Riding The Tiger The Politics Of Economic Reform In Post Mao China:

Riding the Tiger Gordon White, 1993 These changes Gordon White argues are in turn giving rise to ineluctable pressures for reform in political institutions thereby exploding the original assumption underlying the reforms that economic transformation could be achieved without fundamental political changes **Mao's China And Post-mao China: Revolution, Recovery And Rejuvenation** Robert Weatherley, 2022-09-06 If the history of modern China was written as a book its author would be accused of losing touch with reality During the twentieth century China underwent two revolutions a number of wars endured a radical and destabilising form of communism and then hurried quickly towards a system of open market economics whilst remaining under the control of a nominally communist party Currently the fastest growing economy in the world with an increasingly sophisticated and expanding military China is widely expected to emerge as the world's next superpower eclipsing the United States in the not too distant future However not everything is going smoothly for Beijing Unemployment rates are spiralling inequality is rife and official corruption at all levels remains an Achilles heel for the Chinese Communist Party despite Xi Jinping's best endeavours to wipe it out Worst of all environmental degradation is at such a serious level that it threatens the success of the Chinese economy and the stability of Chinese society Against this scarcely believable backdrop and based on a series of lectures seminars and research conducted by the author **Mao's China and Post Mao China** captures the dynamics dynamism and disasters of Chinese politics since the establishment of the People's Republic of China in 1949 This advanced textbook identifies three key themes that have underpinned the post revolutionary era the so called three Rs Revolution Recovery and Rejuvenation and is essential reading for anyone interested in the politics of modern China at the undergraduate and postgraduate level **The Politics of China's Accession to the World Trade**

Organization Hui Feng, 2006-01-16 Grounded on a series of first hand interviews with Chinese government officials this book examines China's accession to the World Trade Organization providing an inside look at Chinese WTO accession negotiations Presenting a systematic political economy model in analyzing Beijing's decision making mechanisms the book argues that China's WTO policy making is a state led leadership driven and top down process Feng explores how China's determined political elite partly bypassed and partly restructured a largely reluctant and resistant bureaucracy under constant pressure from an increasingly globalized international system By addressing China's accession to the WTO from a political analysis perspective the book provides a theoretically informed and intriguing examination of China's foreign economic policy making regime The book highlights contemporary debates relating to state and institutionalist theory and provides new and useful insights into a significant development of this century **Endogenous Origins of Economic Reforms in India and China** Rajiv G. Maluste, 2011-07 Attitudinal change in the context of economic reforms has been referred to in Rodrik and Subramanian 2005 DeLong 2003 Kohli 1989 and Panagariya 2004 2008 This dissertation provides empirical support for this literature establishing an earlier start for India's economic policy liberalisation than presented in stylized

accounts It demonstrates the endogenous nature of the origins of these policy shifts Attitudinal change literature had directed attention to the need for further research into India s policy changes of the early 1980s and for studying broader comparability issues in other developing countries This research makes a contribution towards filling these gaps This dissertation shows that India started its economic liberalisation under the Indira Gandhi administration from 1980 to 1984 These findings depart from the conventional view that India s economic policy changes were initiated by the Narasimha Rao government in 1991 or by the Rajiv Gandhi administration in the mid to late 1980s The dissertation establishes that policy shifts of the early 1980s had endogenous origins in the political leadership s attitudinal changes The Indira Gandhi administration of the early 1980s revisited the statist policies of its previous tenure from 1966 to 1977 The new approach entailed more openness towards private enterprise scaling back the role of the public sector and starting India s integration into the global economy The dissertation also discusses the comparable role of attitudinal changes at the start of China s policy liberalisation led by Deng Xiaoping from 1978 to 1982 It focuses on the significance and challenges faced by China s political leadership in bringing about societal attitudinal change The dissertation concludes by drawing comparisons between India and China developing a linkage between their endogenous attitudinal changes and economic policy liberalisation

The Nature of Chinese Politics: From Mao to Jiang Jonathan Unger,2016-09-16 This book describes and analyzes how politics among the Chinese leadership has operated and evolved from the period of Mao s court up to the present day Part I explores politics under Mao and Deng For this section the five leading western analysts of elite Chinese politics Lowell Dittmer Lucian Pye Frederick Teiwes Andrew Nathan and Tsou Tang have contributed major papers that measure the empirical evidence against political science theory recent Chinese history and Chinese political culture Part II explores and analyzes the ongoing changes in Chinese politics during Jiang s tenure and includes analyzes by almost all the leading English language scholars in the field

Disenfranchised Joel Andreas,2019 In the decades following World War II factories in many countries not only provided secure employment and a range of economic entitlements but also recognized workers as legitimate stakeholders enabling them to claim rights to participate in decision making and hold factory leaders accountable In recent decades as employment has become more precarious these attributes of industrial citizenship have been eroded and workers have increasingly been reduced to hired hands As Joel Andreas shows in *Disenfranchised* no country has experienced these changes as dramatically as China Drawing on a decade of field research including interviews with both factory workers and managers Andreas traces the changing political status of workers inside Chinese factories from 1949 to the present carefully analyzing how much power they have actually had to shape their working conditions

Chongqing's Red Culture Campaign Xiao Mei,2017-07-06 Based on fieldwork conducted in Chongqing including interviews and document analysis this book examines the nature of Chongqing s Red culture campaign and the interaction between the political programme and the practices of its participants above all analysing how far the the campagin was a

return to Maoist revolutionary mass campaigning *Stealing the State* Steven Lee Solnick,1998 Solnick argues that the Soviet system fell victim not to stalemate at the top nor to revolution from below but to opportunism from within In case studies on the Communist Youth League the system of job assignments for university graduates and military conscription he tells the story from a new perspective testing Western theories of reform **China and India in the Age of Globalization** Shalendra D. Sharma,2009-07-20 The rise of China and India is the story of our times The unprecedented expansion of their economic and power capabilities raises profound questions for scholars and policymakers What forces propelled these two Asian giants into global pacesetters and what does their emergence mean for the United States and the world With intimate detail Shalendra D Sharma s *China and India in the Age of Globalization* explores how the interplay of socio historical political and economic forces has transformed these once poor agrarian societies into economic powerhouses This book examines the challenges both countries face and what each must do to strike the balance between reaping the opportunities and mitigating the risks For the United States assisting a rising China to become a responsible global stakeholder and fostering peace and stability in the volatile subcontinent will be paramount in the coming years Asian Politics in Development Robert Benewick,Marc Blecher,Sarah Cook,2004-08-02 This volume adopts a multidisciplinary and comparative approach to development that brings together issues that are characteristic of the lifelong scholarship of Professor Gordon White These include a focus on the state civil society welfare and globalization **Changing Political Economy of Vietnam** Martin Gainsborough,2003-08-27 This book explores the way in which the state has become commercialised under reform as party and government officials have gone into business and considers the impact that this has had on politics within Ho Chi Minh City and Hanoi The book charts the way in which power has been decentralised to the lower levels of the party state but argues that the central state retains significant power These issues are explored through a variety of case studies including the implementation of different reform policies struggles over political and business activity and the prosecution of two major corruption cases Particular emphasis is placed on piecing together the myriad of informal practices which dominate business and political life in Vietnam China Against the Tides, 3rd Ed. Marc Blecher,2009-10-15 *China Against the Tides* 3rd Edition argues that in both Mao and Deng periods China evolved in ways quite different from the Soviet model and from other developing countries Using an interdisciplinary and comparative approach the book analyzes China by introducing theories and concepts from historical and political sociology economic development and political science It also explores China from two comparative perspectives developing countries including the newly industrializing countries of East Asia and historical state socialist regimes *China Against the Tides* 3rd Edition seeks to combine both the internal perspectives of the actors themselves with the external standpoint of the social scientist China is of course unique but so are all countries But like other countries its distinctiveness can best be grasped by observing it from outside as well as from within Every chapter in the third edition as well as the end bibliography has been updated In addition a new section

examines China's international relations and new coverage has been added throughout the chapters. For example, the third edition discusses the Hu Wen leadership that came to power in 2002, China's economic growth and social development, internet technology, the continued drumbeat of protests of various kinds, the situation in Tibet, the Olympic Games, the May 2008 earthquake, plus smaller but still notable events such as the 2003 SARS outbreak, the Three Gorges Dam, and the 2005 pollution episode on the Songhua River.

China Bound, Revised Social Science Research Council, National Academy of Sciences, American Council of Learned Societies, Committee on Scholarly Communication with China, Linda A. Reed, Karen Turner-Gottschang, Anne F. Thurston, 1994-02-01. Being prepared in China says one researcher can mean the difference between a headache and a productive day. Acclaimed by readers, this friendly and practical volume, now updated with important new information, offers all the details academic visitors need to make long-term stays in China productive, comfortable, and fun. Academic opportunities have been revived in the years since the Tiananmen Square event, and the book opens with an overview of what we have learned from our academic exchanges with China, the opportunities now available, and resources for more information. To help visitors prepare for daily life, the book covers everything from how to obtain the correct travel documents to what kinds of snack foods are available in China, from securing accommodations to having the proper gift for your Chinese dinner host. Frank discussions on the research and academic environments in China will help students, investigators, and teachers from their initial assignment to a danwei or work unit to leaving the country with research materials intact. The book offers practical guidelines on working with Chinese academic institutions and research assistants, arranging work-related travel, managing working relationships, resolving language issues, and perhaps most important, understanding Chinese attitudes and customs toward study, research, and work-life. New material in this edition includes an expanded section on science and social science field work with a discussion of computers, which one's work best in China, how to arrange to bring your computer in, where to find parts and supplies, how to obtain repairs, and more. Living costs, health issues, and addresses and fax numbers for important services are updated. Guidance is offered on currency, transportation, communications, bringing children into China, and other issues. Based on the first-hand reports of hundreds of academic visitors to China and original research by the authors, this book will be useful to anyone planning to live and work in China: students, researchers, and teachers, and their visiting family members, as well as business professionals.

A Political Economy Analysis of China's Civil Aviation Industry Mark Dougan, 2016-04-29. First published in 2002. This volume is a political economy analysis of China's civil aviation industry with a focus on the reform period beginning in the late 1970s up to the present. The chief aim is to identify and analyze the most important political economy variables impacting on the industry's development during this time.

The Democratisation of China Baogang He, 2002-11-01. The events of 1989, culminating in Tiananmen Square, highlighted the extent to which democratic ideals had taken root in China. Baogang He traces and evaluates the political discourse of democracy in contemporary China, identifying the three main competing

models of democratization that dominate current Chinese intellectual trends Analyzing the political implications of these models the author considers how the theories may be put into practice in order to develop an appropriately Chinese conception of democracy **Contesting Citizenship in Urban China** Dorothy J. Solinger, 1999-05-17 Post Mao market reforms in China have led to a massive migration of rural peasants toward the cities Denied urban residency this floating population provides labour but loses out on government benefits This study challenges the notion that markets promote rights and legal equality *Comparative Politics* Jeffrey Kopstein, Mark Lichbach, Stephen E. Hanson, 2014-07-21 Twelve in depth case studies of the EU and countries across the globe written by the leading country specialists and combining insights of cutting edge institutional analysis and deep study of national histories explore how the concepts of interests identities and institutions shape the politics of nations and regions The country studies trace the global and historical contexts of political development and examine the diverse pathways that countries have taken in their quest to adapt to the competitive pressures of twenty first century globalization These country studies constitute the overarching framework of the text addressing the larger question why are countries ruled and governed so differently Free of heavy handed jargon *Comparative Politics* inspires thought provoking debate among introductory students and specialists alike and encourages students to engage in real comparative analysis In this new edition all twelve country studies have been rewritten and the first two theory chapters have been updated to reflect the latest research in the field Political Party Systems and Democratic Development in East and Southeast Asia Wolfgang Sachsenröder, Ulrike E. Frings, 2018-08-16 First published in 1998 this is the second of two volumes which will be of great value to scholars and students of politics in East and Southeast Asia A rich readable reference tool they offer extensive surveys of the history structure culture legal context and financing as well as the progress travails and prospects of political parties and electoral systems in 13 countries The excellent introduction and the detailed country case studies demonstrate the wide range of political experiences in Asia Rather than affirm the thesis of a common set of Asian values hostile to democracy they show that in much of East and Southeast Asia people want the political choice and accountability that come from free and fair electoral competition with open effective political parties *Area Bibliography of China* Richard T. Wang, 1997 A combination of scholarly commercial and popular interests has generated a large quantity of literature on every aspect of Chinese life during the past two decades This bibliography reflects these combined interests it is broken up into sections by subject headings and cross references refer the researcher to related topics *Popular Political Support in Urban China* Jie Chen, 2004 On the basis of three carefully drawn surveys of Beijing residents between 1995 and 1999 the author finds that diffuse support for the current political system based on attitudes toward institutions and values remains strong at least among city dwellers though it is gradually declining
