly in relation to discussions of ideology religion and theology more widely

Philosophy and Myth in Karl Marx Robert C. Tucker, 2017-07-05 In Karl Marx's early writing first made available many years after his death his economic interpretation of history and his concept of communism were set in a comprehensive philosophical framework Marx's main preoccupation at this time was with man estranged from himself in an alienated world a subjective almost religious theme Taking full account of these earlier writings Robert Tucker critiques and reinterprets Marx's thought He shows how its origins can be located in earlier German philosophers in particular Kant Hegel and Feuerbach Reconstructing the genesis of Marxism in its founder's own mind he clarifies Marx's mystifying contention that Marxism represented Hegelianism turned on its head He then presents a new interpretation based on close textual analysis of the relation between Marx's early philosophical system and the subsequent materialist conception of history as expounded in the later and best known writings of Marx and Engels Against this background Tucker presents *Das Kapital* as a work belonging to the post-Hegelian mythical development of

Germany philosophy Considering in turn the genesis of Marxism and the underlying continuity of his thought from the early writings to Das Kapital Tucker shows the theme of alienation is central throughout In the years since the book was first written comments and criticism have encouraged Tucker to change his position somewhat This is explained in a new introduction that goes beyond the interpretative enterprise of the rest of the book to assess Marx in relation to contemporary concerns first it presents a critique of Marx s treatment of alienation and then it comments on the moot problem of the continuing relevance of his social and economic thought On the latter point his views have matured and altered during the intervening years and he now finds the economic and social aspects of Marx s thought considerably more relevant than he did before

The Meaning of Marxism Paul D'Amato,2006-06-01 In D Amato s able hands Marxist politics come alive and leap before us pointing a way toward a better world It s a knockout Dave Zirin author of What s My Name Fool Sports and Resistance in the United States In this lively and accessible introduction to the ideas of Karl Marx with historical and contemporary examples D Amato argues that Marx s ideas of globalization oppression and social change are more important than ever Paul D Amato is the associate editor of the International Socialist Review His writing has appeared in CounterPunch Socialist Worker and SelvesandOthers org He is an activist based in Chicago
